

Little Metis
Sept. 2^d 1900

Dearest Gary, I hope the
Western Trip has been satis-
factory. We have had per-
fect weather ever since
Aug. began. I now it has
risen to a serene & high
calm, & glow, & peace that
seems wonderful. But each
day we wake to another,
though rain may have
fallen in the night.

Metis will be pretty
empty after tomorrow.
but a good many cottages
linger on, a few days, or a
week longer. Conrad goes

you had some hope of winning them, &
w^d be charming if you c^d: but I fear
by Net - s business by the end of the
week, as I must - withdraw my pen
accordingly = w^d you dislike going to
business if you c^d not - some other
reference to be as 18th 9 -

Do you happen to know that
heath about Roberts? I mean does he
I w^d like the girls to see it - I
have hinted what we have: He has
all been reading Bradford's & ask
much interest in it - It is almost
to nearly the extent of her
all that approval of Robert's

tomorrow - Bernard (Jr) the following Monday, & we about a week later. Mother still feels inclined to stay till end of month. for various reasons which I think good, but she is nervous about the night when we all leave. I advise her returning to Maria's with Clare, & I will take her maid if I keep, but till the time for arranging mother's town has arrived. Mother likes the idea, & thinks she will perhaps be able to read, & sit out of clares more, if detached from her house & its suggestions - but if you are able to come down it of course changes this, she wd not be nervous at night - & she might not want - Clare = I believe

on the part of the presbytery consultation
attracted, as has been learned official
but we'd like to see H. go back to
reformation service & spend an hour
or two ago - have Henry's resolution
have happened -
