

Birkenshaw,
Little Metis.

Aug 23/94

Dear George,

I received ^{day before} yesterday
 your Boninot proof of
 your adelpes. I have read
 it carefully, and have
 made a few slight changes
 in punctuation &c, which
 I hope you will approve.
 It goes back to Ottawa
 to-day. I have said
 to Boninot that, unless
 he has other instructions
 from you, he had better
 print 200 author's copies
 with title page and com.
 I enclose rough copy of

The title page I have sent
to him. The address will
read very well, though
it might have been
lightened by a little
more titling padding
You should see that
copies of it are sent
to members of Govt,
Legislature, &c. I shall
ask Brainerd to send
the author's copies to
the Survey, except 20
to me in acknowledgment,
in case you should wish

to me about distilling
any before your return.

Eva is with us,
and looks well. We
are all to go up
to Montreal on the
4th Sept. She keeps
apparently the same,
Her worst symptom is
continued slight fever,
She eats better however,
and seems a little
better in general health.
The rest are all well,

P.S. I shall hope to send you this week ¹⁰ a mutual list
Address: hope to send you this week ¹⁰ a mutual list
of subjects are
Sabineburg
of the
very clear
ms

And William writes
from Sydney, to which
he returned last week
from his cruise in
Sts of Belleisle and
Cabots' Straits, where
Matters went on the
whole satisfactorily, though
with some difficulties
as to instruments and
anchorage.

With love from all
of us and best wishes
Yours ever
JMS Brown
