Dec 31/95-

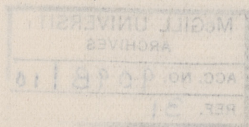

Dear George

On this last day
of 1895, I send you very
sincere good wishes for
your prospects and happiness
in 1896, and I need not
say that dear Mother
joins me most cordially.

I have just received
from White of Washington
the Bulletin of the U.S Survey
No 128, on the fauna of
the "Bear River Formation"
which seems to me to
have some resemblance

January. Have you any
 thing of the kind? It
 might be useful.

I have received Rouane's
 "Thoughts on Religion" of which
 I spoke to you. It is sincere,
 what crude and unfinished,
 but very remarkable, and
 I think valuable. I would
 ask you to read it with
 care, and to return it
 to me, as I may wish
 to refer to it. The second
 part of it is the most
 important and will not

take my to read. It is
 the thought of an able
 and earnest enquirer
 as to Religion, and includes
 many principles which I
 have laboured to enforce
 with our Christians and un-
 believers, and which lie at
 the root of our relations
 to the material and the
 spiritual.

So dear George read
 this little book, and give
 it thought, for my sake.

Dear yours

Wm Dawson
