

Ans.

Toronto Nov 27 1899

My dear Dr. Dawson,

I beg to be allowed to express my sincere sympathy with you in your bereavement.

Your father has rounded off a noble and useful life, spent in the interests of education and science for the good of our country. He deserves to be held in long and loving remembrance by Canadians of every class, and by educationists and scientists everywhere.

Yours very truly,  
A. Blue.
