

McGILL UNIVERSITY ARCHIVES
ACC. NO. 909B/12
REF. 18

McGill College,
Montreal.

Dec 12/88

Dear George,

I enclose a
note from Bunnay which
please return when
you have read it.

I regret that he
should have had
the trouble of reading
the application. I
did not know that
print was prohibited;
but I have apologized
to him. The number

and quality of your
preparers in very satisfactory,
but you must not be too
Jaunivine as to
immediate success.

Bonney is sceptical
as to coroon. I do
not wonder at this,
but I am quite sure
but I wait in
the matter. Since
day I have no doubt,

perhaps after I am
gone, the Laurentian
will feel as its fossils
beyond dispute. The
whole of the Archean
geology is at present
much in the same
condition with the
Silurian before Murchison
& Sedgwick & the Tertiary
before Lyell. Looking
back to the views
on those subjects taught
by Lamarck now nearly

When I was a student
fifty years ago, I can
at least hope that
the next half century
will see similar changes
as to the Archæans and
even as to the Silurals.
In the mean time I
may record my own
results, and leave the
decision to time.

I hope in a few
days to send Mrs Eoson
for Rowenburgh.

I sent the tables
of pinnacles in C.W. yesterday

Ever yours

W. Dawson
