Dear Sir

I have made out a list  
of my papers & publications  
which treat of the region west of  
the Rocky Mountains, & enclose  
the same with this hoping that it  
may answer your purpose. See  
Sample on the Canadian Naturalist  
I have added all the papers  
having to do with the region - whether by  
myself or not, in volumes 8 & 9.  
In the Geol. Survey Reports I send

by same mail a wanted  
 copy of printed Catalogue, &  
 have added to my memorandum  
 the later publications to bring the  
 list up to date. In this way I  
 have furnished you with a list  
 of all the publications directly  
 having on the West Coast region  
 which have been made by the Geol.  
 Survey.

From the Canadian Parliamentary  
 Reports I have mentioned only the  
 papers on Brit. Columbia by  
 myself. There are many others  
 included dealing chiefly with  
 Engineering features.

Quote the following errors in  
your Catalogue. —

p. 3~~73~~<sup>45</sup>. Scudder's two papers should  
be pub. Montreal, not Toronto.

p. 269. My paper on Lacust Luviana  
does not treat of the region W.  
of the Rocky Mountains.

p. 288. Hinds' reports I think  
you will find are confined to the  
Country East of the Rocky Mountains.

My Report on the Geology & Resources  
of the 49th Parallel should also  
strictly speaking, be included as  
part of the Rocky Mountain region  
described lies west of its watershed.

of the world of the  
things of the world

I observe, however, that many  
works are cited which refer to  
County E. of the Rocky Mountains.  
eg. Hearn (p. 286) who was never  
west of the Coppermine & Athabasca  
Lakes.

You will excuse my allusion  
to the points, made merely with  
the purpose of assisting you in  
your undertaking, which must  
be a work of great labour. I shall  
be glad to be of further service  
in the matter if needful

Yours very truly
