

Canadian Pacific Railway

Office of the Engineer-in-Chief

Ottawa Nov 7th 187

My dear Sir

I was very glad to
get your telegram the other
day arriving you arrived
at Edmonton. I at once
telegraphed you stating that
you had been heard from

The Minister of Railways
& Canada Sir Charles Tupper
wishes me to write you
and asks you to endeavor

to bring back with you
all the information you
get procured respecting the
coal that is reported in
the paper to be discovered
in the Amnibon - I
am somewhat doubtful
about it myself but no
doubt some of the people
about Wrentham have
been prospecting for coal
in the series and possibly
its value is that much.

may be assured. Mr.
Murdock one of my staff
told me something about
it & while you are in
Vancouver it might be
well to see him. He
will be able to tell you
a good deal about it so
let you know who has
been exploring in the
mountain region to. I shall
be glad to welcome you
back to Ottawa

Yours very

J. M. Davidson
Sandford Fleming
