

5.  
Genl W. H. Hutt St. Able.  
hope when you wrote  
to him you were better  
acquainted with his  
achievements in dignities than  
he seems to be in yours.  
Please take it all to  
Genl Lord's his new  
Reports as soon as he  
gets them.  
With love from  
Mother  
I hope you will  
be as well  
when you draw him

93 University St  
Montreal

James (of Mercury) yesterday. It has some inter-  
esting & amusing news - any artificial honor  
bestowed upon you is the most gratifying  
to us & I hope the new initial letters added to  
the string these pieces then merit the respect  
of those who imbedded them. The play like  
time will increase in value with age &  
if you could live for three or four hundred  
years it would be a present worthy of the reigning  
Sovereign - failing that if you could provide for  
its safety until a Dauphin possessed a palace  
or a Castle you might give it to the dauphin.

So you can see it & know when exquisite  
 pain a gathering of this kind can give.  
 Nurse has been with us at night for four  
 nights, to be with papa, & allow me to do my  
 governing alone. Last night I had an all night  
 sleep & feel quite restored to day & she  
 remains tonight also. So you see how I am  
 cancelled & cared for. Anna <sup>thinks</sup> she has done  
 well - too for papa calling off his attention  
 for himself & giving him something to manage  
 & feeling responsibility. It was a cruel show,  
 on the part of Mr. Graham, to allow <sup>such a</sup> careless in-  
 sersion into the the above of father. It was  
 cabled to England & to the U.S. Rankin & Eric  
 both were alarmed & cabled for immediate  
 intelligence. Lord Streetton also sent a kind  
 cable & letters now flood in for parts of Canada  
 & the U.S. Miss Lunn is desirous to know the  
 name of the "Times" correspondent in Ottawa. Will  
 you let me know? What a nice letter this is for -
