

Toronto

June 6. 75

My dear Dawson,

Many thanks
for your kind wishes
and congratulations on
the change in my
state of life. With
regard to my N. W. Angle
collection of plants, those
found by myself I
am positive about,
the rest, as I told you,

were taken from a
collection made by one
of the H. B. Co officials who
was there at the Angles.
I saw his collection, but
did not analyze to see
if the names he had
attached to those I copied
into my list were correct,
however I take it for
granted they were.

I should be obliged to
you if you would, as you
say, have sent to me
your W.S. list when the
additional names arrive.
I will then try what I
can do with my collection,
one set of which I am
thinking of turning over to

Monday night Prof. Hall - that at the
University here. I had an letter from
Anderson the other day also one from
Barnes; the latter writes me some articles
Copies of London having found a most
favorable opinion with regard to his
quite necessary the use of his eyes.
Yesterday was over from Fort Niagara,
where he is now stationed, to see on
last week and bring it with him
his books, (also sent him some), who appears
to be very well. Fair as your friend

to send me when finished
a couple of your reports, I
should the plant list be later
send it afterwards.

Don't fail when passing this
place to come and see
me even if only for half
an hour. I live corner of
George & Magell Sts.

Millman I think I
told you had gone to
the old country to remain
for a year.

When not too busy
write me to say you
are alive. What are
your plans for the summer?

Very sincerely yours.

J. M. Burgess.
