You will write by mail
of next Thursday as
to lodgings and other
matters and I hope
you will be on hand
to receive them when
~~you~~ they arrive.

George is with us
to-day and is well
and sends his very
kind regards. William
and Florence are well

and little Victor is
flourishing and I hope
may hand down the
name to another
generation of good
and useful men.

I shall look to
you to attend to the
concupiscence in a way such
as to lodging us and
hope that then coming
and the time of it.

Charly Jubb called today for your
address wishing to write about the coal
properties at Med. Wat. I gave it to him
and said that in event of anything needing
to be done before hearing from you I thought he
ought not to lose the properties. He did not however
seem to think it would be so urgent. ~~He~~

Very harmonious with
your plans and
arrangements,

Good newspapers
abundant and hope you
receive some of them,
but Canada at present
fortunally has little
trading and I hope
may not share in
the prevailing turbulence
and unrest.

Yours truly
Wm Dutton
P.S. I shall send to London a
copy of a recent local paper
