My dear George

Your mind is accustomed
to stretch itself over such infinite
erion? of time that in thinking
of the anniversary of your birthday
I have been wondering whether
to give the gears, as they speak, as
add anything matter counting
to the small total. Be this as it
may when I remember the date it
gives the opportunity of expressing my
thankfulness that you have passed

safely through so many dangers
 & are still here & holding an honour-
 able position - doing valuable service
 to the men of this & I hope future generations
 & I trust, dear George, that you have ^{many} ~~many~~
 years before you of health & increasingly
useful work.

Let me also thank you for a "Graphic",
 received a week ago, which is this a
 pleasant "pick up" for leisure minutes.
 One of the pictures is quite pretty - #46 -
 I intend to adorn an aus. room with
 it.

All here are well. Conrad improving.
 Mr. Taylor came Saturday night & Miss Carey
 off Mary Wed: night. A short story on his part
 and the new Diocesan. Alley - must be hurried
