

Wickenshaw,  
Little Metis.

July 7/94

Dear George,

We have yours  
from Settlebridge of June 28,  
and are glad to hear  
of your progress.

Here we have  
no news, which with  
so many children  
about, may be con-  
sidered good news.

Bernard is due  
to-day at New York,  
on the Canada Steamer,  
and we expect will  
stay over with Anna

and then come in  
here. Eric at last  
accounts showed little  
or no improvement.  
I hope your Scurvy's  
cure will be successful,  
and if you happen  
to find any place  
where the Kootane  
plants are plentiful  
that you will bring  
out specimens; but  
possibly this may be  
quite off your line

of March.

The session I believe  
is likely to close peacefully  
in Ottawa, and the  
intercolonial Conference  
is in full swing, all  
our college matters seem  
to be in stable gro.

Manning and all  
here send kind love  
and good wishes.

William was last  
heard from at Gony  
C.B., and his address  
now is Futaba Bay,  
Labrador. He is

Makes no sign of leaving  
British Columbia. Just  
they much be cured  
~~settle there~~

All love and  
good wishes,  
Ever yours

Wm Dawson,

P.S. I am getting a little  
writing done re Peter  
Redpath Museum &  
~~other matters~~
