

July 3/88

Dear George,

Your letter from
Hamloops reached
me just before leaving
town. I came away
hurriedly, not feeling
well, and am resting
here, where we have
quite a colony, in the
Hamingtons, Florence
and ourselves. I
am glad you had
a pleasant journey

across and hope the
difficulties in finding
transport have long
ago disappeared
I had a pleasant
letter from Bunny
this week. He
quite readily makes
take the prosecution
of your candidature,
but says it will
be useless to do
anything till Sept

when he returns from
his summer vacation.
He had not received
the copies I sent
him of qualifications;
but I shall take care
that he is supplied
again before Sept.

We are all well
and I am hoping for
a little quiet time here
to devote to writing
and to other matters.
William Gleason has
reached business

and I suppose will be
long with abstract
business. Rowtime has
gone on another voyage
but we have not
learned the ship - his
name however the desti-
nation to be Australia

See a friends
notice of June "Bally
River Series" by White
in June no of Silliman
He seems to think
something of the same
kind will be found in
the U States.

With love from all
here, ever yours,

J. M. Dawson
