

Windsor Hotel
Montreal
May 1, 1893

Dear George,

We have taken
up our quarters here for
a time, till we can
get the Convocation over
and servants collected.
The dinner is now past,
and I read you a
paper with proceedings
of the last meeting.
We have really been
received with great
kindness, and feel

ourselves among old
 friends again. I have
 not been able to
 learn anything as
 yet respecting the wishes
 of the Board of Governors,
 as they will not meet
 for three weeks, and
 I can only leave a little
 casually in the mean-
 time. I have first to
 get definitively out of
 the teaching work, and
 with this of one half
 of my salary. Then as
 to the remainder of the
 work, if I care for an
 act at Suray perhaps
 do so for a year, made

especially as I shall need all my work
 able funds to provide for Frank's
 in better englobe, for William's he is
 sent off by the C. F. R. and for Anna
 and her family. It seems as if, in
 regard to family necessities, it were
 plain that it were, this is one
 of the reasons why I hope that we
 will receive some adequate remunerative
 for our working, see with, so that
 we may have at least see for ourselves for,
 It seems as if Washington and William and

4
I trust you also, will demand the full entry
our satisfaction, however I shall not
complain, so long as you have health
and we feel well,

As to property, I have merely
thought of it as an investment, and
^{away} of providing a home for Anna and her
children when turned out of the old
place, and I wish will depend on
my own position in regard to the
College residence, I shall not be in

a hurry, and shall
 wait a chance. You
 must bear in mind that
 at present one can scarcely
 get more than 4 percent
 in any safe investment,
 and that if one
 could secure that much
 for property likely to increase
 in value it would
 be better than uncertain
 stocks.

Found here several
 copies of a British
 Association Report on
 Indian Tribes, addressed
 to you; and shall
 send one to you by mail,
 if I can do anything

With them for you, please
inform me.

Mamma intended to
have written by this mail,
but has been prevented by
visitors and engagements.

The winter is fairly past
here, and the ice and
snow gone; and Crocuses
and other early spring
flowers out; but the
air is still cool, and
we have had two wet
days since we came.
Still the climate is about
as good as some farther
South were in the winter,
for we do not feel the

7
were for the 'change' and after
took a winter then shared with the
a fine memory.

Samuel has had a severe cold,
much to his disgust at this time,
The best we all well.

Ever yours, and with
kind regards from Mamma

M. D. M.

with them for the purpose
of forming one.

Chlorophyll is contained in
green plants & the leaf
but has been present in
plants and vegetables.
The winter is cold but
less, and the ice and
snow goes, and comes
and the cold spring
comes out; but the
air is still cool, and
we have had two wet
days since we came.
But the climate is about
as good as some of the
best is in the winter
for we do not feel the
