Reciprocal Interchange of Student-Teachers between
Scotland and Canada.

Dear Sir,

I am in a position to submit to you for your observations, preliminary proposals of a scheme which my Committee have been considering for some time, towards the establishment of student-teacherships in Scotland and corresponding ones in America and in Canada in connection with the reciprocal interchange of teachers.

This Memorandum must, as yet, be considered only in the light of preliminary proposals, but as such they have been submitted to, and generally approved by, my Committee. They may to some slight extent yet be modified, probably towards the extension of the statement of duties, etc., but, substantially, I think they may be considered sufficiently advanced to be founded upon.

I am in communication with the American University Union in Europe, and the officials of that organisation have very willingly undertaken to approach the authorities of Teachers' College, Columbia University, New York, on the question.

The preliminary proposals show that my Committee are willing to establish two student-teacherships for Session 1925-26, one for an American University and one for your University on the condition that there are reciprocal appointments, on similar conditions, from Teachers' College and your University to work in Scotland.

I shall be pleased to have from you, at your early convenience, a note of any observations you may have to make upon these proposals. Meantime, should they meet with your favour, I would ask you to indicate in your reply/

reply any modified criticism of them suitable to the circumstances of your University.

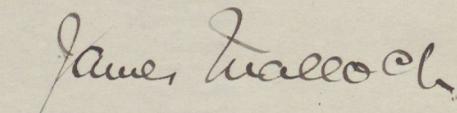

My Committee have in view, in a subsequent Session, the enlarging of the scheme towards the institution of two further student-teacherships - one to be held from an Australian University and one from a University in New Zealand.

I may mention that you have already on your Staff two gentlemen who worked under my direction in University College, Dundee, namely, Professor S. Laird, Dean of the School for Teachers, Macdonald College, and Associate Professor, Dr. J.P. Day of the Department of Economics.

In anticipation of your early reply,

I am, Dear Sir,

Yours most faithfully,

Executive Officer.

CENTRAL EXECUTIVE COMMITTEE.

MEMORANDUM OF PRELIMINARY PROPOSALS towards the INTERCHANGE
of SCOTTISH and CANADIAN STUDENT-TEACHERS.

- I. That as a first stage towards a reciprocal interchange, two student-teacherships should be founded and attached respectively in the meantime to Edinburgh and Glasgow Training Centres; that their duties shall be assigned by the Directors of Studies at these Centres and shall not exceed 10 teaching hours per week; that the holders shall be expected to study at the neighbouring University for the Degree of Ph.D. (or other higher Degree) for which they might be eligible, and to investigate the organisation of, and the methods employed in, Scottish Schools.

(Students who do not present themselves for a Degree shall be required to submit a thesis for the approval of the National Committee.)

- II. That a reciprocal arrangement of appointments with corresponding duties and other pertinent conditions be drafted for the consideration of the selected American and Canadian Universities for Scottish student-teachers proceeding there.
- III. That the value of the student-teacherships held by Scottish students shall be £200 per annum, with an additional £50 per annum for travelling expenses; that they shall be tenable for one year, in the first instance, and renewable for a second year to give an opportunity for extended study or completion of an approved educational investigation on a favourable report from the Director of Studies.

MCGILL UNIVERSITY

MONTREAL.

FACULTY OF ARTS.
DEPARTMENT OF EDUCATION

Nov. 11, 1924.

James Malloch, Esq., M.A.,
8 Charlotte Square,
Edinburgh, Scotland.

Dear Sir:

I received your letter of Oct. 17th concerning
~~the~~ reciprocal exchange of student-teachers between Scotland and Canada, and the enclosed memorandum of preliminary proposals toward this interchange.

On behalf of McGill University I wish to express the appreciation of the University for the compliment paid in choosing it as the Canadian University to which Scottish student teachers will be sent in 1925-26, by your National Committee for the Training of Teachers. Your Committee has chosen wisely because of the numerous ties between this University and Scotland, and because of the imperial services rendered by the staff and students ~~of~~ the University during the Great War.

I am taking this matter into consideration and, meantime, am able to state that the University will endeavour to concur in the general proposals outlined in your memorandum.

As the proposals towards this interchange are still in the preliminary stage and as we have not yet had time to interview all the authorities in Montreal interested in this scheme, it is only possible for me to say that we approve of the general outline and shall be glad to give consideration to details.

The following points occur to me in this connection.

I. Post graduate work in this University is under the jurisdiction of the Faculty of Graduate Studies and Research. Therefore, a student proceeding to a higher degree in this University will be obliged to satisfy the regulations of this Faculty or present acceptable substitutes therefor.

2. The teaching for such a student teacher would have to be arranged in Montreal schools or elsewhere and for this purpose it would be necessary to secure the co-operation of the Montreal Protestant Board of School Commissioners and of its Superintendent. Our experience in the past has proved that such co-operation may be confidently relied upon for worthy causes.

3. The conditions for post graduate work in Scotland are so different ~~in Canadian Universities~~ that it would be necessary for us to examine the regulations of either Glasgow University or Edinburgh University to see what kind of student would be most suitable for sending to Scotland in connection with this scheme.

(from ours)
4. It will be necessary to consider the type of student and the type of teacher and also to consider the possibilities for his employment in a satisfactory way on his return to his native country.

5. We would like to know what kind of teaching the student would be expected to do and what his aim is for his future career.

These are merely some of the questions that occur to me at a first perusal of your memorandum. For your information I am sending herewith a copy of McGill University calendar and also a copy of the announcement of the Faculty of Graduate Studies and Research.

I would be glad to hear further from you when your proposals are in more definite form and likewise I shall be glad to communicate with you again when we have further information with regard to the McGill end of this interchange.

Meantime, I shall take up this matter with the different Faculties and with the Governors of the institution and you may rest assured that the University appreciates the purpose of your proposals and will do whatever it can to further the success of such inter-imperial schemes.

Yours very truly,

Principal.

Dear Mr. Malloch:-

Permit me to acknowledge the receipt of your letter of October 17th last, containing the preliminary proposals of the scheme for the establishment of student teacherships in Scotland, Canada and America.

Let me say in the first place that it is very pleasing to hear that this University has been selected as the place where training of the teachers sent from Scotland would be carried out, and that we shall assuredly endeavour to co-operate to the best of our ability.

There are certain preliminary points which can be raised at once, of which the most important is the matter of qualification for proceeding to higher degrees. I am enclosing you herewith a copy of the regulations of the Faculty of Graduate Studies and Research, in order that you may observe how the teachers to be sent to this country must be qualified, and what studies they must follow. I shall be glad if, when I receive your further communication I may also have as complete details as possible, concerning the method of training which would be carried out in Scotland, and the qualifications which your University would exact.

As regards the teaching work to be done, arrangements in Montreal would necessarily be made by the local School Commissioners, and it would therefore

James Malloch, Esq.

be necessary for us to be in a position to give fullest information regarding the qualifications of the students who are to be sent here.

In the case of the students proceeding from Canada to Scotland, it would similarly be necessary for us to know as accurately as possible not only what academical qualifications, but also what teaching qualifications would be necessary, and what kind of school the teachers would be employed.

I shall be very pleased to hear from you when your scheme has gone a little further.

Yours faithfully,

Principal.

My dear Principal,

It is exceedingly good of you to write to me as you have done in your letter of November 27th and to express your desire to co-operate with us in the matter of reciprocal establishment of student-teacher-ships in Scotland, Canada and America.

I am sorry that I am not yet in a position to answer all your queries fully, but I am quite sure that my Committee will welcome the opinion expressed in your letter. I hope to read your letter to a meeting of my Committee within a week and thereafter to get a small Sub-Committee appointed to work out the details from our point of view, along with suggestions for your consideration.

Please also accept my best thanks for a copy of the "Announcement of the Faculty of Graduate Studies and Research" for Session 1924-25 in connection with your University. This print will be of great use to us when we are going to deal with consideration of the details of the interchange.

Edinburgh, 4th December, 1924.

Dear Professor Laird,

Reciprocal Interchange of Teachers.

Will you kindly excuse some delay in answering your enquiries as to the projected arrangements for the reciprocal interchange of student-teachers between McGill University and my Committee? I shall try to answer as briefly and as concisely as possible the gist of your queries.

First of all, my Committee have very much at heart this question of interchange and they mean to experiment for next session by approaching the authorities of McGill University and the authorities of Columbia University. The idea is that each of these Universities should select a student-teacher distinguished in the realm of educational theory and practice who is anxious for work in educational investigation in Scotland.

My idea is that such students should be Honours Graduates and preferably should have done some original research at their own University in educational work. The selection by my Committee will be made on these lines.

The work to be given to the students from overseas while in Scotland will be that they should be attached to the Staff of a Training Centre and have sufficient time to do original work at the University. For next session, the two Training Centres chosen are Edinburgh and Glasgow.

The student-teachers will be expected to lecture or give such tutorial work in their respective subjects as the Director of Studies may assign to them. They will not be expected to work more than ten hours a week, leaving the rest of their time free to attend University Honours Classes, to work for the Ph.D., to visit schools and to carry on any educational study that they may elect to follow. Every school in Scotland is really open for such investigation and every possible opportunity will be afforded to the students to advance by publication or otherwise their knowledge of Scottish education, its history, its aims, and its practice.

My Committee have resolved to pay the students sent from here to McGill and Columbia, a sum of two hundred pounds for the session, with another sum of fifty pounds to meet their transport across the ocean. My Committee naturally expect that the authorities of McGill and Columbia Universities would pay a similar sum to the students they nominate.

I may tell you that I have had very favourable replies from the American University Union in Europe on the matter and also from the Director (Dr. I. L. Kandel) of the Teachers' International Institute connected with Columbia University.

I do not know that I can formulate any further details on the subject, but if you will be good enough to put the matter as it stands now before your Senate or other responsible body, I will be deeply grateful to you.

It would be well if the nominations of both sides were made, say about the month of February or March next year and thus enable the interchange to take effect smoothly, successfully and promisingly in good time for the opening of the Session 1925-26.

With all good wishes,

I am,

Yours sincerely,

Reciprocal Interchange of Teachers.

Dear Mr. Malloch:

I received your letter of Dec. 4th and immediately made arrangements for an interview with Sir Arthur Currie. He is anxious to co-operate and is determined to do all he can to make effective your reciprocal interchange of student teachers. There are one or two ideas that ought to be put briefly before you.

1. The number of post-graduate courses open at McGill University is limited and is confined to those announced in the bulletin of the Faculty of Graduate Studies and Research. A copy of this announcement has been sent to you but I am sending two more copies.

2. The order of obtaining degrees is different in Canada. The first or B.A. degree may be a pass degree or an honours degree and requires four years. The M. A. is a post-graduate degree which may be finished in one year. The Ph.D. degree requires three years after the B.A. or two years after the M.A.

3. There is no post-graduate work at the present time in Education at McGill University. This work is all undergraduate work.

There are two points which will be of some concern to the authorities of McGill University and to your Committee:

1. It will be necessary for us to secure a student teacher who would be worthy of this honour. At the present time I do not know whether it will be possible to secure for this scholarship a B.A. Honours degree graduate or a M.A. graduate who has completed the requirements for a high school diploma and who will worthily represent McGill University in either Glasgow or Edinburgh. So many of the students are obliged to earn their

living that it may not be easy to make a wise or ideal choice.

2. We would have to be prepared to make the stay of the Scotch student sufficiently profitable in Canada. I would therefore again draw your attention to the subjects for graduate study in the Graduate Faculty. In this connection I am not at present in a position to say that an honours M.A. graduate from a Scotch University would be accepted by the School of Graduate Studies as satisfying the requirements for a Ph. D. degree to the extent that two years residence study would fulfil the minimum requirements as regards the number of years, but I am writing to Dr. E. H. Battan who is Dean of that School in order to get official ruling from him.

There are educational problems of an interesting kind in the Province of Quebec which are so foreign to the experience of a Scotch student that I think any Scotch graduate can profitably investigate some of them with benefit not only to himself but to educational authorities anywhere. The following are some of these conditions:

1. The French and English element in the Province of Quebec, the former being of a proportion of 8-1.
2. The dual-system of education in Quebec.
(a) Roman Catholic. (b) Protestant.
There is no connection between the two.
3. Religious education.
4. The education of the foreign element.
5. Compulsory education and school attendance.
(Quebec and Newfoundland are the only two white parts of the British Empire that have no compulsory educational law.)
6. Administration and organization of education in the Province of Quebec.
7. The Montreal School System with half yearly promotions.
8. The rural school question and consolidation.
9. The training of teachers for all grades of diplomas.
10. Oral teaching of French. French is taught in Grade III of the elementary school, and continues as a compulsory subject to the end of the high school course.
11. Education by prescribed textbooks and an authorized course of study.
12. The relation of the University to the Department of Public Instruction and the Provincial system.

13. Public school funds.

14. School law and school regulations. These are so different, the school law being acts of the Legislature effecting all schools; and the school regulations being regulations of the Protestant or Catholic Committee respectively effecting the schools of the respective faiths.

These are only some of the topics that your advance student might find it interesting to study and write about.

There is one further difficulty and that is that the training college is situated at Macdonald College, twenty miles from Montreal, and it would be hard to decide at once what amount of teaching would be most profitable for the student teacher. It would be possible, I fancy, to provide some instruction in the first year of the Arts Course. It might also be possible to have some of it arranged for him at Macdonald College either in the School for Teachers or in our High School.

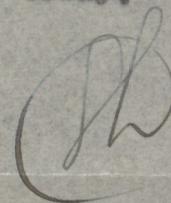

It would all depend upon the kind of student you send us. It might also be possible to secure a certain amount of teaching in Montreal by arrangement with the Secretary-Superintendent of that city system.

The first choice of student and their experiences during the early years of this scheme will do a great deal to clarify the situation and I am therefore very anxious that a good choice should be made during the first year.

I shall ask Sir Arthur Currie to make a public announcement to the students of the University and to teachers so that the conditions of the student scholarship may be known and so that applications for it may sent in in order that a choice may be made early in the New Year.

I am sending a copy of this letter to Sir Arthur Currie for his information and am drawing his attention to the last paragraph.

Yours truly,

CENTRAL EXECUTIVE COMMITTEE

CONDITIONS under which Student-teacherships are to be held

ALSO

the SUGGESTED CONDITIONS of holding corresponding Canadian and American Student-teacherships.

1. Two Student-Teacherships to be established.—It was reported that the Central Executive Committee had decided (Minutes, p. 41, No. 11), that for next session, i.e., 1925-26, two student-teacherships for qualified Scottish candidates should be established—

One in connection with Columbia University, New York, U.S.A.
The second in connection with M'Gill University, Montreal, Canada.

The Authorities of these Universities, as well as the International Institute of Teachers' College, Columbia, and the Institute of International Education, have been communicated with and are cordially in agreement with the principle of reciprocal interchange of teachers. They are prepared to consider any conditions which the National Committee may frame both in connection with the appointments proposed to be held by Scottish student-teachers and also those which may be proposed for Canadian or American student-teachers.

2. Recommendations.—After discussion it was agreed to recommend—

(a) Scottish Nominations.—That these shall be made by the Central Executive Committee on the recommendations of the several Provincial Committees, and that only such applications as fulfil the undernoted conditions be considered :—

Qualifications of Candidates:—

- (1) That Candidates must have an Honours Degree (M.A. or B.Sc.), be trained certificated teachers, and have distinguished themselves in the professional part of their course—Theory, History, and Practice of Education.
- (2) That it be an additional qualification if the candidates hold the Degree of Bachelor of Education (B. Ed.), or be pursuing a course of study with that Degree in view.
- (3) That the selected candidates—
 - (a) Follow at the American or Canadian University a post-graduate course, according to the University's approved Scheme in the Faculty of Graduates' Study and Research, extending over one full session.
 - (b) Take such part in giving instruction in Education courses at the American or Canadian University or neighbouring

See amendment

(affiliated) Training Department as the University (Training) Authorities may specify, subject to such work not exceeding ten teaching hours per week.

Conditions of Holding :—

- (1) That the value of the student-teacherships held by Scottish Students shall be £250 per annum, or such higher sum as may be necessary and adequate, payable by the National Committee, plus £50 per annum for travelling expenses.
- (2) That they shall be tenable for one year, in the first instance, and renewable for a second year, on a favourable report, to give an opportunity for—
 - (a) Extended duty ; or
 - (b) Completion of a course for a higher degree ; or
 - (c) Completion of an approved educational investigation.

(b) For American or Canadian Nominations :—

Qualifications of Candidates :—

- (1) That candidates receive nomination from their respective Universities and have, in addition to teaching experience, an Honours Degree or its equivalent, and be desirous of continuing a course of study at a Scottish University and Training Centre.
- (2) That they become members of the Teaching Staffs of Edinburgh and Glasgow Provincial Committees, be willing to undertake such duties at the Training Centres as may be assigned to them by the Directors of Studies (but in no case exceeding ten teaching hours per week).
- (3) That they undertake as far as facilities are available to study at the University to which they may be attached for the Degree of Ph.D. (or other higher Degree).

Conditions of Holding :—

- (1) That the conditions governing the holding of the Scottish student-teacherships be forwarded to the American and Canadian Authorities with a request that similar conditions (having in view differing educational and financial circumstances) be framed by them.
- (2) That, in each case, the payments agreed upon shall be met by the nominating University.

Dear Mr. Malloch:-

With reference to our correspondence regarding the reciprocal interchange of student teachers, it appears to me that if we are to make a definite announcement this year, a few points must be cleared up.

In the first place, as regards the student teachers to be sent by you to this country, I assume that they will be properly qualified to proceed to the degree of Ph.D. You have of course been advised that we have no Ph.D. in Education and also that the course would most likely be three years.

These points give rise to the following questions:-

1. Is it the wish of your Committee to send one student each year or one student at a time, for a three year period?

2. In view of the fact that we have no Ph.D. in Education, is it satisfactory that the student should engage in some study other than Education for his Ph.D.?

3. If so will you specify the study? (see *Announcement of Faculty*
Faculties of Graduate Studies)

4. Are you satisfied to have the actual details of teaching work to be done left undecided at present, letting it rest with us to make the best possible arrangements?

5. Has the student taken 3 or 4 years of Undergraduate Study?

I assume that you would expect us to send the same number of student teachers as you would send, but if you desire to send one each year the question must be further considered by our Board, though I am quite certain of approval.

As regards the student teacher to be sent to McGill, I enclose you herewith an announcement of the Faculty of Arts and I wish to ask you to advise me on the following points:-

6. Is a B.A.(Pass) accepted by your Universities as a qualification for a Ph.D.?

7. If not is a B.A. (Honour) accepted by ^A *admission or graduation* _{of} *study leading* your Universities as a qualification for a Ph.D.?

8. Could a McGill M.A. receive a Ph.D. in two years.

9. Is a High School Diploma necessary to permit the student to teach?

In order that you may be apprised of our requirements for a High School Diploma, please refer to Page 88 of the announcement of Macdonald College as well as to the Announcement of the Faculty of Arts.

You will note from the foregoing that I have numbered all the questions so that if you think it necessary you can answer this letter by cable.

Dear Mr. Malloch:-

With reference to our correspondence regarding the reciprocal interchange of student teachers, it appears to me that if we are to make a definite announcement this year, a few points must be cleared up.

In the first place, as regards the student teachers to be sent by you to this country, I assume that they will be properly qualified to proceed to the degree of Ph. D. You have of course been advised that we have no Ph. D. in Education and also that the course would most likely be three years.

These points give rise to the following questions:-

1. Is it the wish of your Committee to send one student each year or one student at a time for a three year period?

2. In view of the fact that we have no Ph.D. in Education, is it a satisfactory arrangement that the student should engage in some study other than Education for his Ph.D.?

3. If so will you specify the study?

4. Are you satisfied to have the actual details of teaching work to be done left undecided at present, letting it rest with us to make the best possible arrangements?

5. Will your student have taken three or four years of academic study?

6. Would you accept a study of our educational system in lieu of academic preparation for a Ph.D., or a detailed report of some feature thereof? In this case for how long would the student remain?

I assume that you would expect us to send the same number of student teachers as you would send, but if you desire to send one each year the question must be further considered by our Board, though I am quite certain of approval provided you make reciprocal arrangements.

As regards the student teacher to be sent by McGill, I enclose you herewith an announcement of the Faculty of Arts and I wish to ask you to advise me on the following points:-

7. Is a B.A. (pass) accepted by your Universities as a qualification for entrance to study for a Ph.D.?

8. If not, is a B.A. (honour) accepted by your Universities as a qualification for a Ph.D.?

9. Could a McGill M.A. receive a Ph.D. in two years?

10. Is a High School Diploma necessary to permit the student to teach?

In order that you may be apprised of our requirements for a High School Diploma, please refer to page 58 of the announcement of Macdonald College as well as to the announcement of the Faculty of Arts.

You will note from the foregoing that I have numbered the questions so that if you think it necessary you can answer this letter by cable.

Yours faithfully,

Reciprocal Interchange of Teachers.

Dear Sir Arthur,

I have to thank you very heartily for your letter of the 18th ultimo extending further our correspondence regarding the reciprocal interchange of student teachers and putting before me ten specific points that have occurred to you to facilitate the arrangements being made for an early beginning of the interchange.

I am taking your letter point by point and, assuming that you have a copy by you, will merely answer according to the numbering of the points detailed by you.

A In the first place, the student teachers to be sent to Canada by my Committee will in every case be Honours graduates in Arts or in Science and, if possible, also in Education, i.e. they will at least be expected to have the Mastership of Arts with Honours, the Bachelorship of Science with Honours and probably the Bachelorship of Education in addition. They will, as I have previously stated, be highly qualified people from an academic standard and be, what one might term, the "pick" of our Universities. B I now take your points in order.

1. It is the wish of my Committee to send one student each year but the way is left open for a student being nominated for a second year on good cause being shown. I do not think my Committee would consider a continued nomination for a period of three years.
2. In view of the fact that you have no Ph.D. in Education it would be quite satisfactory that any student from Scotland at McGill should engage in some other study than in Education.
3. It is difficult to specify the study that might be adopted/
See.

adopted towards a Ph.D. during his period of assisted studentship. I keep in mind, of course, that your Ph.D. cannot be earned without a period of three years' study being spent upon it. I think it would be quite satisfactory for the student to nominate his line of study, that being, of course, in accordance with what he has to some extent specialised in this country, and if such line were approved by the McGill University authorities, there would be difficulty as to acquiescence by my Committee.

4. My Committee would be quite pleased to leave the actual details of teaching work undecided knowing full well that you and your advisers would make the best possible arrangements.
5. Any student sent to McGill will have had at least four years' academic study, some of them probably more.
6. I think my Committee would be quite prepared to accept the study of your educational system in lieu of academic preparation for a Ph.D. or a detailed report of some prominent feature of it. This being so, I think my Committee would be of the opinion that one year was quite long enough to spend in this way.

My Committee's present intention is to send one student teacher each year (with the proviso, of course, of an extension in the case of any meritorious student to two years) and I am also quite clear that my Committee will be gratified to know that McGill authorities could entertain the same arrangement on a reciprocal basis.

7. As regards a student teacher from McGill working in Scotland I am of the opinion that a B.A. pass, which I take it is in standard equal to our M.A., would probably be accepted by the University as a qualification for entrance to study as a Ph.D.
8. I am of opinion that a B.A. (honour) would undoubtedly be accepted by the University as a qualification to entrance for study as a Ph.D.
9. I think it quite possible that a McGill M.A. could, in two years, attain the standard satisfactory to the examiners for a Ph.D. Degree.

10. Any student sent by McGill University will be accepted on that authority alone and will be attached to the staff of the Training Centre and given opportunity to teach to the extent of 10 hours per week. The holding of a diploma is not a necessary condition for the student-teachership.

I trust that you will be able shortly to make the necessary investigations and proceed towards a nomination. I have pleasure in telling you that I have already received instructions from my Committee to invite nominations for student-teachers proceeding to your University and also to Columbia.

Yours sincerely,

James Malloch

Dear Col. Bovey,

I have just received your letter of the 18th enclosing a proposed draft of instructions regarding the interchange of student teachers between McGill University and the National Committee for the Training of Teachers of Scotland, and beg leave to reply as follows. I really do not know enough about the particulars of this exchange arrangement to be able to make any very pertinent suggestions at present. The following may, however, be worth noting.

III(a) should read, "These students will be admitted unconditionally into the Faculty of Graduate Study and Research and may carry on their studies either in Arts, Science or Education."

III(b) should read, "They may make a special study of Education or may take up any study leading to the degrees of M.A., M.Sc. or Ph.D."

IV(c) should read, "They will be expected either to study for some recognised higher degree or to make a detailed study of Scottish educational systems and methods."

VI(d) should read, "Whether the student proposes to study for a higher degree and if so, what degree."

and (e) "If the student proposes to study for a higher degree whether he require one or two years assistance."

Colonel W. Bovey,

Dear Colonel Bovey:

I have two suggestions to make with regard to the proposed draft of instructions regarding interchange of student teachers, with which, however, I can concur practically as it stands.

1. My first suggestion is that Section 5, page 2, should read "Applications must be received before May 1st by the Principal" instead of June 1st.

My reason for this is that by June 1st the students will have left Montreal. Even if no action is taken until after June 1st the number of possible applicants should be known on or before May 1st. I would respectfully suggest this alteration to you in the interests of administration and selection.

2. M My second suggestion is that an additional paragraph should be added telling the amount of assistance that would be given to the student going from McGill to Scotland. In other words, there should be a financial section.

The rest is perfectly satisfactory.

Yours faithfully,

Eric Land

Dear Mr. Bovey,

I hasten to acknowledge receipt, with many thanks, of your letter of the 23rd April, sending me a copy of the final draft re. reciprocal interchange of student-teachers.

I have to state that my Committee have now given instructions for nominations to be made towards the appointment of our Scottish teachers - one to McGill University and the other to Columbia University,- and I hope to communicate with both of these Universities announcing the appointments under the agreed-upon conditions some time in June.

With thanks for your attention,

Dear Mr. Malloch:-

The Committee charged with the selection of a student-teacher for exchange under our new scheme has decided to recommend Mr. H.H. MacOdrum.

Mr. MacOdrum is a young man of considerable promise who received his M.A. last year. He has already been doing a considerable amount of teaching and will, we think, develop into a most useful instructor. I have no doubt that the Governors will approve the recommendation.

I was very pleased indeed to have your letter of the 9th and to know that Mr. MacOdrum, whom Professor Laird had already written about, is likely to receive a nomination from your Committee to work under the student-teachership scheme in Scotland during session 1925-26.

If you will kindly send me a full account of Mr. MacOdrum's early education, his academic career and his professional training along with a statement of what he himself desires to study specially and what kind of work he wishes to undertake, I would be very grateful. My Committee are very anxious to see that the student teachers should work under suitable conditions for the continuance of their study, and also to provide ample opportunities for their professional advancement.

May I also thank you for doing so much to help forward the initiation of this scheme?

Dear Mr. Malloch:-

I am sending you herewith a copy of a letter received from Mr. MacOdrum, giving a full statement of his career and desires. We have only to add to Mr. MacOdrum's letter that his work at McGill has been of an extremely satisfactory nature. He was the personal choice of the Principal and also received the unanimous vote of the Committee of Deans which passed on various applications. His work at McGill has been most satisfactory and we have found him a young man of very considerable promise as a scholar and as a teacher.

CENTRAL EXECUTIVE COMMITTEE

CONDITIONS under which Student-teacherships are to be held

ALSO

the SUGGESTED CONDITIONS of holding corresponding Canadian and American Student-teacherships.

1. Two Student-Teacherships to be established.—It was reported that the Central Executive Committee had decided (Minutes, p. 41, No. 11), that for next session, i.e., 1925-26, two student-teacherships for qualified Scottish candidates should be established—

One in connection with Columbia University, New York, U.S.A.
The second in connection with M'Gill University, Montreal, Canada.

The Authorities of these Universities, as well as the International Institute of Teachers' College, Columbia, and the Institute of International Education, have been communicated with and are cordially in agreement with the principle of reciprocal interchange of teachers. They are prepared to consider any conditions which the National Committee may frame both in connection with the appointments proposed to be held by Scottish student-teachers and also those which may be proposed for Canadian or American student-teachers.

2. Recommendations.—After discussion it was agreed to recommend—

(a) Scottish Nominations.—That these shall be made by the Central Executive Committee on the recommendations of the several Provincial Committees, and that only such applications as fulfil the undernoted conditions be considered :—

Qualifications of Candidates:—

- (1) That Candidates must have an Honours Degree (M.A. or B.Sc.), be trained certificated teachers, and have distinguished themselves in the professional part of their course—Theory, History, and Practice of Education.
- (2) That it be an additional qualification if the candidates hold the Degree of Bachelor of Education (B. Ed.), or be pursuing a course of study with that Degree in view.
- (3) That the selected candidates—
 - (a) Follow at the American or Canadian University a post-graduate course, according to the University's approved Scheme in the Faculty of Graduates' Study and Research, extending over one full session.
 - (b) Take such part in giving instruction in Education courses at the American or Canadian University or neighbouring

(affiliated) Training Department as the University (Training) Authorities may specify, subject to such work not exceeding ten teaching hours per week.

Conditions of Holding :—

- (1) That the value of the student-teacherships held by Scottish Students shall be £250 per annum, or such higher sum as may be necessary and adequate, payable by the National Committee, plus £50 per annum for travelling expenses.
- (2) That they shall be tenable for one year, in the first instance, and renewable for a second year, on a favourable report, to give an opportunity for—
 - (a) Extended duty ; or
 - (b) Completion of a course for a higher degree ; or
 - (c) Completion of an approved educational investigation.

(b) For American or Canadian Nominations :—

Qualifications of Candidates :—

- (1) That candidates receive nomination from their respective Universities and have, in addition to teaching experience, an Honours Degree or its equivalent, and be desirous of continuing a course of study at a Scottish University and Training Centre.
- (2) That they become members of the Teaching Staffs of Edinburgh and Glasgow Provincial Committees, be willing to undertake such duties at the Training Centres as may be assigned to them by the Directors of Studies (but in no case exceeding ten teaching hours per week).
- (3) That they undertake as far as facilities are available to study at the University to which they may be attached for the Degree of Ph.D. (or other higher Degree).

Conditions of Holding :—

- (1) That the conditions governing the holding of the Scottish student-teacherships be forwarded to the American and Canadian Authorities with a request that similar conditions (having in view differing educational and financial circumstances) be framed by them.
- (2) That, in each case, the payments agreed upon shall be met by the nominating University.

PHI KAPPA PI
MCGILL CHAPTER

851 University St.
Montreal, P.Q.

My dear Mrs. Chesley,

For Mr. James Malloch's information
the following data may be pertinent:

I was born on May 30, 1901 in the country
district of Marion Bridge, Cape Breton,
Nova Scotia. My public school instruction
was received in the Aberdeen School of
Moncton city, New Brunswick. I mat-
riculated in Dalhousie University, from

the Halifax County Academy; one year
of High School work having been accom-
plished in Pembroke High School, Ontario,
also.

In 1923 I received the degree of B. A. with
distinction from Dalhousie University. In
1924 I entered upon a Teaching Fellowship
in the English Department of McGill, and
graduated M. A. at the Spring Convocation, 1924.
From October 1924 to May 1925 I have
been at work in McGill as Instructor in
the English Department.

As to work in Scotland, my one
thought is to advance my English studies.
I am specially interested in Ballad work,
particularly the study of English and
Scottish popular ballads. Much of my

best work has been done in this field, and I look forward with interest to the perusal of such material as the Scottish Universities may offer. If there is any one man in the Scottish Universities who would seem to be of particular value to me, I think it must be Professor Grierson of Edinburgh. But perhaps other considerations must decide the place of appointment. Yet, *in fine*, my interest lies in scholarly research rather than in elementary studies of teaching method. My "chosen field" of labour is University work in English literature; and that knowledge must influence my studies.

I hope that I have given such facts as Mr. Malloch wishes to have.

Yours sincerely,
M. M. MacAdrum.

My dear Mr. Malloch:-

I beg to acknowledge receipt of your letter of the 23rd of June last referring to the appointment of Mr. MacOdrum and notifying us of your appointment of Mr. Douglas L. Gower.

As we have previously advised you this University does not confer an M.A. degree in Education, but I gather that Mr. Gower has not this in mind. In view of this, he will not require to report to the Dean of the Faculty of Graduate Studies, but should report direct to Dr. Ira A. Mackay, Dean of the Faculty of Arts, who will make the necessary arrangements with the Dean of the School for Teachers regarding the course which Mr. Gower is to follow. He should arrive about the last week in September.

I shall write to Mr. Gower direct enclosing a certificate which will enable him to pass the Immigration authorities without difficulty and will at the same time ask him to advise me regarding the boat on which he proposes to come, so that if possible arrangements may be made for accommodation for him.

APPROVED BY THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA UNDER ORDER 162.
DATED MARCH 30, 1916.

It is agreed between the sender of the message on the face of this form and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeatable telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case the Company shall be liable for damages, suffered by the sender to an extent not exceeding \$200., due to the negligence of the Company in the transmission or delivery of the telegram.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz: one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers he acts for that purpose as the sender's agent; if by telephone the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

DAY LETTERS.

This Company will receive DAY LETTERS, to be transmitted at rates lower than its standard telegram rates, as follows: one and one-half times the ten-word Day message rate shall be charged for the transmission of fifty (50) words or less, and one-fifth of the initial rate for such fifty words shall be charged for each additional ten (10) words or less.

DAY LETTERS may be forwarded by the Telegraph Company as a deferred service and the transmission and delivery of such DAY LETTERS are, in all respects, subordinate to the priority of transmission and delivery of full-rate messages.

DAY LETTERS shall be written in plain English, or in French. Code language is not permitted.

DAY LETTERS may be delivered by the Telegraph Company by telephoning the same to the addressees, and such deliveries shall be a complete discharge of the obligation of the Telegraph Company to deliver.

DAY LETTERS are received subject to the express understanding and agreement that the Company does not undertake that a DAY LETTER shall be delivered on the day of its date absolutely and at all events; but that the Company's obligation in this respect is subject to the condition that there shall remain sufficient time for the transmission and delivery of such DAY LETTER on the day of its date during regular office hours, subject to the priority of the transmission of full-rate messages under the conditions named above.

Sir Arthur Currie,
McGill University.

Dear Sir Arthur,

Before leaving Canada I promised that I would write from Scotland immediately upon my safe arrival and satisfactory settlement. Here, then, is my informal report--for I understand that my formal report is to be made to your Dean of Arts, Dr. Mackay.

With the exception of a small number of Roman Catholic trained applicants, all the teachers of Scotland are trained in one or other of four Training Centres, located respectively in Edinburgh, Dundee, Aberdeen, and Glasgow. The National Committee for the Training of Teachers governs all four. Of the number Glasgow is admittedly best, being at once larger and more strongly staffed than either Aberdeen or Edinburgh and more aggressive in educational progress; while comparison with Dundee is without worth.

At the head of each of these four Centres is an official appointed by the National Committee, who is known as the Director of Studies. It is under Mr. George Burnett, Director of the Glasgow Centre, that I find myself at work. He is the man upon whom the responsibility for the success of this scheme has been placed, for Mr. Malloch, its originator, has run off to Columbia.

My activities are three-fold. They include: first, a series of lectures at the Training Centre; second, a first-hand and detailed study of the Scottish system of teacher training; third, work with the University of Glasgow for a Doctorate degree in English literature. May I suggest something which I think would give this scheme some measure of public notice and approval? I suggest that a series of articles on Scottish Education be submitted to Canadian journals which occasionally interest themselves in educational matters at large. If you could suggest the journals, and perhaps make some approach to them about the matter, I should be glad of the opportunity to show the results of my work here.

Mrs. MacOdrum and I are enjoying life in Scotland very much, notwithstanding the present inclement weather. We are pleasantly settled in a small apartment which is almost equidistant from the Training Centre and the University. But we often think of McGill!

Sincerely yours,

Maxwell MacOdrum—

Laird will write to one or
two papers and is sending

Dear Mr. MacOdrum:-

I am forwarding you herewith a letter just received from Dean Laird. I do not suppose that I need remind you of the different types of writing which the Dalhousie Review and McLean's Magazine are looking for, and you probably know more about the two technical magazines than I do.

Yours faithfully,

Wilfrid Bovey.

James Malloch, Esq.,
National Committee for the Training of Teachers,

Dear Mr. Malloch:-

I beg to acknowledge your letter of November 25th regarding Mr. M.M. MacOdrum. I am referring it to the Bursar who will deal with all matters of finance directly with you.

Yours faithfully,

Wilfrid Bovey.

Maxwell MacOdrum, Esq.,

Dowan Hill, Glasgow.

My dear MacOdrums:-

I was very glad to get your letter and to hear that you are well started in Glasgow, although I was very surprised to hear what you said about Mr. Malloch's attitude. I hope it is not due to any fault of ours.

There are always a few difficulties in starting a scheme of this kind, but certainly none of the correspondence led us to feel that we are in his bad books. I am, however, writing to him and will take the opportunity of asking him how you are getting on.

Our football team has, as you will remark, not been very successful, but they have had the short end of the brakes and a good deal of bad luck. They beat Ottawa and Montreal without much difficulty, though excuses are not much use and we are again at the foot of the League. Queen's had a marvellous team and I do not think they will find much trouble in winning the Dominion Championship again. Any one of their five halves is about as good as the best any one else has.

The Literary Supplement is dead, - burned as a sacrifice on the altar of financial necessity - but the head of a young Phoenix, to be known as the Fortnightly Review, is already poking out of the ashes and setting its heckles (or whatever a Phoenix has) up on end.

The Red and White Review is already in preparation. I hope I shall not again be made the censor of the ladies' dresses. The kilt of the pretty stenographer ought to be very useful in Scotland.

If you have any prospect of a trip to England let me know and I will send you some more letters.

Kind regards to you both,

Yours sincerely,

November 16, 1925.

Sir Donald Macnister,
The University,
Glasgow, Scotland.

My dear Sir Donald:-

I want to thank you very much for your hospitality to the young MacOdrums. They have written to me to tell me how good you and Lady Macnister were to them.

It is only what I knew you would do, but it is those things which make for real unity in our Empire.

With best wishes and again with many thanks,

Yours sincerely,

Wilfrid Bovey.

Dear Col. Bovey,

By the time this note is in your hands Scotland will be quite "the homeland" for your two Mc Gill adventurers — the newly wed Mac O'Brien. And I must delay no longer our expression of gratitude for the part you have played in our introduction to the circles in which we are finding so much genuine enjoyment — for, honestly, the friends to whom your letters gave us access have been kindness and hospitality personified. Especially is this true of

Sir Donald and Lady Mac Alister -
they have shown us incredibly kind
favour. On Saturday last we were
with them at tea and were simply delighted
with our reception. Lady Mac Alister was
very much interested in my wife's story - for,
as she told us, it repeats her own; marriage
from college. Sir Donald is marvellously
alert and was quite conversant with
my family history in the Highlands, and in
Gaelic we were on common ground. All
together we could not have found more
congenial hosts in all the world. We
are to visit again shortly.

Dr. Gibson has sent us a cordial
invitation to visit his wife and himself in
Edinburgh, of which we hope to avail
ourselves next week-end. We were in
the First City for one week immediately

after our arrival in Scotland on October fourth, but we were too busy with the National Committee and its commands to make any social endeavor. Now that we are settled, however, we can take some thought for the amenities of residence.

My work under the Exchange scheme was in rather a nebulous state upon first approach, but it has taken shape rapidly within the past two weeks. Most of my time is given to work at the University proper, under Prof. Macneill Dixon of the English Department. The Training Centre claims about ten hours a week of my time, besides the extra-mural study which I give to the Scottish system of Education in general. Most of the men with whom I come in contact are very pleasant indeed - the only notable exception was Mellock himself, the scheme's originator; he did very little to help me. Why, I do not know. I only know that I am thankful that he retire.

in September/December. Most of his co-workers feel the same joy.

Both Glasgow and Edinburgh are great centres for lecturing, exhibiting, and publishing - that, of course, you know. Whenever an empty hour falls into one's hand, he can trot cheerfully off to a lecture on the "Odyssey," a concert in St. Andrews, or an exhibition in the Galleries. Public speaking, especially, is on a high level. So, also, are the newspapers - the best of them. I am subscribing to the "Scotsman," the "Herald," and the "London Times." It is a distinct pleasure to read Old World news before it is stale.

For the Bills' football news, I must say, I do not yearn! That 13-0 score was very disappointing. I live in hope that some of the games were better, for that Queen's score - the only one I've heard.

Very best wishes for a pleasant college year.

Yours sincerely,

Maxwell Mac Colrum

NATIONAL COMMITTEE FOR THE TRAINING OF TEACHERS.

FOR AMERICAN OR CANADIAN NOMINATIONS:

- (1) That the candidates receive nominations from their respective Universities and have, in addition to professional training as teachers, an Honours Degree or its equivalent, and be desirous of continuing a course of study primarily relating to the Theory and Practice of the subject of Education at a Scottish University and Training centre.
- (2) That they become members of the Teaching Staffs of Edinburgh and Glasgow Provincial Committees, be willing to undertake such duties at the Training Centre as may be assigned to them by the Director of Studies (but in no case exceeding ten teaching hours per week).
- (3) That they undertake to utilize the facilities of the University to which they may be attached, with a view to the advancement of any subject or subjects of higher study on which they may be engaged.

Conditions of Holding.

- (1) That the conditions governing the holding of the Scottish student-teacherships be forwarded to the American and Canadian Authorities with a request that similar conditions (having in view differing educational and financial circumstances) be framed by them.
- (2) That, in each case, the payments agreed upon shall be met by the nominating University.

RECIPROCAL INTERCHANGE OF STUDENT TEACHERS
between
THE NATIONAL COMMITTEE FOR THE TRAINING OF TEACHERS, SCOTLAND
and
MCGILL UNIVERSITY.

I. An arrangement has been made between the National Committee for the Training of Teachers, Scotland, and McGill University, for the reciprocal exchange of student teachers.

II. The exchange will commence with the college year, 1925-1926.

III. STUDENTS COMING TO MCGILL.

a. These students will be Honour Graduates in Arts or Science and probably also in Education.

b. They may make a special study of Education or may take up any study leading to the degrees of MA., M.Sc. or Ph.D.

c. They will be assisted for one year and possibly for two years.

d. Students who study Education will be called upon to furnish a detailed report on their work, and in this case only one year's studentship will be allowed.

e. Details of teaching work will be arranged for by the Dean of the School for Teachers.

IV. STUDENTS GOING FROM MCGILL.

a. These students must be Bachelors of Arts, or Bachelors of Science in Arts, or Masters of Arts.

b. They will be assisted for one year and in special cases for two years. The allowance will be \$1,200. per annum.

c. They will be expected either to study for a higher degree or to make a detailed study of Scottish educational systems. In the latter case, only one year's studentship will be allowed.

(It is expected that a student teacher, holding an M.A. from McGill, will be able to obtain a Scottish Ph.D. in two years.)

V. Applications must be received before May 1st by the Principal.

VI. Applications must state:-

- a. University qualifications.
- b. Teaching experience.
- c. Any general experience.
- d. Whether the student proposes to study for a higher degree and if so, for what degree.
- e. If the student proposes to study for a higher degree whether he requires one or two years' assistance.

Dear Dr. Farrelo:-

A student teachership has been established by McGill University in co-operation with the National Committee for the Training of Teachers of Scotland. The selected student teacher who is to be a graduate of McGill University must have in addition to professional training as a teacher an Honours Degree or its equivalent and be desirous to continue a course of study primarily relating to the theory and practice of the subject of education at a Scottish University and training centre.

He will become a member of the teaching staff of the Edinburgh and Glasgow provincial committees of the National Committee for the Training of Teachers and will undertake such duties at the training centre as may be assigned to him by the directors of studies. He will also be attached to a Scottish University and must undertake to utilize the facilities of the University to which he will be attached with a view to the advancement of any subject or subjects of higher study upon which he may be engaged.

The selected student teacher will receive a scholarship of £300 per annum, commencing at his departure. Out of this he will be required to provide his own travelling expenses.

The appointment will be for one year, which on the recommendation of the Scottish National Committee may be extended to two years. The candidate will be required to undergo a medical examination.

Dr. G.W. Parmelee

It may be stated for the information of candidates that a student holding an Honours B.A. should be able to obtain a Ph.D. at Edinburgh or Glasgow in three years, while a student holding an M.A. should be able to obtain the Ph.D. in two years.

Applications should be sent to Wilfrid Bovey,
Principal's Office, McGill University, before June 1st.

Yours faithfully,

Wilfrid Bovey.

1. MR. M. M. MacODRUM.

- (a) Report by Director of Studies, Training Centre, Jordanhill, Glasgow.

Dear Mr. Peddie,

Student-teachership - Mr. M. M. MacOdrum.

In response to your request I have pleasure in forwarding my report on the work of Mr. MacOdrum, McGill University, along with a report from Professor Macneile Dixon and one from Mr. MacOdrum himself.

Of the original difficulties your office has full information, and I feel that the Authorities at McGill University must have acted under a misapprehension as to the kind of student-teacher to be interchanged. Mr. MacOdrum came to us with no professional training as a teacher and was, therefore, not in a position to undertake any piece of purely educational research. In fact he arrived here under the impression that his work was to be that of a research student in English Literature and provision for his accommodation at the University was made, where Professor Macneile Dixon became adviser and supervisor.

At the Training College, Mr. MacOdrum was given an opportunity of lecturing to groups of students in his own subject, but his experience was not sufficient to warrant our asking him to become responsible for any definite piece of instructional work. As no piece of educational research could be allotted to him it has been arranged that he will have facilities for surveying our Scottish System by attendance at lectures in the College, by visitation of primary and secondary schools under Masters of Method and by discussion thereafter with members of the College staff. He has entered into this particular course with keenness, and should derive a considerable amount of benefit from it. Only it is not intensive/

intensive study, and until a full report is given by the student-teacher there will be little opportunity of gauging his capacity or power of real appreciation.

The major portion of Mr. MacOdrum's study is at Glasgow University, and according to Professor Dixon's report, he gives promise of doing valuable and interesting work which will be assessed by the award of a degree in 1927.

Mr. MacOdrum has done everything required of him at the Training Centre according to the arrangement reached, and by another year he ought to be able to take advantage of the facilities we can offer. I may add that he is not the type of student-teacher we expected under the agreement and he is not equipped in the same way as Mr. Inglis, the student my Committee nominated for work in New York.

(Sgd.) GEORGE A. BURNETT.

(b) Report by Professor W. Macneile Dixon, English Department, The University, Glasgow, to Director of Studies.

Dear Mr. Burnett,

I have seen Mr. M.M. MacOdrum a number of times, talked with him over his work here and seen what he has already done. He seems to me well equipped for his undertaking and to be pursuing his researches with great energy and enthusiasm. I see no reason to doubt, indeed have every reason to believe that his results will be valuable and interesting.

(Sgd.). W. MACNEILE DIXON.

(c) Report to National Committee by Mr. M. M. MacOdrum.

Gentlemen,

The inaugural term of an exchange student is attended by difficulties innumerable, innumerable because of the trivial nature of a great host of them. Some few obstacles, however, serve a very real purpose, and it is well to record the manner of their conquest. May I do this much for the Scottish side of the McGill University - National Committee interchange?

Misunderstanding is the inveterate foe of co-operation. That the McGill authorities misunderstood the intent of your Committee, I have every reason to believe. That your Committee misunderstood McGill I know, else how explain the chaos into which I made my advent? Both the Glasgow and the Montreal institutions found their student-teachers a bother, both made shift to perform their duty, and both after some worry evolved working arrangements. Misinterpretation of the spirit and purpose of the exchange scheme is responsible. Glasgow wanted a teacher and received a student, McGill wanted a student and received a teacher. That is the situation as I see it, after some measure of bitter experience. Whatever adjustments have been made must be credited to the insight and wisdom of the local Director. The question is, Does the present arrangement satisfy the intent of the exchange?

My/

My work in Glasgow must fall, for the purpose of review, into two divisions: the one of the University; the other of the Training Centre. Of the latter I speak first. No place was found for me on the Glasgow lecturing staff, fortunately for my studies. By the advice of Mr. Burnett, Director of the Centre, I have endeavoured rather to familiarize myself with the organisation of the Centre, its aims and standards, the staff members and their outlook. To date I have had to do with Mr. Haddow of the English Department, Dr. Insh of the History Department, and Dr. Dawson of the Psychology Department. Under Mr. Haddow's guidance, I visited classes of every grade within the Centre. With Dr. Insh I did some work looking to the use of folk-song in the teaching of History. With Dr. Dawson I am at present engaged in the formation of tests for literary capacity. Besides these specific interests I have found much to learn in staff-room conversation and in visits to various members of the staff within their homes. All this, together with extensive reading and constant observation, should result in much good for my ultimate qualification as an educationist-interpreter between Scotland and my own Country of Canada.

Of my work at the University it is difficult to give adequate report. My studies have been pursued, for the most part in the University Library under the direction of Macneile Dixon, Professor of English. The University Court very considerately lowered, in my case, the three year requirement for the Ph.D. Degree and fixed two years as my time of preparation -- this in consideration of my previous study. My thesis title has been approved by the English Department to read: "A Study of Folk-Song in Canada".

At the present moment, too, the University Library Committee has under consideration a proposal which I have made to edit the Black-letter broadsides of the 16th and 17th centuries which are in their possession. The collection ranks third of its kind in the world, but that is unknown. Of this matter I can say no more at present, although much of my library time has been spent upon this work.

thanks

Before closing I would extend to my University (McGill) to your Committee, and in particular to Mr. George A. Burnett, Director of Studies, for the opportunities and pleasures that have been mine under the student-ship.

(Sgd.) MURDOCH M. MACODRUM.

2. MR. D. L. GOWER.

Report by Professor W.T. Waugh, Kingsford Professor of History and Chairman of the Department, McGill University, Montreal.

Dear Colonel Bovey,

I have received your letter dated 6th February in which you ask for a report on Mr. D.L. Gower.

So far as we can judge at this stage of the session,

Mr. /

Mr. Gower is doing exceedingly well in his work for the M.A. Degree in the department of History. His zeal is great and his enterprise exceptional. Our only misgivings are lest he should break down through over-work, a danger against which he has been repeatedly warned.

I hope that Mr. Gower's successors will be of equally high quality. If they are, the scheme of interchange of teachers will, from our point of view be a notable success.

(Sgd.). W. T. WAUGH.

3. MISS FRANCES COPPENS.

Report by Director of Studies, Training Centre, Moray House, Edinburgh.

Dear Mr. Peddie,

Reciprocal Interchange of Teachers.
Miss Frances Coppens.

Miss Coppens has proved, in my opinion, very suitable for this exchange. She has taken part in the teaching work of the Centre for (on an average) ten hours per week. Her work has been partly taking tutorial classes in Education, and partly supervision of teaching practice, and she has carried out these duties to my entire satisfaction. She is an excellent lecturer.

Her studies have mainly, I understand, taken the form of investigating our whole method of training teachers in Scotland, and her report on which will, I believe, be one contribution towards a year-book on the training of teachers in different parts of the world, which Columbia University is issuing. In addition to attending as an observer many lectures and classes at Moray House she has visited schools and has gone to other centres to make enquiries.

I am strongly of opinion that this system of exchange should be continued. It would greatly help if, as early as possible, we could know the qualifications and experience of the teachers coming to our centre. I have found considerable difficulty during the present session in getting all concerned to appreciate the fact that Miss Coppens is not merely a student, but definitely a responsible member of the staff, and one with considerable American experience of training teachers. That difficulty has now I think been overcome, and more definite arrangements for responsible work on the staff can be made for next winter as soon as we know the particulars of the American teacher who is coming to us. Especially it will be valuable to know beforehand how much experience he or she may have had, and along what particular lines.

(Sgd.) GODFREY H. THOMSON.

4. MR. W. B. INGLIS.

Report by Dr. W. F. Russell, Associate Director, International Institute, Teachers' College, Columbia University, New York.

My dear Mr. Peddie,

In reply to your letter of January 20, I am writing to tell you how pleased we are with the work of Mr. W. B. Inglis. He has taken an active part in our student body, has visited a great many schools, and has put himself into touch with the best aspects of American education.

We feel that the experiment from our end has been a success and we should be glad to continue it for another year.

(Sgd.) WM. F. RUSSELL.

NATIONAL COMMITTEE FOR THE TRAINING OF TEACHERS.

GENERAL EXECUTIVE COMMITTEE.

RECIPROCAL INTERCHANGE OF STUDENTS.

Note on Reports on Nominees.

With regard to the sub-joined reports on the four nominees under the above Scheme, it is advisable to bring to the notice of all the Authorities concerned certain factors which emerge in relation to the qualifications of the nominees and the character of the work done by them.

It seems clear from the Print emanating from the National Committee's Offices in January 1925 that the main purpose of the conditions therein laid down was that graduates of high academic distinction who were definitely proposing a career in teaching and who had already done a certain amount of training in Education, should be interchanged with a view, primarily, to the development and enrichment of their powers in relation to the subject of Education.

It will be seen from the reports that the exchange arranged between Teachers' College, University of Columbia, New York, and the National Committee has worked out along the intended lines. Miss Coppens has been, in the eyes of the Director of Studies of the Edinburgh Centre, a responsible member of his Staff, has done actual lecturing at the Edinburgh Training Centre and has, in addition, conducted a piece of educational enquiry along approved lines.

The report on Mr. J.B. Inglis who went from the Glasgow Centre to Teachers' College, University of Columbia, while not of so definite a nature as this given regarding Miss Coppens, implies, nevertheless, that he also has spent his time/

time in the manner desired by the National Committee. In each of these cases, one year's residence abroad would appear to suffice and there seems no desire on the part of either reciprocating bodies to have this period lengthened.

The cases of Mr. M. M. MacOdrum who came from McGill University to the Glasgow Centre and of Mr. D. L. Gower who went to McGill University from the Edinburgh Centre, present altogether different considerations from those mentioned in connection with the work of Miss Coppens and Mr. Inglis.

Mr. MacOdrum is undoubtedly, first and foremost, a research student working in the University on a piece of research which cannot reasonably be completed within one year and it has been due only to the good-will and understanding of the Director of the Glasgow Centre that he has been enabled, in some measure, to make himself acquainted with the Theory and Practice of Education in this country. Mr. MacOdrum has had no professional training in Education, and, therefore, in fairness to all concerned, it will be necessary in any future arrangements for the National Committee to decide whether a purely research student who is only, in a minor degree, interested in the Theory and Practice of Education, should be made a nominee.

With regard to Mr. Gower, it is difficult to write absolutely, but it would appear that his principal work, indeed possibly his sole work, has been research in the department of History. In his case also one year will be insufficient. Mr. Gower went from this country with a year's professional training at the Edinburgh Training Centre, in addition to his Honours Degree in History, and as far as can be gathered from the print above mentioned, it was assumed that he would, in addition to research work, give instruction in Education Courses/

Courses at the University or affiliated Training Department at the University for not more than 10 hours per week.

Further enquiry is being made into the exact nature of Mr. Gower's work, but the report, as far as it goes, seems to indicate that his position is not unlike that of Mr. MacOdrum.

The foregoing may help to demonstrate the difficulties which have been attendant on the inauguration of the reciprocal scheme; but having regard to the genuine desire of all parties concerned to co-operate willingly and whole-heartedly, there seems every reason for assuming that if the scheme is continued and extended, these difficulties should be capable of being entirely overcome.

My dear Col. Boney,

A word of thanks for your latest service — the adjustment of my scholarships' financial alignment. I am doing my best over here and it is highly satisfying to know that I am receiving intelligent and loyal support: for, after all, this must be admitted to be a "front-line" post, the scheme has been in travail!

My work here is proving more profitable than I had dared even to hope. More of it anon, though: this is just a note of thanks.

Mrs. MacCormac and I are enjoying life thoroughly, despite the horrible weather!

With warmest regards from us both —

Yours sincerely,

Dear Mr. MacOdrum:-

I was very glad to get your letter of December 4th though you will think I have taken a very long time to reply to it.

The University only granted £1,200. for total expenses. After some discussion, however, we have decided to increase our grant to a total of 300 pounds sterling for the first year. This will cover your travelling expenses. I hope this will be satisfactory.

Yours faithfully,

Wilfrid Bovey.

Dear Col. Boneg,

The season's greetings! This note will be too late for Christmas, but will reach you early enough in the new year to warrant the customary salutation. Then, too, you have "our" card.

I wrote this, primarily, that you may be on the lookout (if you will be so good) for a letter which I posted yesterday to Mr. Bevrell the Assistant Barras. This man Malloch has been my bane over here. Every thing and every body has been

perfectly splendid, with his single
 exception. If ever a business pro-
 position was bungled, this one has
 been by him. My faith in his word
 is absolutely nil, at present. Worse,
 he has dragged Mr. Gill into a nasty
 light: this by his last letter to me, to
 which I refer Mr. Barrell. Thy paper
 having reference to the leadership
 which were in your offer, and to
 which you gave me access read
 as quoted in Mr. Barrell's letter "£250,
 plus £50 travelling expenses." That
 was all that I knew. I should cer-
 tainly never have risked coming
 to Scotland on £1,000 for 12 months
 — I would have been crazy. But
 £250 (approx. \$1250), plus £50 (approx. \$250)
 was a different matter — perfectly
 safe and satisfactory. If the
 payment are made only to

the total amount of \$1200 I shall be in a nasty hole for my trip across cost me \$200 (and more). Then the University asked fees amounting to another \$40. That would leave me with about \$80 per month stipend or the scholarships - much less indeed for there are library and laboratory fees and a lot of smaller incidental expenses. \$75 per month would be a nearer estimate. Will you please look into this matter and see if some equitable adjustment can be made? I was perfectly satisfied with the £250 plus £50 arrangement, which I understood was in force at the time of my acceptance. —

My work is progressing splendidly. Because the Fratney Centre seemed to have no particular teaching place for

4

me, I was told to push my University work to the limit. At present I see very good prospects of an honourable graduation as Ph.D in 1927 (if I am left here). My especial contacts are with Prof. Macneil, Dr. Iron (English), Dr. Dawson (University & Training Centre Psychology), Dr. Rush (History), and Alex. Hadlow (English Head at the Training Centre).

you will be interested to learn that I have received several lecture invitations, chief among them an invitation to read a paper before the Royal Philosophical Society (Historical and Philological Section), in October next.

We are enjoying our stay immensely.

With best regards from
Mrs. MacOdrum and myself

Yours sincerely

J.R. Peddie, Esq.,

8, Charlotte Square,

Dear Mr. Peddie:-

I thank you for your letter of January 30th. I am glad to know that you have the same interest in the student teachership scheme as had your predecessor. I am enclosing you herewith a formal report on Mr. Gover by professor Taugh, who is in immediate charge of his work in the Graduate School and whom you will note is very satisfied.

Might I ask that at the same time you will send us a report on Mr. MacDermid, in order that the continuation of his scholarship for another year may be decided.

It seems appropriate at this time to make a remark concerning the print sent out in January this year regarding the conditions. There was some difficulty about Mr. Gover's appointment, owing to the fact that the print and the correspondence did not agree. The print calls for students coming here both to follow the post graduate course and to teach. This is not in accordance with paragraph 2 of your official letter of April 3rd or with our own sent under cover of letter of May 4th. Might I suggest that as the print emanates from your office a revised edition should be prepared in accordance with our memorandum, so far as we are concerned.

There is one other change to be made in our memorandum which is that we are allowing, instead of \$1, 200., £250 (plus £50 for travelling ~~EXCESS~~ allowance for the first year).

Yours faithfully,

Wilfrid Bovey.

Dear Colonel Bovey, Mr. D. L. Gower.

Reciprocal Interchange of Teachers.

There was no part of my predecessor's duties in which he took a more lively interest, and before demitting office he impressed on the the desirability of keeping prominently before my Committee the whole subject of the reciprocal interchange of teachers with a view to the continuance of the scheme inaugurated last year.

I am very anxious to follow out Mr. Malloch's wishes in this matter, and, accordingly, am taking steps to put before my Committee the question of the continuance of these scholarships at an early date.

I feel certain that my Committee would wish to have some indication of the progress made by the students selected to go to McGill University and also to have your opinion on his general suitability for the needs of the scheme.

Although it will be rather early for you to give any final and definite report on the quality of Mr. Gower's work, I should, nevertheless, esteem it a great favour if you could furnish me with a provisional report on the character of his accomplishments during the period of his residence with you.

I am sorry to trouble you at this stage on the matter of reports, but this is the kind of thing which must be tackled fairly early so that ample time may be given for future nominations.

Dear Colonel Bovey,

Reciprocal Interchange of Students.

I have to thank you very much for your reply to my letter of 20th January on Mr. Gower's work, and on other matters connected with the reciprocal interchange scheme.

I confess to some difficulty in knowing precisely what you wish in relation to the alteration of the National Committee's Print to which you refer. It seemed to me, therefore, that the best thing I could do for everyone concerned was to have the complete reports for all the nominees typed out together with a short Memorandum written by myself giving what seemed to me to be the major points emerging from these individual reports on the nominees.

Will you kindly look over all the enclosures and let me know how I can best proceed to alter the Print as you desire?

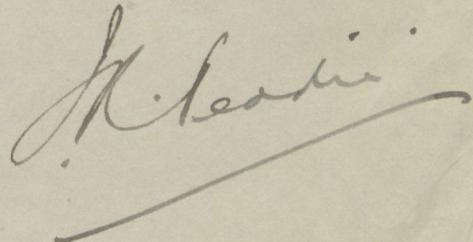

It would be of great assistance if I might know whether Mr. Gower has done any teaching work at all in addition to research which he is conducting in your department of History.

I am,

Yours sincerely,

J. R. Peddie, Esq.,
National Committee for the Training of Teachers,
8, Charlotte Square, Edinburgh.

Dear Mr. Peddie:-

I beg to acknowledge receipt of your letter of March 9th with various enclosures therein contained. I will collect those interested as soon as possible and ask them to review the situation.

Before we take up the matter finally I should like to make clear the point concerning which you wrote, a point indeed which is specifically referred to in your own report. When the original scheme was being discussed by our committee here a draft was prepared which we sent to Mr. Malloch and of which I now send you a copy. This was completed on the basis of our letter dated March 18th, and Mr. Malloch's letter of April 3rd, both of which are doubtless on your files.

When Mr. Gower arrived in Montreal it was ascertained that his training would not enable him to enter our Graduate Faculty, unless he were prepared to devote his whole time to historical research. In consequence we sent a wire, dated October 19th, pointing out that our understanding of the correspondence had been that the student coming from Scotland might engage in any Ph. D. study should he choose to do so. For the sake of convenience I enclose copies of our cable and of Mr. Malloch's cable. It is in consequence of the fact that Mr. Gower wanted a Ph.D. that he did not carry on any educational work, and it must, I think, be understood that it will not be possible as a rule for a student coming to McGill to carry out the provisions of paragraph 3 of Section 2(a) of your print.

J. R. Fiddie, Esq.

It seems a pity that any misunderstanding should have arisen, and it was with a view to avoiding this that under cover of our letter of May 4th which we took to be a confirmation of all the correspondence, we enclosed the draft to which I have referred above and of which a copy is enclosed.

It seemed clear to us that we had never accepted the print as issued in January, 1925, but had explained fully that some slight modification must be made in it to suit our conditions.

So far as I can see, the only way of meeting the difficulty which you point out and which is assuredly a real one, would be to make paragraph 3 (a) (3) (a) of the print read as follows:-

"Follow at the American or Canadian University either a study of some aspect of Education carried on under the department responsible for the training of teachers or a post-graduate course, according to the University's approved Scheme in the Faculty of Graduates' Study and Research, extending over at least one full session, ^{or, if the} Universities so approve, both.

So far as McGill is concerned this would eliminate the possibility of a student obtaining a higher degree, except in the case of young men of such training in the subjects in which higher degrees can be given at this University as would enable them to do the teaching work at the same time. While Mr. Gower did not possess this training there is no reason to think that another student must be in the same position.

As regards Mr. MacOdrum, if you will be good enough to again refer to the draft, you will see that it was quite satisfactory from our point of view that the student going to Scotland should make a study of the Scottish educational system and that we did not require him to carry on teaching. We gathered from the acknowledgement of our draft dated May 4th, that you would on your side be able to make such arrangements as would enable the student sent from McGill to work along such lines. If however this presents a difficulty from your point of view we can re-consider the entire situation. We have no doubt that the difficulties facing us at present are only minor ones, and we are quite assured that we shall be able to meet them.

Yours faithfully,

Wilfrid Bovey.

"That in view of the nature of the investigations undertaken by Mr. MacOdrum, his studentship be extended to cover Session 1926-27, two Sessions being considered the minimum time for the effective pursuance of the line of study on which he is engaged the recommendation being made subject to the approval of the authorities of McGill University.."

"That further reports be received on the work of Mr. Gower at McGill University, and if it be found that Mr. Gower's line of study necessitates two Sessions, as in the case of Mr. MacOdrum, the same privilege be extended to Mr. Gower as to Mr. MacOdrum".

Will you let me know whether Mr. Gower will get his degree aegrotat at the end of this year if he does not recover from his present illness; if not what recommendation have you to make as regards the continuation of his scholarship?

Dear Colonel Bovey,

Reciprocal Interchange.

At a meeting of my Committee held on 10th instant, reports were submitted with regard to the scheme of reciprocal interchange of teachers, and particularly to the work now being undertaken by Mr. MacOdrum and Mr. D.L. Gower.

After reviewing the work on which these two gentlemen were engaged, it was resolved to recommend as follows:-

- (1) That, in view of the nature of the investigations undertaken by Mr. MacOdrum, his studentship be extended to cover Session 1926-27, two Sessions being considered the minimum time for the effective pursuance of the line of study on which he is engaged, the recommendation being made subject to the approval of the authorities of McGill University.
- (2) That further reports be received on the work of Mr. Gower at McGill University, and if it be found that Mr. Gower's line of study necessitates two Sessions, as in the case of Mr. MacOdrum, the same privilege be extended to Mr. Gower as to Mr. MacOdrum.

I shall be glad to learn whether you would be agreeable to the continuance of Mr. MacOdrum's studies for another Session at Glasgow, and whether also you consider that Mr. Gower ought to have a second year with you at McGill University.

The emoluments to be paid to both would be the same for Session 1926-27 as for the present Session, viz., £250, but there would be no necessity for the payment of a further sum of £50 for travelling expenses.

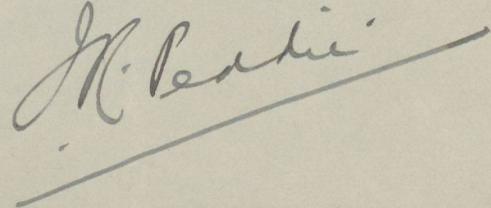

Will/

Will you kindly let me have your views on the matter so that I may report them to my Committee?

You may have heard that Mr. MacOdrum is doing work in the University of Glasgow of the most valuable nature in connection with ballad literature, and it seems to me that he has every chance of achieving very distinctive success in his efforts.

Dear Colonel Bovey,

I am glad to have your letter of 15th instant. I take it that for Session 1925-1926 we are now squared in respect of the payments. We paid Mr. McOdrum £300 in all, and the £57:7:5 received from you, squares off Gower's £300. Mr. Law is going out under the same terms, namely £250 as Scholarship plus £50 travelling expenses, and as in the case of Gower we have advanced to Law, £50 to meet his travelling expenses, repayment of which I shall be glad to have from you in due course.

I think I told you that I had managed to get Gower into a private sanatorium near Edinburgh. From what I can learn of his case, he seems to be in a pretty bad state. To meet the hospital expenses my Committee have voted him a sum of £30, which I am to use at my discretion. I sent him £10 a few days ago and got with the receipt a letter from Gower's mother which seems to indicate a condition, not altogether hopeless, but very serious.

I had Law medically examined by one of the Medical Officers under the National Committee, and have got a certificate attesting his sound health.*

Dear Colonel Bovey,

This letter is to introduce the bearer, Mr Alexander Law, who comes to you as successor to Mr Douglas Gower. My letter to you of 17th July explains, I think, fully my action in relation to Mr Law's emoluments and also the purposes for which Mr Law is coming to Canada. I think you will find him an excellent fellow in every respect. I have had him medically inspected and he is pronounced fit in every way.

I have furnished Mr Law with the sum of £50 to meet travelling expenses and take it that you will make payments to him throughout the session as from 1st October along the same lines as those which you adopted for Mr Gower.

I need hardly say that in company with the Director of Studies at the Glasgow Centre I was grieved beyond words to hear just a few days ago of the death of MacOdrum's wife. I understand that he is proceeding to Canada at once and we have, of course, under the circumstances, left the matter entirely open as to his return here. I hope sincerely, however, that he will return and complete his second year of the Scholarship. I cannot write more definitely regarding the payment of his emoluments just now but he may rest assured that if, and when, he returns to this country, we shall at once take steps to ensure that his Scholarship monies are paid regularly.

An unkind fate seems to have dogged the first year of our joint operations. I hope most sincerely that the future will be brighter.

With kind regards,

Dear Mr. Peddie:-

I am very much obliged for your letter of September 29th. I think there is a slight error concerning Mr. Law's travelling expenses, at least if there is not there is a mistake in the correspondence dealing with the instructions.

The agreement as we understand it provides for the payment of the travelling expenses of each student by the nominating body and not by the receiving body. If there is any misunderstanding here, we must clear it up definitely.

I am sorry to hear that Gower does not progress, but it is astonishing what he has done. If he were ever able to move it might be possible to give him a job in Arizona or somewhere of that kind, and I am sure that any of us would be only too pleased to help.

Dear Colonel Bovey,

I should have written you some time ago to let you know that Douglas Gower died on 25th February. He made a great struggle for life, but it was obvious for some time prior to his death that he was fighting a losing battle.

We deplore greatly the loss of this distinguished young scholar, and, when reporting the death to my Committee at their meeting on 11th instant, I laid particular stress upon the kindness and sympathy extended to Gower by yourself and your colleagues. I was asked by my Committee to voice their appreciation of the great care and attention which you gave to this lad.

Mr. Law writes with regularity to the Director of Studies of our Edinburgh Centre, and has also written to myself. From all we are able to learn we are thoroughly satisfied with the opportunities that are being given him, and, in point of fact, I shall not be surprised if he turns out to be the best choice we have made so far.

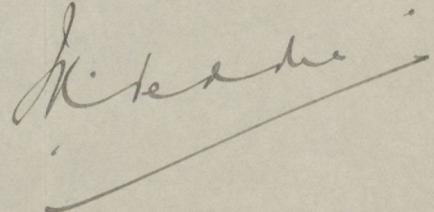

I saw Mr. MacOdrum in Glasgow recently just at the time when he was putting in his Ph.D. thesis. I have no doubt whatever that he will be successful and I gather that both at the University and the Training Centre he has made a distinctly good impression.

Dear Colonel Bovey,

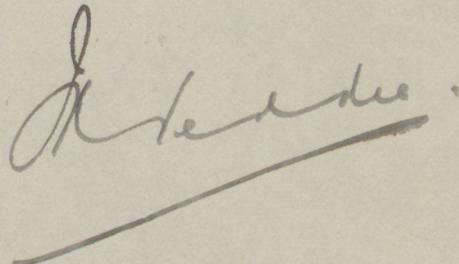

I have been writing to-day to the various Centres under the National Committee asking for nominations of suitable candidates for interview as a successor to Mr. Law at your University in connection with our Reciprocal Interchange Scheme. Mr. MacOdrum will finish with us at the close of this session and I am taking it that you are willing to send us a successor to him on the same terms as those on which we are at present working.

The studentship will, I take it, be tenable normally for one year but in exceptional circumstances may be held for two years. When I had the pleasure of meeting you last summer we got a fairly clear idea as to what was wanted and, accordingly, I do not think it necessary for me to enter into further details at the moment. I shall be very glad to hear from you should there be any point of difficulty and will let you know the name and qualifications of Mr. Law's successor as soon as ever we get the necessary interviews completed.

With kindest regards,

I am,
Yours sincerely,

Colonel Bovey,
McGill University,
MONTREAL.

STUDENT TEACHERSHIP IN SCOTLAND

Applications now being considered.

Mr. Maxwell M. MacOdrum who has been attending Glasgow and Edinburgh Universities during the past two years as holder of the Student Fellowship in Scotland provided by McGill University has now completed his work and will shortly return to Canada.

It is announced that applications from candidates who are graduates and who have had some teaching experience will now be considered. Such applications are to be addressed to the Principal, McGill University.

Dear Colonel Bovey,

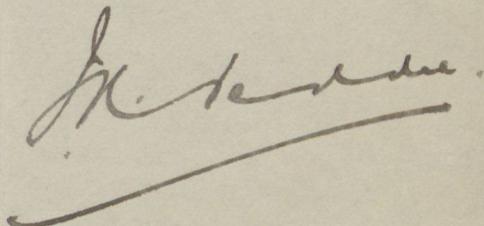

I have your letter of 16th May and am much obliged to you for the full report which you have given us on Mr. Law. It was good of you to take this trouble and I assure you that my Committee are grateful.

I hope to hear from you soon with regard to Mr. MacOdrum's successor. On my side, I shall let you have the name and credentials of our successor to Mr. Law about the end of June.

With best wishes,

I am,

Yours sincerely,

Colonel Bovey,

Dear Mr. Smith:-

Your appointment to continue as the McGill student teacher for a second year under the Reciprocal Interchange Scheme with Scotland is approved.

Yours faithfully,

Wilfrid Bovey,

Director.

FACULTY OF ARTS
DEPARTMENT OF EDUCATION

March 26th 1930

Dear Col. Bowring

I fear you will say I have kept this file on "Interchange of Teachers" a very long time. But until I had learned something of the features of the educational landscape here, it was not possible to answer with any relevance your request for an expression of opinion on the Interchange scheme.

The conclusion to which I have come is that the scheme ought to continue, at least until we can see how it can be adjusted to any arrangements that may be made at McGill for specialist studies in education. The weakness hitherto has lain in the fact that McGill could neither offer facilities to a student from overseas, nor equip one of its own students to take full advantage of facilities for advanced work on the other side.

There is now some hope that this weakness may be remedied, - in just at least. Hence it hardly seems to be the moment to terminate an arrangement which may prove the more fruitful than it has been in the past.

I am about to go forward with proposals

P. T. O.

for visiting on M. A. degree in Education. If
these should mature a category will be
provided into which students from overseas
under this scheme can readily be fitted.

Hence I feel that nothing should be done
to jeopardize the continuance of the exchange
arrangement. It may well prove to be a
thing of great value & have attached to
this Department every year at least one
man who has the necessary preliminary
equipment for serious studies in Education.

I am

Yours very truly

F. Clarke.

Dear Prof Clarke:-

Do you approve the enclosed draft. The "plan" is made in the light of our experience with the other scheme - but please do not hesitate to blue pencil it.

O.K.! But should you not add that the University has now added Education to the list of subjects in which the degree of M.A. can be taken. Presumably an exchange Scholar coming here would now be expected to qualify for that degree.

(Of course the requirements would be determined with due regard to the work the student may already have done.)

14th May, 1929.

Dear Colonel Bovey,

I regret that I have not had an earlier opportunity of replying to your letter of 9th April in which you give me news of Mr. Howat.

On Saturday, 11th May, my Committee discussed the whole question of reciprocal interchange, and reviewed the various nominees and the work done by them since the inception of the scheme. In regard to Mr. MacOdrum and also to Mr. A.J.M. Smith their view was that both nominees had done admirable work as University students, and that Mr. Smith particularly had been a useful asset in the activities of the Training College. The Committee felt, however, that the conclusion of Mr. Smith's tenure of the scholarship was a suitable time at which to pause in the interchange with McGill University, and they asked me to inform you that, for next year at least, they would like to send a nominee to another of the great Canadian Universities. I was asked to find whether the University of Toronto would embark upon a scheme of interchange for next session similar to that which has been in operation with your own University.

In terminating the arrangement for the time being, my Committee asked me to impress upon you the fact that, along their own lines, both nominees sent by you have done excellently, and that the Committee's desire for change is simply owing to their anxiety to try out various types of nominees both in the Canadian University and in Teachers College, Columbia University.

I ought to add that by some members the view is held that the funds we are providing for these scholarships might be better utilised by teachers of greater maturity than those we have been sending, and it is just possible that, in the near future, the whole scheme may go into the melting pot.

I feel that in writing the above, I have put you to considerable inconvenience but I could not well get to work on the matter earlier.

My dear Sir Aubrey:-

For some time past a scheme has been in operation by which a mutual exchange of student teachers is effected between this University and the National Committee for the Training of Teachers in Scotland.

Each institution provides a sum of £300 per annum towards the plan. This covers all travelling and living expenses. Tuition fees are remitted.

The primary object of the scheme is to enable student teachers to study educational methods and conditions in other parts of the Empire. This is all that is required of holders of the Scholarship, but if in addition it is possible for them to proceed to a higher degree, they are encouraged to do so.

We have just received notice from the National Committee that they wish to send their candidate to other Canadian centres than Montreal, thus ending the scheme as far as McGill is concerned.

It might be that if some other arrangement were proposed, the Governors of McGill might be willing to continue the present grant. I am therefore writing to ask you in an entirely informal and unofficial way whether your Department would consider promoting a similar exchange between ourselves and some institution or body in England.

If you like the idea perhaps we might have a few words about this when you arrive in Montreal.

Yours sincerely,

Wilfrid Bovey.

30 May 1925

Dear Colonel Boag

I am so sorry not to have seen you - We arrived last night just in time to dine with Mr. Diamond - today we lunched with Mrs. Cook at the Hunt Club & I spent the remainder of the afternoon with Dr. Hartman who very kindly took me round the University.

Your exchange scheme is one that interests me greatly - I should like to think it can & will soon operate when

I get home as 6th pmilij of getting
some authority in Engd to take the
place of the Scottish Natural Committee - after
which I will write you again for a
more considerd opinion than I can at
this moment.

We sail tomorrow morning & the
greatest task will be to collect results
of your visit.

With my kindest regards & best regards
Yours

Sincerely yours
Henry F. Henshaw.

CENTRAL EXECUTIVE COMMITTEE.

Excerpt from Minutes of Central Executive Committee of 4th June 1926.

3. Amendment of Conditions affecting Student-Teacherships.
The Committee then took up consideration of the conditions under which the student-teacherships should be held in future, and there was submitted a letter of 6th April from Colonel Bovey, M'Gill University, containing suggestions for a modification of the original conditions. After discussion it was agreed to recommend that No. 2(a), 3(a) of the Conditions (Minutes, Vol. V., p. 143) should be amended by the addition of the words in italics, so as to read as follows :—

(3) That the selected candidates—

(a) Follow at the American or Canadian University *a course of study in some aspect of Education or in some subject in its educational aspect*, according to the University's approved Scheme in the Faculty of Graduates' Study and Research, extending over one full session.

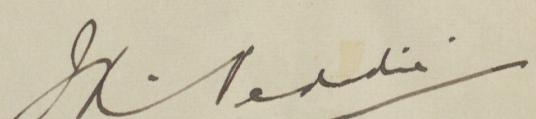

It was also agreed to recommend that further negotiations be entered into with Teachers College, University of Columbia, and M'Gill University, with a view to the following emendations of the present conditions for American or Canadian nominations :—

(1) That No. 2(b)(1) (Minutes, Vol. V., p. 143) be amended by the addition of the words in italics to read as follows :—

That the candidates receive nominations from their respective Universities and have, in addition to *professional training as teachers*, an Honours Degree or its equivalent, and be desirous of continuing a course of study *primarily relating to the Theory and Practice of the subject of Education* at a Scottish University and Training Centre.

(2) That No. 2(b)(3) be amended to read as follows :—

That they undertake to utilise the facilities of the University to which they may be attached, with a view to the advancement of any subject or subjects of higher study on which they may be engaged.

MEMORANDUM RE STUDENT EXCHANGE SCHEME

September 10, 1929

For the past four years McGill has been carrying on an exchange of student teachers with the National Committee for the Training of Teachers in Scotland.

Under this scheme a Scottish student comes here to study educational methods, etc., and a Canadian student is at the same time studying in Scotland.

McGill and the National Committee for the Training of Teachers in Scotland each contribute £300 a year.

Notification has been received from the Scottish Committee that they are terminating the exchange with McGill at the close of this session.

The Permanent Under-Secretary (Deputy Minister) of the Board of Education in England has intimated that England would be ready to take up the plan dropped by Scotland if we so desire, commencing September, 1930.

EXCHANGE SCHOLARSHIP WITH SCOTLAND
FOR STUDENT TEACHERS.

This scholarship is of the value of £300 per annum which includes travelling expenses. University fees (except degree fees) are remitted. It is tenable for one and in special cases for two years. The holder is required to study some aspect of educational theory and practice at Edinburgh or Glasgow under the Scottish National Committee for the Training of Teachers and to carry on practice teaching. Candidates must have an Honours Degree. Applications to:- The Secretary, Department of Extra-Mural Relations, McGill University, from whom further details may be obtained.
