

L. Metis,

July 13/94

Dear George,

Just a line in
 reply to your letter of 11th
 received last evening.

As to the error in the
 paper on cryptosom I can correct
 there for final publication, and
 no publication is denied to
 the Report of that club except
 the short abstract. I had

thought of preparing a fuller
 abstract but have not time.

As to the Abbotson note, I per-
 sume the cut & long have been
 transposed, but I have neither my
 M's nor Agassiz's paper here to
 refer to. Draw the ven through
 the cut & long. My acc of no

Consequence and in reply
I shall give the reference
to the Report or Memoir of
the Cambridge Museum which
I have at home. If you can
send me a proof of the abstract
when in type I shall be glad;
but the paper I propose to
publish elsewhere. If I can
get time I shall send you the
contents to guide any one
who may refer to it.

As to the Mastodon
a Mammoth I quite agree
with you; and as it is in
Essex County in W. Ontario
near Detroit where the char. of
a Mastodon, I have no doubt
some of its members will
be found of of any value

He would be well received
after the meeting to find out
the species and to collect
the shells and bits of
wood said to be found
with it as evidence of date
and climate.

I must apologise for
troubling you about these
things at a time when you
have so much pressing
on you. I shall take your
advice not to worry over little
matters which people write
to me about or make any
engagements.

With all good wishes and
the prayer that you may have
strength and wisdom to do
all things well, and love you
all here,
Yours ever
GND

P.S. I enclose a little
memoir for my reporter which
may not inform, or for
Adams of the or Matthew or
parent, and of the case as
say anything on the subject.

W.D.

I think of writing a paper for
something for about three
things at a time when for
I am for about preparing
on for, I shall take for
others out to know or with
whether which paper will
the the about a week or
engagements.
With all good wishes that
the paper that for every year
strength and wisdom to the
all things well and true for
from ever
W.D.
