March 8th, 1926.

T. F. Traihey, Esq.,
Secretary, Harbour Commission,
Montreal.

My dear Mr. Traihey:-

I am giving this letter to
Mr. Edward McArthy, with whom I have just had a
conversation.

Mr. McArthy served with
the 87th Battalion and was very badly wounded
the day we broke the Queant-Drocourt line. He
was pensioned and up to about seventeen months
ago was rated as fully disabled. Since that
time his pension has been very greatly reduced.
He has been employed by the Harbour Commission
at different intervals,- taken on last summer
he was laid off last November, and taken on again
about January 10th he was laid off about February
24th. His Superintendent was Mr. Sherry, with
whom I have spoken over the 'phone. Mr. Sherry
said that Mr. McArthy is a first class work man
and that he would gladly have him as a member
of his staff.

I would regard it as a
personal favour if you could see your way clear
to give this very worthy ex-soldier congenial
employment. I may say that Mr. McArthy has held
very good positions in the days before the war

T.F. Trahey, Esq., - 2 -

and is making an honest effort to obtain for himself as good a position as any formerly held.

Yours faithfully,

November 16th, 1925.

Attention: Mr. C.G. Dodge.

Dear Sirs:-

In reply to your letter of November 12th let me say that I have known Mr. P. S. McCutcheon for the past thirteen or fourteen years, - first as clerk in the Bank of Montreal at Victoria, B.C., then as a soldier in the Canadian Corps throughout the war, and since then as an officer of the Bank of Montreal Staff.

I have always liked him and he has always stood well with his fellows. He is a manly, straightforward, clean-living young man and I have no hesitation in recommending him for a position in your Bond Department.

Yours faithfully,

Principal.

Wolfville, N. S.,
4th. April, 1921.

My dear General,

This morning I received the following letter from
General MacBrien: -

"My dear MacDonald,
"I have given your name to the Minister for the
appointment about which I wired you but I am afraid that you
may not be chosen for several reasons, the first of which is
that up to the present although we have had a number of Canadians
appointed to the War Graves Commission, no French-Canadian has
been yet given an appointment and one with a very good war
record is also an applicant for the position now vacant. Should
any other appointment open up I shall keep you in mind and en-
deavor to get some suitable job for you.

"With best wishes, believe me,

"Yours sincerely,

(signed) "J. H. MacBrien"

It would seem from the above letter that my
chances of getting that appointment, are, to say the least, not
very good. I am sorry, too, as I think that I could have made
a success of it.

My reason in writing to you now is because I
fear that "should another appointment open up" something of the
same nature may happen, and that I may be disqualified through
lack of hyphenation to my Canadianism. I think, however, that
it is a matter of political pressure, and I should certainly
appreciate it very much if you could help me again in that re-
spect.

With very kindest regards,

Yours faithfully,

Eric Mac Donald

April 12th, 1921.

My dear Sir Frederick,-

Replying to your letter of April
the 11th:

I regret to say that I failed to
get Eric McDonald the position which I had hoped
for.

We expect to have another vacancy
offered to us by the War Graves Commission, but
it is uncertain as to when this will be. It may
be one month or three, or more - no one can tell.
In the meantime, there is really nothing that I
can think of that would be at all suitable. The
Minister has told me that he will give McDonald
the next vacancy in the War Graves Commission,
should one be offered to us. I shall keep my
eyes and ears open, and should anything suitable
turn up, I will do my best to secure the appoint-
ment for him.

Respecting your letter of April the
5th, regarding Major Cunningham: I have taken the
question of an appointment for him up with the Ad-
jutant-General, and regret to say that there is ab-
solutely nothing open, except a few vacancies for
Subalterns, which probably would not attract him, and
at any rate, these are being held vacant at present
owing to lack of money in the Permanent Force Vote.

It is most difficult to get anyone
an appointment these days. I would be glad to help
both McDonald and Cunningham but unfortunately we
have no vacancies into which they could be put.

I thank you for your letters, and regret that I can be of so little help.

With best wishes to Lady Loomis and yourself,

Believe me,

Yours sincerely,

My dear Sir Arthur,

I hesitate, knowing how fully you are occupied, in bringing a matter like the following to your attention. I believe however, that you are personally interested in Lieut.-Col. Eric McDonald and will be anxious to assist in helping him to secure a position.

Herridge and I have been trying to secure a position for Eric at Ottawa, but although we have appealed to several different Departments, up to the present have not been successful. I enclose herewith two letters, one from McBrien and one from Eric McDonald, which will show you that there is very little to hope for from the Department of Militia & Defence.

A thought has occurred to me that you may be willing to speak on behalf of Eric to Lord Shaughnessy, Bank of Montreal, Sir Charles Gordon, or some other influential person in Montreal, who could give Eric a suitable position.

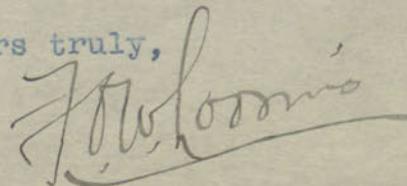

If you think well of the suggestion, it may be desirable to first secure from Col. McDonald a letter setting forth his capabilities and experience in civil life. If you so desire me, I will secure such a letter from Eric.

I understand that Eric has been out of work since demobilization and that his present position is rather critical. He is living with his father who is a clergyman in Wolfville, N.S., and has a very small salary. I first heard of Eric's difficulties from Archie Mac at Kingston. Eric's father had written to him explaining the situation.

I am very sorry to hear that Lady Currie was indisposed. I hope however, that she has now recovered. You must both be looking forward to the Summer Holidays for a much needed rest and relaxation.

With very kindest regards, believe me,

Ever yours truly,

It would be well if you got from

Personal

Rt. Hon. Sir George E. Foster, G.C.M.G., P.C.,
Minister of Trade and Commerce,
Ottawa.

Dear Sir George Foster:-

I desire to ask your assistance
in finding suitable employment for Lieut.-Colonel
Eric MacDonald, D.S.O. and Bar, M.C.

Lieut.-Colonel MacDonald went over
with the 1st Canadian Division as a member of the
12th Battalion. His service in France was alto-
gether with the 10th Inf. Battalion, which he joined
as a subaltern and rose steadily until he became
its Commanding Officer, a position which he held
during the last year of the War. I can say with
confidence that he was one of the very best officers
serving in the Canadian forces, possessing great
determination to see a thing through to a success-
ful conclusion. I can give many instances where
his personal example contributed in the highest
degree to the success of his Battalion. He knew
what was required to ensure victory and was any-
thing but casual or indifferent. He was most
faithful in the performance of his duty and most
devoted to the work on hand, and most loyal always.

Perhaps, you may remember his father,
Reverend MacDonald, a Baptist Minister, who, I
understand is rather well known in the Province of
New Brunswick, and who now is stationed at Wolfville,
N.S.

In the re-organization of the Canadian
Militia after the War I would gladly have taken Eric
on the strength of the Canadian permanent forces,
but at that time he had other ideas as to his own

Rt.Hon. Sir G.E. Foster - 2 -

re-establishment. These have not turned out at all well and I know that he is very, very hard up. Although only a young man, being yet under thirty years of age, he has had quite extensive business experience in both Eastern and Western Canada, in England and in the United States. I believe that he possesses sufficient organizing and executive ability to fill such a position as Trade Commissioner. I know that you are constantly seeking to extend Canada's trade by exploiting new markets and, therefore, there must be new personnel required.

In the Trade Reports which your Department is good enough to send me each week I have noticed that in Mexico you have as a representative young Major Chisholm, M.C., whom I remember very well as an officer in the 3rd Toronto Battalion. I am glad to hear that he is doing well, and I am sure Macdonald would do well also.

It is really too bad that an officer with such an excellent record has found it so difficult to make a living since his return to Canada. I hope that your Department may be able to do something for him.

I have the honour to be,
Sir,

My dear General:

Referring to our conversation of yesterday relative to Colonel Eric McDonald.

I have this morning written Mr. George E. Graham, General Manager of the Dominion Atlantic Railway, and have told him to get in touch with Colonel McDonald and assist him in every way possible towards securing something to do. Mr. Graham, of course, is familiar with not only the transportation opportunities which, as you know, are very few at present but also the general conditions in Nova Scotia. My understanding of the situation there is that the business depression is not as extensive as in other parts of Canada, and I am very hopeful that something may be suggested to Colonel McDonald's advantage.

Yours very truly,

Dear Sir Arthur:-

I have yours of April 29th with reference to Lieut-Col. Macdonald.

I have known the father for a long while and he is one of the most estimable of men and has given excellent service during the whole period of the war. I have had correspondence already with reference to the son whose record also overseas was all that could be desired. I am extremely sorry that in such cases it has been so difficult to make suitable provision for service. I regret that at the time it would have been possible to have placed him on the strength of the Canadian Permanent Force, he did not accept thereof, but naturally he had other views and supposed at that time that he would be able to realise them. I have already given, and will continue to give personal thought to this case, but I have found it, so far, difficult to make any provision which could include him in service. I have not, however,

given up the case and will do the very best I can
in regard thereto.

Chisholm, whom you recommended has been
doing very well and I think will make a very excellent
officer.

Yours sincerely,

My dear General:-

After Ferguson had informed me of the result of his conference with you regarding our Touring Agency proposition, we made every effort to get down to bed rock. With that end in view, and not having been able to make satisfactory arrangements in Canada, I got in touch with the American Express Company at their New York office.

As a result, they have signified their desire to co-operate with us in any tours which we may arrange. Moreover, they have undertaken to attend to all business dealing with steamship, rail, motor-car accomodation and to conduct our tours for us, either separately or in conjunction with their own whichever we may wish. In short, they have agreed to accept all responsibility from the time the ticket is sold and to look after the tourist from that day until his return to Canadian soil. This American Express management will, in itself, ensure decorum and satisfaction. For this service they are charging us set tariff rates varying from six hundred to nine hundred dollars, inclusive, according to the length of the tour. Our plans have been completed and our first sailing will be from Montreal on June 6th.

Following this plan, Ferguson and I will be able to attend to all financing, (which fortunately will not be great), and, I trust, from a modest beginning work up a reasonable amount of business.

We should, however, like very much to have your endorsation to the idea as we should like to have ourselves recognized as a semi-official Canadian Touring Agency in so far as our work connected with the Battlefields and war graves is concerned, - nothing more.

(2)

8th. Jan., 1923.

Your name will at no time be used to assist in raising money or in any other manner which could possibly reflect in a disagreeable manner. What we wish is simply a statement to the effect that you approve and recommend our efforts in their educational and patriotic phases in so far as they apply to the Students Tours and the Battlefields and War Graves pilgrimages.

Our general plan remains the same as before: to cater to the Canadian trade in a manner which no European or American agency has attempted to do.

Thanking you for the interest which you have shown in this matter and which I trust will continue, and with many kind regards, I have the honour to be, Sir,

Yours faithfully,

My dear Colonel:-

I have your letter of January 8th in which you tell me that you have completed arrangements which will enable you to undertake the management and supervision of parties of tourists visiting the British Isles and the Continent, with particular attention to the battlefields of France and Belgium.

I am glad to know that Major H.C. Ferguson, late 10th Bn. C.E.F., is associated with you in the undertaking, for which I wish every success. As far as the tour of the battlefields is concerned I know of no two men better qualified to make the trip interesting to tourists. Your long experience as a member of the Canadian forces throughout the war assures that, while the qualities of character which both of you possess, and to which I can testify from my association with you during the war, will be the best guarantee to your patrons that their interests will be fully safe-guarded.

Such trips have a highly educational value, while a visit to the battlefields should prove an inspiration to all Canadians or other Allies. I believe many parents would be willing to have their sons make the tour if they had confidence in the conductors. To all interested in your venture it is a pleasure for me to give the assurance that from what

My dear Colonel:-

I have just written a letter which I hope may be satisfactory to you and Major Ferguson. In it I have endeavoured to recommend your venture to any one interested in such tours as you propose to conduct.

Such recommendations I do not usually make and I am only doing it on account of my respect for you and Ferguson. Nevertheless, I know you only as soldiers and there are no better. I have no knowledge of your business ability, nor of your ability to run a Tourist Agency. I wish your venture every success, but remember this that no success ever comes without the hardest kind of work and unremitting attention to your job.

Dear Sir:

As you know Eric MacDonald has applied for and received the appointment of Inspector in the Justice Department. One of the high officials of this Department is backing his own man who, by the way, is not a returned soldier but is a staunch politician and I expect that the political associations of this part of the country will be for him and against Eric.

As the matter now stands Eric has been officially appointed by the Civil Service Commission but the man who had been filling the job temporarily heretofore is still at work and every effort is being made on the part of certain officials to cancel Eric's appointment and to make the temporary appointment of the other fellow permanent; and it is, therefore, necessary for Eric's friends to stand by and see that he has a fair deal. In this connection I thought you might care to speak to General Currie and ask him to send a wire both to the Minister of Militia Mr. MacDonald, whom of course he knows, and to Mr. Lapointe, who will be Eric's Minister and whom General Currie doubtless knows very well.

I would not bother you about this except that I know that nothing which concerns Eric will be any bother, and furthermore I feel that you can put it to General Currie much better than I could in a letter.

Eric and I are planning to come down and visit you as soon as this matter is satisfactorily settled.

F. A. McGregor, Esq.,
Prime Minister's Office,
Ottawa.

My dear Mr. McGregor:-

I want to bring a situation to your notice and to that of Mr. King, if you think this is necessary. I know that the matter is one which he would consider of some importance. It concerns Lieut.-Colonel Eric McDonald, D.S.O. and Bar, M.C., formerly of the 12th Battalion. I give you below an extract from a letter written some time ago by General Currie as a recommendation to this officer:-

"Lieut-Colonel MacDonald went over with the 1st Canadian Division as a member of the 12th Battalion. His service in France was altogether with the 10th Inf. Battalion, which he joined as a subaltern and rose steadily until he became its Commanding Officer, a position which he held during the last year of the war. I can say with confidence that he was one of the very best officers serving in the Canadian forces, possessing great determination to see a thing through to a successful conclusion. I can give many instances where his personal example contributed in the highest degree to the success of his Battalion. He knew what was required to ensure victory and was anything but casual or indifferent.

F.A.McGregor, Esq., - 2 -

He was most faithful in the performance of his duty and most devoted to the work in hand, and most loyal always."

We have been informed that Colonel MacDonald has received an appointment as Inspector in the Justice Department, the appointment being duly made by the Civil Service Commission, but that efforts are now being made to have this appointment cancelled and Colonel MacDonald replaced by some other nominee. Colonel MacDonald is an officer who deserves very well of his country and has had a very hard fight and very little assistance in re-establishing himself. It would not only be very unfair to him to cancel an appointment which was made in the regular way, but it would be very badly received among his many friends. I can think of few actions affecting an individual which would be more unpopular, especially as we all know what a hard time he has had during the last few years. I am quite sure that if the position is put before Mr. Lapointe he will protect Colonel MacDonald's interests and I do hope that you will do everything you can to help me in this matter.

You will, of course, understand that I am going entirely on the basis of the information which has been given to me. It may be wrong, but if it is I shall be only too glad to be so informed.

Kind regards and many thanks in advance,

Yours faithfully,

My Dear Sir Arthur:-

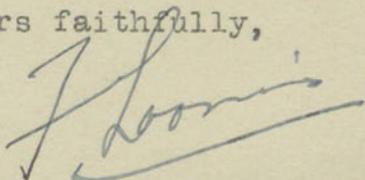

I am enclosing herewith
a telegram which came last week from Bill

Evidently Eric MacDonald
is having a hard fight to secure the
re-appointment of Inspector of Penitentiaries.

I understand that St.
Pierre Hughes is the man who stands in
the way. I am sure a word from you to
the Minister of Justice or to the Minister
of Militia would practically settle the
matter.

I hope you and Lady
Currie have come through the moving period
without bad results. I know what a terrible
time it is and especially for one with so
many calls on his time as you have.

Yours faithfully,

Hon. E. M. MacDonald,
Minister of Militia,
Ottawa, Ont.

My dear Mr. Minister:-

I am writing you this letter on behalf of a namesake of yours, Eric MacDonald, who is probably well known to you. I think Eric is now living at Wolfville, N.S. where his father is a Minister.

I knew him as an officer in the 10th Bn. overseas and you probably know he commanded the Police in connection with the Sydney strike. He had a remarkably fine record as a fighting soldier, - one of the very best in the Canadian Corps. I think he has a couple of bars to his D.S.O. and holds the Military Cross as well. Since returning to Canada he has never secured permanent employment. This may partly be his own fault because when he first returned he had rather large ideas of what he would be able to do. However, I think he has got over any false notions now and it is a shame that we cannot get him satisfactorily placed.

I understand that he is applying for the position of Inspector of Penitentiaries and that he had strong hopes of obtaining it, but something, apparently, has intervened. That is the kind of job I think he would do exceptionally well and I do hope that you will find it in your heart to help in every way you can to secure the position for a very worthy young man, a most gallant soldier and a member of the Clan.

With all good wishes, I am,

Yours faithfully,

December 9th, 1924.

My dear Sir Frederick:-

I have your letter of yesterday

I am to-day writing to Ned
MacDonald, Minister of Militia. I hardly know Lapointe.
I sincerely hope Eric gets finally and satisfactorily
placed.

With all deference I am writing this letter on behalf of a man for whom I have the very highest regard and who has had very great difficulty in getting settled since the war. His name is Lieut.-Colonel Eric MacDonald of Wolfville, N.S., where he resides with his father, the Rev. MacDonald.

I met him during the war. He went across with the 1st contingent and served throughout, winning very great distinction, rising to the command of the 10th Bn. and being awarded the D.S.O. with two bars and the Military Cross. I do not think we had a better fighting soldier in the Canadian Corps. Since returning he has never had any permanent position. You will have heard of him as the officer who commanded the temporary police raised in Nova Scotia at the time of the Sydney riots.

I believe Colonel MacDonald is seeking the position of Inspector of Penitentiaries. From my knowledge of his personal qualifications I believe he would be a good man and I would be glad to recommend him. I do not know whether this is a Civil Service appointment or not. You know my views as to the appointments in that Service being strictly on the merits of the individual and I writing to you to say that I know MacDonald, that

Hon. Ernest Lapointe - 2 -

I have the very highest regard for him, that I fully believe he would fill the position with credit, and to see him permanently settled would be the source of great satisfaction to his friends, of whom he has many.

My dear Sir Arthur,-

I acknowledge receipt of your letter of the 12th instant with regard to Lieut-Col. Eric MacDonald of Wolfville, N.S., who is an applicant for the position of Inspector of Penitentiaries.

I carefully note all that you say on behalf of Colonel MacDonald and can assure you that it will be given every consideration.

Believe me,

Yours sincerely,

OFFICE OF ^{M.}THE MINISTER

OTTAWA 15th December, 1924.

Personal

My dear Sir Arthur:-

Re: Eric MacDonald.

The situation in regard to this matter is this, that the Civil Service Commission have been giving a temporary certificate to a man named Jackson, to perform the duties as Inspector there, this being the position for which MacDonald applied.

At the present moment, it is uncertain whether that time of Jackson has run out, so, until the Civil Service certificates have ceased to have effect, it is not possible for the appointment to be made. I have seen one of the Commissioners today, and he explained the situation to me. Once they have ceased giving temporary certificates, the question will have to be dealt with, and then I hope we will succeed in it.

I may say, however, that MacDonald has written me a very foolish letter, in which he makes certain threats, and I want to say to you confidentially, that never, during my long experience in public life, have I allowed anyone to make any threats to me in regard to public action, more particularly as I was not personally responsible in connection with the matter at all, and was desirous of helping him out. Such foolish letters only injure, and do not help, when one is keen to assist.

Yours faithfully,

My dear Mr. Macdonald:-

Thanks for your personal
letter of the 15th of December re Eric.

I am sorry he has been
foolish enough to write a threatening letter. I
fully agree with you that that sort of thing
always makes one back up. I am like you I can
be coaxed to do a good many things, but I will
not be threatened. Nevertheless, if you can

My dear General:-

Following receipt of your letter re Eric MacDonald I wrote to the Minister of Militia and also to the Minister of Justice, from both of whom I received sympathetic letters in reply. Apparently the matter stands thus:

The Civil Service Commission gave a temporary certificate to a man named Jackson to perform the duties of Inspector of Penitentiaries. This certificate, I am told, has some time to run and nothing can be done until it ceases to have effect.

I may say that I have a second letter from the Minister of Militia this morning in which he confidentially informs me that Eric has made his own chances harder by writing a foolish, threatening letter to the Minister. Threatening letters, of course, get one no where.

With all good wishes for Christmas and the New Year, I am,

My dear Mr. McDonald:-

This will acknowledge the receipt of your and Mr. Burchell's telegram of March 29th. I immediately got in touch with the Prime Minister at Ottawa and have received from him the following wire:

" I have received your telegram of yesterday and have asked the Minister of Soldiers Civil Re-establishment, to whom I have referred its representations for consideration, to wire you in reply."

I have also received from the Hon. Dr. Beland a telegram reading as follows:

"Your telegram to the Prime Minister re Cape Breton referred to me. I had already instructed one of our officials in Nova Scotia to proceed to seat of difficulties and ascertain conditions as regards pensioners, ex-service men who are not pensioners and other miners and report as early as possible."

I most sincerely hope that the Department takes the action you suggest. I am intensely interested in the situation in Cape Breton. All of us most sincerely regret that there ~~is so much~~

I am enclosing herewith a small cheque which I would ask you to turn over to the proper committee. I believe a most thorough investigation by honest and disinterested people is necessary, followed by positive action, to eliminate the cause of trouble. I most sincerely hope that it will not be long before conditions are right.

Dear Sir Arthur:-

May I remind you of our conversation in regard to Ralph Webb. Since leaving the Windsor he has been doing some special work which is now finished. At the present moment he is in Toronto getting treatment for an injury to his leg which he suffered last September. This treatment will continue until after the New Year. After that he will be looking for something to do.

The other evening at the meeting for Sir Henry Thornton it struck me that if Sir Henry was going to carry on along the lines he indicated, he will need on his staff some men of the type of Ralph Webb. However, any position in the Government for a man like Ralph Webb, would be beset with difficulties which I am afraid Sir Henry Thornton will discover before long.

In connection with the foregoing, I thought of suggesting that you write to Sir Henry Thornton, but perhaps you might think better of trying to do something for Ralph Webb in some other direction.

Very sincerely yours,

Dear Sir

I have been requested
through an address to write
you in behalf of my Brother
Robert M. Swaine who is at
present residing in Lethbridge.
He served in the Army during the
War; since his return from
over seas, he has not been in
fit condition to do heavy work.
He has been working in Coal
mines had to give up on
account of one of his ankles.
Troubles him occasionally

I shall be pleased to know
if General Sir Arthur Currie
will advise me. If I shall
bring my Beathes to Montreal,
would there be any possible
chance, for him to secure
work, for a short time, just
to enable him, to get through
the summer, by the end of
the summer, I can manage
to save the rest of his expenses
from Montreal to the North of
Ireland, in the mean time
I can send him money to
defray his expenses from Lethbridge
to Montreal, perhaps he could
secure a room at the Young Men's
Christian Association,

I will also pay his rooms
and board expenses until he gets
work. I think my Brother
will be much better off to go
home to a younger Brother
& sister who make their home
in the north of Ireland. My
Father and Mother did during the
War so we have not got settled
in our own home yet. My sister
will be glad to look after my Brother
Robert when he goes home this summer.

Dear Sir I shall be indeed
grateful for your advice.

Thanking you very much

Dear Miss McIlwaine:-

It is rather difficult to give you the advice asked for in your letter to me of April 7th.

If your brother comes to Montreal I shall do all I can to get him a job. We have in Montreal an organization which helps returned soldiers to find positions and so far we have done fairly well. Of course, I cannot guarantee him work, nor can I guarantee that he will be looked after until he gets work. All I can say is that we will do the best we can for him. If he comes ask him to get in touch with Mr. G. A. Harcourt, 400 LaGauchetiere Street. Mr. Harcourt is the Secretary of the organization mentioned above.

Colonel MacKay had a very fine
record in the Canadian Field Artillery in France
and shewed himself at all times a courageous,

Dear Sir:-

With further reference to your letter of December 19th I beg to say that I have had a reply from the Adjutant General regarding the case of Thomas McLean.

It is his opinion that Mr. McLean's case comes entirely within the jurisdiction of the Department of Soldiers' Civil Re-establishment. Apparently, they regard the disability for which he has been receiving treatment as something which arose after his discharge and not having been caused by his military service. The Adjutant General states that he has taken the case up with the Department of Soldiers Civil Re-establishment and I hope that they have already authorized that Mr. McLean receive an additional six months treatment.

Yours faithfully,

Ottawa, 30th December, 1921.

Dear Sir Arthur,-

With reference to your letter of the 22nd instant regarding the case of Thomas McLean, Little Branch, Northumberland County, N.B., I regret the delay that has occurred in giving you information regarding this case, but, as sixteen men by the name of Thomas McLean served in the C.E.F., some difficulty was experienced in identifying the particular one referred to in the letter which you sent me.

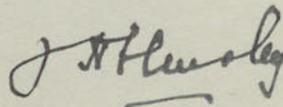

I have now, however, identified the man concerned, and, as a result of my examination of his case, it is quite clear that it is one which comes entirely within the jurisdiction of the Department of Soldiers Civil Re-establishment, as the disability for which he has been receiving treatment arose after his discharge, and is apparently not regarded by the Department of Soldiers Civil Re-establishment as having been caused by his military service.

I will, however, have this case taken up at once with the Department of Soldiers Civil Re-establishment, and will let you know whether that Department will be able to give him further medical treatment.

I return herewith the letters which accompanied your letter under reply.

PENSION.

Sir

1. I have the honour, to inform you that this Commission has given full and careful consideration to the proceedings of the Medical Board which examined you prior to discharge and to the other documents and information on your file.
2. Under the present Pension Regulations a pension or gratuity can only be awarded when there is, as a result of service, a decrease of ability to earn a livelihood in the general labour market. This applies to all men who, though having suffered from wounds accident or disease while on service, have fully recovered, and have been discharged or demobilized.
3. The documents in your case show that the condition was incurred post discharge.
4. It is therefore impossible under the Pension Regulations to award pension in your case

Dear Sir Arthur :-

With reference to your letter of the 22nd Dec. 1921, regarding the case of Thomas McLean, Little Branch, Northumberland County, N.B.

This case was taken up with the Dept. S.C.R. as referred to in my letter to you dated 30th Dec. last, and reply has now been received to the effect that the circumstances in connection with the case of the soldier referred to will be again investigated with a view to seeing that he is justly treated.

It is further stated that although it would be contrary to the routine of the Dept. S.C.R. to take this man on the strength during a period of 6 months rest, the matter is being presented to the Board of Pension Commissioners for their consideration.

I will follow the case up and ask the Dept. S.C.R. in the course of a few days for further advice on this matter and will then again write to you.

ADDRESS REPLY TO
THE SECRETARY, MILITIA COUNCIL
HEADQUARTERS,
OTTAWA, CANADA.

AND QUOTE NO. 649-M-55786.

DEPARTMENT OF MILITIA AND DEFENCE

OTTAWA, 22nd March, 1922.

Dear Sir Arthur:-

With further reference to your letter of the 22nd December last, and my reply thereto of the 1st February, 1922, regarding the case of Thomas McLean, Little Branch, Northumberland County, N.B., full details of this man's case were presented to the Department of Soldiers' Civil Re-Establishment in an endeavour to obtain further evidence, in view of the circumstances of the case as presented by you.

The Department of Soldiers' Civil Re-Establishment replied to the effect that although the man was recommended for six months' rest, after he had received treatment, it would not be possible for that Department to carry him on strength during such period of rest, but that in such cases, the full details of the man's case should be presented to the Board of Pension Commissioners to determine whether he should receive a disability pension.

The case of Thomas McLean was represented by the D.S.C.R. to the Board of Pension Commissioners, and advice has now been received from the Board to the following effect:

"Thos. McLean's service was entirely without incident of a medical nature. He enlisted in May, 1918 and was discharged in July, 1919, spending approximately one year of that time in England. He had a fistula in ano operated on in March, 1920 and a slight hemorrhage during July 1920.

The Medical Advisers to the Board of Pension Commissioners expressed the opinion that this man's service was not a factor in causing his disability, and the Board is, therefore, unable under the provisions of the statute, to make an award of pension."

It appears that the utmost has been done to consider this man's case, and it is regretted that it does not seem possible to do anything further to assist him, as the D.S.C.R. have rendered him treatment as far as possible, and the Pension Commissioners will not accept his disability as owing to C.E.F. service for the purpose of pension.

Yours sincerely,

My dear Mr. Beatty:-

During your short visit South a week or so ago I had a call from one, W. H. McMurray, a copy of whose record of service with the Canadian Pacific Railway I enclose.

Let me say that I knew this young man all through the war and a splendid officer he was. He served throughout with the Engineers and the Signalling Department. He possessed all those qualities which go to make up a conscientious, loyal, hardworking and efficient officer. I believe it is worth any Company's while to have a chap like McMurray on their staff. His ambition seems to be to find permanent association with the Canadian Pacific Railway. I hope it may be possible for him to find himself in that position soon. Certainly I most cordially recommend him.

Further our conversation of this morning.

I attach copy of my Canadian Pacific "Certificate of Service" for your information. You will observe that I was only able to hold employment for 4 months during 1925, due to staff reduction on completion of work.

As explained to you verbally, ever since my return from Overseas my ambition has been to get into one of the Departments of the Company affording more steady employment & better prospects for promotion. In 1919, by interview & letter, I took this up with Mr W. A. James, Asst. Chief Engineer, Winnipeg. Mr James

Mr. James gave me letter of recommendation & "Certificate of Service" for presentation to Mr. Stockhill, Asst. to the Vice-President, Winnipeg. After 4 weeks Mr Stockhill advised being unable to place me, & Mr James stated that he could promise nothing before Spring of 1926. I am now on my way back to report to Mr James in the hope of getting under way again, but above all things I would like an opportunity to make good in another Department & it was for this reason I sought your aid in seeing Mr Beatty.

In 1919, when permanent force of Canada was being re-organized, I refused to entertain offer of commission in Signals preferring to stick by

The Canadian Pacific - this still remains my ambition, despite my unemployment of last year also my failure to get permanently placed last fall.

Anything you can do to help me will be appreciated to the full, + I can assure you that I'll not fall down on any position that your good offices might pave the way to.

Dear General Currie:-

Very many thanks for your letter to me at Winnipeg, & I wish to express to you my deepest thanks for your interest in my case, & I feel sure of a square deal from President Beatty as result of your kindly interest.

They say here that on Apr 6th I was sent from Winnipeg on a preliminary survey for C. P. R. from Francis, Sask., to Virden, Man. This was completed on 26th ult., & party returned to Wpg, but sent out again to survey Tyvan, Sask., to Oak Lake, Man., on which work we are presently engaged. Ere leaving Winnipeg, Monday last, I was officially informed that soon as present survey is completed I am to be taken before Vice-Pres. Coleman, Winnipeg-

no doubt in connection with your interview with Mr Beatty re my case, & I am keenly interested in seeing Mr Coleman & placing full facts before him.

This is the first time in my career that I've ever called upon anyone to assist me in the way you have - it seems so hard to have to do so after over 15 years of honorable connection with Canada's greatest corporation, but you see how difficult it is when I am only handed a 6 weeks job after all these years - 6 weeks of pioneering such as I loved in pre-war days, but find impossible now that I am getting on in life, married - but unable to settle down - & the future so dismal as far as C.P.R. is concerned without this generous aid from you.

Please pardon me for "falling back upon the reserves" - your good self in this case, & accept my best thanks for your splendid response: a response that I never shall forget, & fully in line with your generous treatment of me overseas.

With kindest regards: Yours very truly

Dear Mr. McMurray:-

of March.

I have your letter of the 29th

Let me say that I have taken up your case with Mr. Beatty, who promised to look into the matter. This occurred only a few days ago because he was in the South for a week or so and since returning to Montreal has been more or less confined to his house suffering from a cold. I said what I could in your behalf and hope they will soon take you on again.

Yours faithfully,

Dear General Currie,

With further reference our conversation of Monday
last in Montreal.

I duly reported back to Engineering Department,
C.P.R., Winnipeg, last Friday. Did not see Chief Engineer until
today, when Mr. James advised me that there "is nothing in sight
for you at the present time". So after my lengthy service with
the Canadian Pacific, and on top of the seven months lay-off
which I've already had, I am facing still more idleness.

At this time I would doubly appreciate what you can
do for me with Messrs. Beatty or Grant Hall, and I very much
regret that I was unable to see either of these gentlemen
personally and through your good offices last week.

Have heard a rumor to effect that there is about
to be a change made in the C.P.R. here, whereby the present Chief
Clerk to Assistant Chief Engineer gets a promotion. Have not
been able to confirm this rumor so can't make any direct move
towards applying for the position which is being vacated, and
which I am fully qualified to fill, same being in my own Dept.
as you will note from copy of my record which I left with you
last week. Anything you can possibly do for me to get me a chance
to fill this or any other permanent job with the Canadian Pacific
will be appreciated to fullest extent, and I ~~will~~ will ensure
that you will have no cause to regret giving me the required
boost that so obviously is now needed.

Thanking you very much for your interest, believe me,

Yours very truly,

W. H. Murray

Dear Sir,

I intend writing on an
Examination shortly, set by the
Civil Service Commission, for a
position as Junior Grade Com-
missioner and, as it is ne-
cessary that I have three
letters of recommendation, I

am taking the liberty of asking you if it would be possible for you to give me one.

My name is Macpherson and it was I who had an interview with you on the 25th of May last about entering McGill University with a Matriculation. If you will remember the interview was arranged by Major O'Connor.

and this morning he suggested
to me that I write to you ask-
ing for a letter of recommendation.

Hoping that you may
see your way clear to grant
me this request,

I am Sir,

Dear Willis:-

I have a letter from Mr. C.S. Macpherson asking me to give him a letter of recommendation to the Civil Service Commission to whom he is applying for a position, as a Junior Trade Commissioner.

I do not know anything about this boy other than that he applied to me to enter McGill University without his having passed the matriculation examination. He tells me that you told him to write to me. I wish you wouldn't recommend these fellows to write to me, Willis, because, while I would like to help Macpherson, I do not know what I can say about him and I certainly am not going to recommend a man for a position unless I have some feeling that he can fill the job. What do you know about him?

Dear Sir:-

I have received a request from Mr. C. S. Macpherson of Ottawa to support his application for a position as Junior Trade Commissioner.

All I know about Macpherson is that he is very highly regarded by his associates as a young man of promise, whose efforts are always characterized by earnestness, energy and goodwill. He enlisted in 1914 at the age of 17 and served forty-three months in France with the Divisional Supply Column. His service covered the whole period of the War. Previous to his enlistment he had ten months experience in Surveying in Alberta and five months experience with the firm of Bate & McMahon, Contractors of Ottawa. He also claims to have a general knowledge of the Aluminium Industry. He is at present employed with the National Drug & Chemical Company in Ottawa and has been with that firm for some time.

Dear Sir

I hope you will forgive the liberty I am taking in writing to you. I only wanted to inquire if there is going to be anything done for the soldiers families this winter like the great soldier Sir Douglas Haig you have the soldiers welfare at heart and although always very busy you never lose interest in your men. There are rumours of helping the men but as they are very vague I thought if anyone you would know what's being done. My husband late of the 49th Calgary Rifles has been out of work since July. He is disabled in the left arm but it doesn't keep him from making an honest days work. I have sold everything I possess. Can anyone enough interested can investigate & find what I say is correct. We have asked so much of the Government. It seems too bad the situation is no better. Please Sir do not regard this as a begging letter only one of inquiry.

I hope as a Soldier, Scholar & a Gentleman you will have time to answer this also hoping Sir Ladyship & yourself are well I am dear Sir

Dear General Currie,

I wonder if you will remember me, an old member of the 50th Gunners who went overseas with you in 1914. I was then Sergeant P. Mathison & on your recommendation I was given a commission in the Imperial Force, and after many varied experiences I retired a year ago from the British Army, with the rank of Major in the Regular Army Reserve of Officers. (I was given a regular commission in 1916 in the Kings Own Yorkshire L. I.) I am now recelling myself to you merely as I have taken the liberty of giving your name as

a reference in my application for a position with the Forestry Service which I sincerely trust you will pardon, & should you receive any enquiries from the Forestry Department about me, I should be more than grateful if you would reply to same on my behalf.

I will not presume to give you an outline of my military career since 1914 but honestly feel that your kind recommendation in the past has been justified by my record of service.

I have returned to Canada & have invested a certain amount of capital, but returns are not likely to materialise speedily enough to enable me to carry on without employment of some kind, hence my reason for applying for a post in the Forestry Service.

Trusting you will remember me & pardon the use I have made of your name.

I beg to remain,

yours very truly

My dear Major Mathisen:-

Thank you very much for your letter of the 25th of March and for the very interesting account you give of your service in the war and since. You have indeed had a varied career and I congratulate you upon it.

With reference to the possibility of your getting an appointment on the Militia Staff as Adjutant, I am afraid I cannot offer you very much encouragement. The tendency under the King Government is to reduce the staff rather than to add to it. You may have noted that this year's estimates call for an appreciable reduction in the amount set aside for the use of the Department of Defence. I have no doubt your experience would be very valuable, but I would not set any hope on such an appointment.

I hope the venture in foxes will turn out very well. It is surprising how that industry has been taken up in recent years.

25. 3. 1926.

Dear Sir Arthur Currie.

I am in receipt of your kind letter of 13th inst. & must thank you for acceding to my request.

It is very kind of you to express a wish to hear more of my military career & as I have been fortunate enough to have a most varied & interesting experience during my army life it gives me much pleasure to tell you about it.

After leaving the 16th Bn. I was posted to the 10th Ser. Bn. Yorkshire Regt. as a Temp. Lieut. & on reporting to my new C.O. for duty was given charge of the M.G. section with a free hand to organise & train it.

I very soon had a really good section & before going overseas was complimented by the Div. Gen on the discipline & smartness we had worked up to.

Shortly after arriving in France I was made

Bde. M. G. Officer with rank of Temp./Capt. & later became Staff Capt.

On the formation of the Machine Gun Corps I was transferred from the Yorkshire Regt. & formed & trained one of the new M. G. Corps units & in July 1916 was promoted Temp./Major & O.C. 121 M. G. Coy.

After the Somme in 1916 I was given a regular commission in the British Army with the rank of Captain in the Kings Own Yorkshire L. I. & seconded for service with the M. G. C. as Temp./Major.

After the Cambria show in 1917 I was sent home for a rest & took over No. 5 Res. Training Bn. at the M. G. C. Centre Grantham, England. I was promoted Acting/Lt. Col.

I returned to France for the Big Push in 1918 reverting to my rank of L./Major & was posted to a M. G. Bn. as 2nd in command & was 2-ye until I returned to England in Jan. 1919.

I went into Germany with my Bn. & came home for a course at the Senior Officers School, Aldershot.

In July 1919 I organised & commanded the

19th U. S. Regt. Russia, this Regt. was disbanded on
return to England in Oct 1919.

In Oct. 1919 I went to India with the XI B. U. S. E.
& on the disbandment of the U. S. Corps in 1921 I returned
home & joined my Regt in Ireland.

After the Irish Revolt was settled I returned to
England in Jan'y 1922 with the regiment and in March
1922 we sailed for India.

On arrival in India I was selected for special
duty, & sent to work, & later on was assigned to the
Staff. In 1923 I was sent to Lahore on special
duty, to revise & rewrite a Military Report on Railways,
which took me almost a year as I had to go over
all the Regs. in the Punjab, inspecting all bridges,
technical features, etc., a most interesting job, & everybody
was so kind, I had a special salute for my work
on the Regs. was my own bus & ran my own show & the
powers that be were very kind & complimentary to me on
the work I did on the Military Report.

After this job was finished I decided to retire from
the army, as there were absolutely no prospects for
promotion in my Regt. we had 3 Lt. Col's, 4 Majors & 9

was senior Capt. but there were no less than 15 Capts ahead of me in the Regt. list, none of these officers were serving with the Regt but were all pre-war Capts. employed on various staff jobs, one never saw them but could never pass them & get promotion, & also expenses were very high & it was most difficult to live on ones pay as a Capt. so I retired voluntarily in Nov 1924 & was given the rank of permanent Major in my own Regt. with seniority of 16 Dec 1919 & am now Major in the Regular Army Res. of Officers.

During the war I got the Military Cross & was four times mentioned in Despatches.

While in Ireland I was detached for special duty with the Intelligence Dept. & had charge of the Censor Office at Ballykinlar Internment Camp.

For my work on Courts-martials in India I got a special letter of thanks from the G.O.C. in C.

Last but not least, I got married during the war my wife being related to Sir Wm Birdwood, who is at present Commander in Chief, India

On my return to Canada I decided to go in for Silver Foxes, purchased my present place & have

now got 4 mated pairs which I hope will bring me a large increase in stock within the next month or two.

Expenses have been very high & I find that it will be necessary for me to get some kind of employment to help me over the next year or two, hence my reason for applying to the Forestry, but from all accounts, I fear that it will be no easy matter to get a position as everything seems to be filled there are very few openings.

Do you think there would be any possible chance for me to get an appointment on the Militia Staff as an Adjutant or some similar position, I would much value your views on this matter - it appears to me that the experience I have gained during the last 10 years, in addition to that which I had before & the fact that I am a regular British officer should prove an undoubted recommendation for work of this nature.

I trust I have not encroached on your time & good nature to severely by this lengthy letter & reciprocating your good wishes, I am,
yours faithfully
P. Mathisen

J. S. MATTHEWS & SON

VANCOUVER, B. C.

Nov. 20th 1927.

Dear General Currie:-

I have delayed answering your kind letter of Oct 12th until I could hear from Col. Warden in Chicago. Finally, as he did not answer I wired him, and this morning comes his answer which reads in part
" Sincere apologies. Have been ill with flu, now o.k. again, hope return Canada soon, awful hard times here".

You ask what John Warden can do. After the Boer War he was in the South African Constabulary, then coming west as a young man he sold pianos, then turned to real estate with a good measure of success, became alderman in West Vancouver. He is an able talker, makes a good speech, but has not the advantage of higher education. He has been covering many of the states of our neighbor republic promoting the use of shingles by endeavoring to prevent state legislatures, underwriters, and metallic shingle manufacturers, anxious to promote their own interests, from passing ordinances, etc., partially or wholly prohibiting the use of B.C. shingles. I am told he succeeded eminently, but subscriptions from manufacturers here diminished, and his position fell from under him.

I had an opportunity the other morning to talk to Dr Tolmie about him, and after listening Dr Tolmie's reply was that it was a "dam shame to leave a man like that to rot down there". John is very much at outs with the Liberal party (and Gen. Odium) on account of his running in the conservative interest in the elections of 1921. Bowser got "last man in", Warden "first man out". In addition to his wife, he has three daughters, "young ladies", You can imagine what it has cost to support four women. When he rushed away in Aug. 1914 he appointed the Dominion Trust to administer his private affairs, and of course you will know all about that concern.

It was delightful to gather the "boys" of the 102nd together again on Oct 21st on the anniversary of Regina Trench. It was our tenth smoker. There were 150 present, and I read part of your letter. It was received with cheers.

Under separate cover I am sending you an account of the unveiling of our tablet by a private soldier of the battalion. Christ Church was too small, for the garrison of Vancouver alone nearly filled it, and then

J. S. MATTHEWS & SON

VANCOUVER, B. C.

2

there were 250 widows, orphans, etc grouped in front of the tablet. The memorial is about the size of a man, and the beautiful thing about it all is that when I issued the appeal for funds, the sum necessary, \$600, came to me as from the clouds, without one word of solicitation, and from the men, widows, mothers, and children of the 102nd only, and from no one else. Finally I had to issue a warning that no more was wanted.

It was an inspiring occasion. As the organ pealed the plaintive strains of our regimental march, the clergy left the choir, and followed by the ex-officers of the 102nd, repaired to the tablet; where Capt Colwell, our old chaplain, dedicated it as a token of our gratitude to God for victory, and deliverance out of the hands of our aggressors, to express our affection for our fallen, and to inspire patriotic service and sacrifice in those who may worship there for all time to come. Then, as the procession slowly returned, the choir chanted "O valiant hearts, who to your glory came". It was one of the most beautiful ceremonies I have ever attended.

The words on the tablet are mine. The twenty battle honors we concealed, for modesty's sake, in the marginal moulding where they record the historical facts without offending the most tender emotions. During the three days it was displayed in Birks windows, a small crowd viewed it night and day.

I have been doing, and shall continue, to do all I can to get John Warden comfortable. He would make a good man for the immigration service in England, but he is reaching the time of life when the fireside in the evening will be very dear to him. I enclose you a copy of a letter I have this day written. Please read the two last paragraphs.

Thank you for your message to the men of the 102nd.

Sincerely,

J. S. Matthews

P.S. John Warden's deeds since the war would make you even more proud of him as a man and a countryman, though they bring little credit to a people who permitted him to accomplish them. Beneath his rugged exterior there lies a great yet simple heart.

J.S.M.

Nov 20th 1927.

Dear Col. Whyte:-

It is a pleasure to comply with your request that I should recount Col. Warden's career as recollected by me. I fear that little as I know, and even stated with much brevity, it will still be lengthy.

He is a Canadian born in New Brunswick, the son of a farmer of large family, and must have been quite young when he volunteered for service in the Boer War, for which he has both King's and Queen's medals with several engagement bars. At the conclusion of that war he became a citizen-soldier, a private in the old 6th Duke of Connaught's Own here, and attracted notice so that he was chosen as one of Canada's representative soldiers at the coronation of H.M. The King. His prowess at Bisley with the rifle added fame both to his regiment and to our city of Vancouver. Col. McHarg thought so much of him that he offered him a commission, and as an officer he served in aid of civil power at the Nanaimo strike. Later he was a councilor in West Vancouver. He is stated to have telegraphed the offer of his service to the Minister of Militia on July 29th 1914, and so is reputed to be the first officer in Canada volunteering for the Great War. Col. McHarg placed him in command of one of the companies of the famous 7th, and as such he passed through the celebrated gas attack of April, 15 and defence of the channel ports in those dark hours of the war. His arm was partially torn off by gun fire, was ordered amputated, but subsequently saved, and upon recovery he refused safety first appointments, but, instead, hurried back to Canada for more men, and Gen. Hughes requested him to raise a battalion. The 102nd resulted.

This battalion, through Col. Warden's effort, was landed on the soil of France at lesser cost, and in shorter time, than any other Canadian battalion I know of save those of the First Division. He accomplished the remarkable feat of recruiting, organising, training, 1100 men, and placing them in the front line in a little over seven months after Gen. Hughes's request. As the cost of raising a battalion was approximately \$100,000 per month some idea of the immense financial saving to Canada effected by his vigor can be judged when you recall that some units took twice or treble the time before reaching French territory. The war history of the Dominion must ever record him as the commanding officer of one of her fighting battalions at the historic engagements of

Regina Trench, Vimy, Passchendaele. Afterwards Sir William Robertson, who succeeded Lord Kitchener, selected him as second-in-command of the celebrated "Hush-hush" force of 25,000 men. I think, at first, it was to ascertain the fate of the Czar that he was sent to Siberia, and subsequently he commanded a great training school for Russian officers in connection with the Canadian Siberian Force. In this he was eminently successful.

He has twice been to Buckingham Palace to receive for his services a bestowal of a mark of His Majesty's especial favor. He wears upon his breast more medals for service than any B.C. officer, save one, and further, he has the esteem and affection of those who served under him.

My understanding is that in the rush to get away in August 1914 he placed his private affairs in the hands of the Dominion Trust, with the result that when the war terminated he found himself in straightened circumstances, and his endeavors to retrieve his misfortunes have finally culminated so that today he is in a foreign land, and his pecuniary position is such that his friends are justified in enquiring into his personal affairs. Provision for, and education of three young ladies, his daughters, have added to his burden.

It seems to me that it is scornful that this gallant officer, who has spent most of his life in the service of our country, who has never failed to rush to her assistance in the hour of her greatest distress, who has suffered bodily and financially in consequence, whose name as commander of one of B.C.'s seven infantry battalions which fought in the great battles of the war, must ever be an honored one in Canada, upon whom His Majesty has three times conferred tokens of his gratitude, should now be forgotten, deserted, and left to rot on the streets of a foreign city. Misjudgment may be, but misconduct certainly is not the cause of his absence from his home and his friends.

We shall all thank you for any assistance to the end that we shall once again have him in our midst in this land which is proud of him and his achievements.

Yours sincerely,

M. H. - 951

My dear General:-

I am this morning in receipt of a letter from Major J. D. Morison asking me to put in a good word in support of an application he has made for a position in the R.C.A.S.C.

I remember Morison as Supply Officer to my old Brigade. He is not a bad sort of a fellow but I should think his Record of Service and the confidential reports would be the best guide as to his ability and stability. Colonel Greer, of course, and Buster Brown will know him very well.

With all good wishes, I am,

Yours faithfully,

My dear Major:-

I am this morning in receipt of
your letter of the 10th of June.

Certainly I remember you very well
as the Supply Officer of the old 2nd Brigade. I shall
be very glad to write a letter on your behalf to the
authorities at Ottawa. I sincerely trust you will soon
be congenially placed.

With all good wishes, I am,

Yours faithfully,

Dear General:-

You will probably remember me as your old
Brigade Supply Officer, and I would like you to interest
yourself in my case, if you can spare the time.

Last year I sent in my application for a
Commission in the Permanent Force, which was acknowledged.

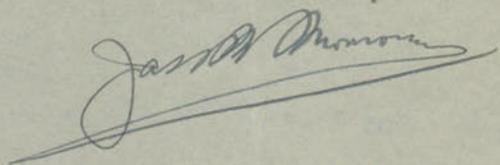

Major Hennessey told me that there are
vacancies in the R.C.A.S.C., and he worked on my case when
in Ottawa, and told me that my name was to be considered.
"Euster" Brown also put in a good word. The present
D.D.S. & T. is Colonel Greer, who was our original Adjutant
and would be in favour of my appointment if there is a va-
cancy.

Perhaps you could put in a good word in the
proper quarter. It might help in my case to mention that
I have just been notified that I have passed the Militia
Staff Course 1924-25.

I would feel very much obliged if you could
find time to help my case along.

Yours very sincerely,

Major J. B. Morison,

Dear Mr. Morrison:-

With reference to the advice you sought regarding entrance to literary work I am afraid there isn't much that I can do other than to suggest that you get in touch with men like Colonel Maclean of Maclean's Magazine, Stuart Lyon of the Globe, Mr. Atkinson of the Star or Mr. McGillicuddy of the Star. I know that Mr. McGillicuddy does much writing for magazines.

I could give you a letter of introduction to each of them if you thought that would be of any use. I couldn't make it in the nature of a recommendation as to your literary ability because of that I know nothing. I could simply say that you were a young man whom I knew, one of good character, sound education and earnest purpose.

I am sure I wish you every success, but would also suggest to you not to forget the old injunction 'never to give up the substance for the shadow'.

I am enclosing a brief note to Mr. McGillicuddy.

.Yours faithfully,

Dear Mr. McGillicuddy:-

This letter will serve as an introduction to Mr. Lancelot B. Morrison who wishes to discuss with you just how a young man can best enter the literary profession.

I knew his father who was an old and dear friend of mine and he himself served with credit and distinction in the war. I have told him that you have had a long and varied experience and that your advice would be worth listening to.

With kindest wishes,

Yours faithfully,

Sir A. W. Currie,
McGill University,
Montreal, Que

Sir, -

I have contemplated writing you for some time, to ask for some advice, and if possible a letter of introduction or recommendation in connection with the following.

For a number of years I have longed to be able to enter the literary field, either newspapers, magazine or the commercial advertising branches, and I might say that this work holds a great deal of interest and fascination for me.

My father and I had many times talked it over but as things in the business world seemed more or less in a state of chaos, I let the thought lie dormant.

The position I now hold, that of a clerk in the accounting department of the Imperial Oil Limited, Toronto, I feel does not offer the chances for advancement that I would wish, as the work is of a

purely sedentary character and simply routine. When I returned from overseas, I was rather unsettled as to what I should enter and accepted this position until something should open for which I felt a "call".

I feel sure that the literary field, is one large enough, to permit a young man of my age to properly get a foothold, and exert a talent, with which I am convinced God has blessed me, so that "profit and pleasure may be the result."

With this thought in mind, I am writing you, Sir, trusting that you may with your wide knowledge of the business and commercial world, be able to recommend me to some one with whom you are acquainted, who is connected or engaged in this line of work, and also that a letter of introduction might be given me.

For the past week, I have been in Sarvia in connection with the closing up of the estate of my beloved father, who passed away on Saturday evening, Aug. 9th, following a six weeks' illness from Typhoid fever.

The end came very suddenly and too
 proven a "terrible shock" to all the family.

With the hope that I have not written
 you too lengthy a letter to become wearisome,
 and also trusting that you may feel your
 way clear to comply with my request
 I will close.

Kindest regards to Lady Currie, your family
 and yourself.

I have the honor to remain, Sir,

Respectfully yours

My dear General Curry.

May I recall myself to your memory, - Munro of the 8th Battn. and the days at Valcartier- West Down South- and that memorable Monday morning when we marched out of St Jean on the right of the thin karki line of the 2nd Brigade in support of the British front.

I am applying for the appointment of Chief Warden at Stoney Mountain Penitentiary in Manitoba and have taking the liberty of using your name for reference in my application to the Civil Service Commission. You know my abilities as to organization and discipline which you were once good enough to acknowledge in a letter to me; would it be asking too much of you to drop a line to Brig. Gen W St. Pierre Hughes, the Superintendant of Penitentiaries, and to his Chief the Minister of Justice?, I have had some trouble in getting re-established since my return and I feel that an appointment of this kind would suit me very well and that I would make a success at this kind of work.

Wishing you every success and honour in your new work as Head of the McGill College, believe me, Sir

Yours Sincerely,

My dear Sir Arthur,

I have your letter of the 4th instant, in which you recommend Lieut. Col. W.A. Munro, D.S.O. for appointment as Warden at Stony Mountain Penitentiary. I am not aware that the position is as yet vacant. Should a vacancy occur, the appointment will be in the hands of the Civil Service Commission, to whom Colonel Munro should then make application. I shall, in that event, transmit your recommendation to the Commission.

Dear Mr. Doherty:-

I am this morning in receipt of a letter from Lieut.-Col. W. A. Munro, D.S.O., 282 Broadway Ave., Winnipeg, stating that he is applying for the appointment of Chief Warden at the Stony Mountain penitentiary in Manitoba, and that he has given my name as a reference in his application to the Civil Service Commission.

I desire to say that I first met Colonel Munro when the First Division assembled at Valcartier. He was at that time second in command of the 8th Battalion and for a time commanded it in the field. Later on in the War he was in charge of what we call a "Works Battalion". It is a pleasure to me to testify as to his great ability in matters of organization and discipline. He gives all his time and attention to his work, is conscientious and trustworthy, and, I believe, would make a most acceptable man for the position for which he applied.

He tells me that he has had some difficulty in getting re-established since his return to Canada. I sincerely hope that the Civil Service Commission will accept his application.

Dear Sir Arthur Currie:

In accordance with your kind permission, I enclose for your information two recommendations of Mr. A. A. Murray from his Battalion Officers, and also a copy of a letter written by him recently to the Officer in charge of Vocational Training here, which gives full particulars about his case.

Mr. Murray wrote this latter letter on the advice of Major A. H. Pirie, who presented him personally to that Officer. As I explained to you by telephone, Dr. Pirie advised me yesterday to apply to you, saying that he believed the only way in which the situation in regard to the age limit could be met would be by a letter from yourself to Ottawa stating that under the particular circumstances you thought this case deserved special consideration and asking that an exception be made in his favour and his application for Vocational training be considered. I will be very grateful indeed if you can obtain the desired favour for me.

I would add to Mr. Murray's own statement the following details from my personal knowledge.

(1) Had he not enlisted when he did it was his family's intention that he should complete his fourth year of High School and then proceed to Cornell University.

(2) He was discharged "medically unfit", without a pension, and he is now disabled at times as a result of the wound in his knee, which swells up and temporarily incapacitates him, and his general condition is also much below par, apparently also as a result of his overseas service.

(3) During the past four weeks while he has been engaged in temporary work in the War Museum, under my direction, I have found him capable, reliable, intelligent and conscientious in all he undertakes; with Vocational Training he would be a very valuable man.

-2-

Under these circumstances, and in view of the facts stated in his own letter, and that it does not seem possible to obtain after the present lapse of time, a pension which would secure for him the advantages of a Vocational Training and other privileges, it seems peculiarly hard that a man carrying domestic responsibilities, and who has been through the brunt of the engagements and shown himself in every way worthy, should receive absolutely no recognition by the Government he has served, either for his disabilities or for his interrupted primary education. It is on this account that I have ventured to trouble you, hoping that you will yourself consider it an exceptional case which should be met by those in authority.

Again thanking you very much for promising to do what you can for him and hoping you will please excuse me for troubling you about it,

Very sincerely yours,

Dear Sirs:-

I am enclosing herewith a copy of a letter which No. 419098 ex-Pte. A.A.Murray addressed to the Officer i/c of Vocational Training, S.C.R., Montreal, on the 11th of this month.

I promised to bring this application to your consideration. It is true that Murray was 18 years and 8 months old when he enlisted, but he interrupted his studies for that purpose. He was wounded twice and was discharged medically unfit at Kingston in August, 1919, and received no pension. He has been working for the past four weeks in a temporary job which we gave him at the McGill Medical Museum.

I know that as a result of an old wound his knee swells up temporarily incapacitates him. His general condition is much below par. He has been out of work for a long time now and he is married. He bears the most excellent testimonials from former officers of the regiment that they have found him capable, reliable, intelligent and conscientious. I believe that he is a man to whom vocational training would do an immense amount of good.

Dear Sir:-

I have the honour to acknowledge receipt of your letter of February 20th., regarding an application made by ex-Pte. A. A. Murray, #419098, for Vocational Training.

From the information available, it would appear very doubtful whether Mr. Murray could be considered eligible for training under the regulations laid down for this Department, as training can only be granted when a man has a disability due to service which prevents him from returning to his pre-war occupation, or, in those cases where a man enlisted under the military age of eighteen and his pre-war training or education suffered a severe interruption due to his war service.

The information on file would indicate that Mr. Murray has no disability due to service as he has not been awarded a pension, and he was over the age of eighteen on enlistment.

I am requesting Captain G. H. Boyd, our Unit Director of Administration, Montreal, to get in touch with Mr. Murray and arrange for a medical examination for the purpose of establishing definitely whether he has any pensionable disability due to service which might entitle him to training. I shall be very pleased to advise

Dear Sir, —

You will doubtless remember the two conversations that you had with my husband and the manner in which you enabled him to start with the Fuller Brush Company.

My husband has not been at all well during the last week and while he is making quite a success of the work things have hardly started to come our way yet owing to the fact that quite a number of his orders are from May 15th onwards.

In the meantime we have to continue the distribution of samples at every house which means an outlay of \$2.00 per day.

My husband has, therefore, asked me to write to you and ask whether you would be kind

enough to make him a further advance of ^{\$}15.00
which will enable him to carry on until he is
making a reasonable amount of deliveries.

If you will be kind enough to do this you
may rest assured that within a week or two we
will commence to repay you the money which
you have advanced.

As a proof that Mr. Newland is putting
his heart and soul into the work he has
asked me to enclose a cutting from one of the

he is the only Canadian salesman mentioned.

DEMONSTRATION THAT WON FIRST PRIZE

(C. G. Lindquist)

This is the Fuller Correct Shape Tooth Brush, Mrs. W, which has won the highest commendation of many leading dentists throughout the country.

The proper care of the teeth is of utmost importance, isn't it? (Yes.)

Notice the construction of this brush. Each tuft of bristle is of the highest quality obtainable, and is wire gripped in the handle preventing the much dreaded shedding of bristle. The tufts are set far enough apart so that tooth paste or powder does not accumulate. This enables you to have a clean brush at all times.

The bristles are wedge-shape, you will notice, to clean between and around each tooth properly. Bristles at the end of the brush are shorter because the space between the back teeth and inside of the cheek is naturally smaller. This cleans the molars properly, preventing decay.

Look how the handle bends inward so that you can reach all your teeth easily, both front and back without stretching the corners of your mouth. A good brush means healthy teeth.

Unlike the tooth brushes sold in stores, which are handled by many people, each Fuller Correct Shape Tooth Brush (with a hook ready to hang up), comes to you in its own box fresh and clean from the factory. Isn't it a fine brush? (Yes.)

How many are there in your family, Mrs. W. (Four.) Will two each be enough? You will need a fresh one for vacation time you know.

FUTURE CONTESTS

Watch the following issue of the World for announcement about the next contest. C'mon you fellows from Eastern, Central and Canada, plan to cop the prizes. One of the men who won the five berries as first prize wrote to the World saying, "I've bought a dandy new hat—am going to save up for a suit now." Your chances are just as good as the other fellow's.

My dear Dr. Roche:-

I am today in receipt of a letter from one J. P. Nuttall, 143 Elliott Row, St. John, N.B., who informs me that he is applying for the position of Caretaker of Artillery Stores in the Armouries at St. John.

He states that when he applied about a month ago he was recommended by Colonel N.P. Macleod, M.C., and also by the G.O.C. of the district, Col. W.B. Anderson, D.S.O. The position, I believe, is one which comes under your Department and Nuttall has asked if he may use my name as a reference. This I most willingly give because I remember this non-commissioner officer very well indeed. He was the Regimental Sergt.-Major of the old 10th Battalion, one of the best fighting units in the Corps. Nuttall was a most gallant soldier and I believe from a personal standpoint would give every satisfaction. He really was a most splendid soldier, winning the D.C.M. and Bar, and I hope that something can be done for him.

He tells me he has a wife and two children and while work has been fairly steady he would like to get a permanent position.

My dear Sir Arthur,-

I have yours of the 6th instant, on behalf of Mr. J. P. Nuttall, who you state is applying for the position of Caretaker of Artillery Stores in the Armouries at St. John.

On January 29th the Assistant Deputy Minister of National Defence advised the Commission that Mr. J. C. Edwards, Caretaker of the Armoury at St. John, was ill, and as it was not expected that he would be able to resume work for two months, asked that Mr. E. Bingham, returned soldier, be appointed temporarily for that period.

On February 17th the Department of National Defence advised the Commission that Mr. Edwards had died, and requested the Commission to make an appointment to the position. On February 21st the Department was therefore notified to interview Messrs. Geo. A. Wiley, returned soldier, and Wm. R. Powell to see if either of these men would be suitable for the position, both having been successful in a competition for Caretaker at St. John.

Should the Department send in an adverse report regarding the two men above mentioned, the position of Caretaker at the St. John Armoury will be locally advertised, when Mr. Nuttall will have an opportunity of applying, and I can assure you that every consideration will be given his application both by the Department and the Commission before making the appointment.

My dear Nuttall:-

I am in receipt this morning
of the attached letter from the Hon. Dr. Roche,
Chairman Civil Service Commission.

It would seem as if there
were not much chance for you until Wiley and
Powell are out of the way. If I were you I would
put in my application at once and take the
necessary Civil Service test, so that you would
always be ready if a call came.

My dear O'Leary,

I suppose the sort of letter which I
am enclosing comes to you about as often as it does
here, but it occurs to me that you might be able to get
in touch with some one of the 46th Battalion, who will
interest himself in this case.

I see by the Listening Post and other
similar journals that you are running almost anything in
Saskatoon, so I presume that this rather sketchy address
will reach you finally.

Are you coming East this winter?

Dear Colonel Bovey:-

I am pleased to carry out your request of February 19th, in connection with Mrs. Christmas' letter addressed to Sir. Arthur Currie, dealing with William James McReed #887403, formerly of the 46th Battalion. I will pass the communication on to Lt. Col. J. S. Rankin, the former O.C. of the 46th. Bn., (who is now located at Regina, and O.C. of the 2nd. South Saskatchewan Regiment) and who no doubt has a record of all former members of his unit.

I may visit Eastern Canada this summer, in connection with the International Rotary Convention that will be held in June at Toronto, and if I do so I will continue my journey to Montreal, and while there will call on you when we will be able to discuss the problems of the east and west as well as spend a few hours reviewing incidents that occurred during our careers in the army.

Kindly convey my personal regards to General Sir Arthur Currie, and also advise him that I hope to have the pleasure of calling and seeing him on my next trip to eastern Canada.

With kind personal regards,

Sincerely yours,

Dear Sir,

Many thanks for your letter of the 25th. ult. and for your kindness in writing to Sir Lomar Gouin for me.

I was not an applicant for the position you mention in British Columbia, as I felt that it would not be the slightest use for me to do so, and as the position has been filled some time now, it would appear my reasoning was about correct.

Sir Lomar has written the Warden here in reference to me, and I believe Hon. Dr. Beland has also asked Sir Lomar to give me a show, and I thought if you would also ask him, it would cinch the matter. At any event I must secure something to do at once or leave Canada.

With my best thanks for your kindness and sincerest regards.

Dear Major Palmer:-

I have your letter of February 22nd and have no hesitation in saying a word in your favour to Sir Lomer Gouin.

With reference to the appointment in British Columbia, as I have had to tell Mrs. Palmer, quite half a dozen applicants for that position have written to me asking me to recommend them. This, as you see, places me in a very embarrassing position and all I can do is to give a word of recommendation to each one, leaving it to the Department to make their own selection.

Dear Sir Arthur;-

Mrs. Palmer states to-day in a letter to me, that she has written you in respect to my being given a better position in the prison service, asking you to write Sir Lomar Godin on my behalf.

As you were good enough to have written the Civil Service Commission and several other people on my behalf before, I feel somewhat diffident about asking you to again interest yourself, but if you feel that you can do so, will be most grateful for anything you can do with Sir Lomar. There are to be a number of vacancies in the prison service shortly I am told, and Sir Lomar has asked the Warden here for a report on me and I believe the Warden (Col, Girouard) has recommended me most highly.

Regret am unable to call on you at your office in person, but it is somewhat difficult for me to get away during office hours. Was transferred from Kingston here in the fall.

With my best thanks for your past kindness, and with kindest regards,

Dear Mrs. Palmer:-

I have your letter of February
19th with reference to the Wardenship of the
P.C. Penitentiary.

I am afraid that I can say nothing
more in Major Palmer's behalf other than what is
already on file at the Civil Service Department.
I may say that quite half a dozen different persons
in British Columbia, who are applying for the
position, have written to me in a similar strain
to you and consequently I suffer a good deal of
embarrassment. I cannot write to the Department
recommending that each one is better than the other.
I should think that Major Palmer's best recommen-
dation is the manner in which he is discharging
his duties at St. Vincent de Paul.

I shall be very glad at any time
to hear that you have got settled down again.

Dear General Currie

I venture to
recall myself to
your memory
because you were
kind enough to

Say that at any time you
could keep Major Palmer
in obtaining a position
you would certainly do
so. Well there is the
position of warden
in the prison in Westchester
N.Y. - and I have been
doing what I can with
the powers here and
think I have made
at least a dent in
their hearts and they
are going to do what they
can - I saw Sir Lomar Guain

and the son. Mr. Ireland.
and they were very
very kind and I was
thinking that if you
would be so very
kind dear General
Currie you would
not mind if I asked
you to write to Sir
Somers and to Mr. Ireland.

Not shut the cheek. I
Am so anxious to have
a home and take root
some where. We have
had such dreadful luck
I am tired heart and soul
of worry.

We have lived for years
in British Columbia before
the war so that is an
advantage as they would
perhaps want a B.C.

Grand
would it be asking too
much of you yet - asked
you to write to these
the the best as the position
I believe to be filled

and say a few kind
things about Major
Palmer, and I he
splendid war record
he had. because he
really and truly has
a good war record.
I am sure it would
keep wonderfully
in place. The position
I hope you will

by the first of March
now that I have
written you I am
afraid you will think
I am Cheeky but it
means so much. it means
a chance to live, and
make a home together
Very sincerely yours

Dear Sir:-

A day or so ago I received a reply from Dr. W. J. Roche, Chairman Civil Service Commission, stating that he had not yet received your application for the position of Statistician for the Department of Trade & Commerce.

He wrote his letter on October 27th, the day on which the time limit for receiving applications expired. He assured me, though, that if it were received in the course of the next day or so he would see that it received all possible consideration.

Dear Mr. Stevens:-

I hope you will pardon me for bothering you about a man who is anxious to get a position in the Department of Trade & Commerce.

Major R. Palmer, now employed in a minor capacity in the Warden's Office of the Kingston Penitentiary, has written to me stating that he is applying for the position of Statistician in the Department of Trade & Commerce. Although Major Palmer is a Canadian, whose home is in the eastern part of Ontario somewhere between Alexandria and Ottawa, he served in the War with the Royal Engineers and in the closing months was quite badly wounded.

I do not know very much about him personally, although I met him once or twice. I think that he is a very decent fellow and that he has found the going particularly hard since the War. He is a Civil Engineer by profession. I hope that his application will receive all possible consideration.

Kingston, Ont., October 24th. 1921.

Dear General Currie,

I am an applicant for the position of Statistician in the Department of Trade and Commerce Ottawa, as advertised in the Civil Service Commission's list No. 117 Positions Vacant dated Oct. 3rd. 1921.

You may recall my visit to your office last year in Montreal and your having been kind enough to state you would assist me in securing a position. If you can do so I will be very grateful if you will write the Chairman of the Civil Service Commission, Hon Dr. Roche, and also the Minister of Trade and Commerce, Hon. H. H. Stevens on my behalf.

I ~~was~~ unemployed from last November until the 1st. of June this year, and since then have been employed in a very minor capacity, and at a very small salary here in the Warden's Office. The place is most distasteful to me, and as I am only a temporary employee here, with poor prospects of any thing else offering, it has been impossible for me to even have my wife with me, she has been living with her people in Ottawa. In fact my pay has been so small that I have only been able to visit her once in the past six months, this on top of the separation of five years during the war has been pretty tough.

I would like to secure the position mentioned above, and feel that I am well qualified to fill it, in point of education experience, ability ect. and if you feel that you can ~~assist me in securing a position~~, you will find me most grateful.

With the assurance of my sincerest respect.

Yours obediently.

My dear Cy.:-

I am forwarding a letter I have received from Mrs. Palmer the wife of a Major Palmer now living at Alexandria, the home of the Macdonells.

Palmer did not serve with us, but he served as an officer in an Engineering Company with the British Army. He commanded his Company in the line for a very long time and afterwards served on the staff of the 4th Corps and the 6th Corps. In the closing months of the war he was very badly wounded. He is a Canadian and since returning to Canada has found the going particularly hard. You will see by Mrs. Palmer's letter that things are very desperate with them. I have done what I could with the Engineering Institute here and have written to General Ross, M.P.P. for Kingston. I have nothing encouraging from him or from the Engineers.

I do not know very much about Palmer personally. He came to see me last Spring in my office in Ottawa, and I also saw him when I visited Alexandria on the 1st of July.

Will you see the member for that district and between you both you may be able to find some way in which the Government can help him. Is there any position in connection with census taking that he might fill. I am sorry to trouble you but I know your heart goes out to all returned men and particularly to those who are practically starving.

With all good wishes, I am,

Yours ever,

My dear Ross,

Herewith is a clipping from the paper
"Canadian Engineer" concerning which you may know
something.

There is living in Alexandria a Major
Palmer, a Canadian who served throughout the War
with the Royal Engineers; he commanded his Field
Company in the field, and for a time was on the Staff
of the Fourth Corps and the Sixth Corps. He was
wounded in the closing months of the War. I know
that he is finding it extremely difficult to get
something to do and that he and his family are
suffering accordingly. The work outlined in this
clipping is of such a character that his services
might be of some use, and perhaps the Member for
Alexandria knows of him and could help you in
seeing if anything could be done for him.

I suppose you are in the midst of a very
interesting Session, I hope you find plenty to do and
are enjoying yourself; I know that you are always
happiest when most busy.

Dear Sir Arthur,

With reference to your letter of the 14th, regarding Major Palmer, I regret to say that I have nothing definite on hand. The demand for engineers is rather quiet just now, and seems likely to remain so until April at least. At such times, very few inquiries come to us direct.

Mr. Jeakins, Secretary of the Graduates' Society, tells me that he has an inquiry for ^a draftsman from the Montreal Light, Heat and Power Company. I also understand, indirectly, that the same company will require some men in connection with developments at Cedars in five or six weeks.

I have just heard that Mr. Bruce Ross, one of our graduates, of the Sun Oil Company, Toronto, is looking for a technical man to sell some of their products, and I have written to Mr. Ross for particulars. If Major Palmer cares to send me an outline of his experience, and to give me an idea of the kind of position he would like, I shall be very glad to keep him closely in mind, as something suitable may turn up at any time.

There was in to see me the other day a Major P. Palmer of Alexandria, Ont.

He is a Civil Engineer and a graduate of Royal Military College. He served through the War with the Royal Engineers, and had experience, not only as a Company Commander, but on the staff of the 4th Corps and the 6th Corps. He was wounded during the last months of the War.

Since returning to Canada he has worked with some utilities Commission. I know that he is a very decent fellow and I also know that he is very hard up. I promised to make some enquiries to see if there was any possible position for which I could recommend him to apply. Do you know of anything?

Dear Sir:-

I have been informed that Brigadier-General E. de B. Panet, C.M.G., D.S.O., has applied for the position of Administrator of Police Services under the Liquor Commissioners of the Province of Quebec.

I sincerely hope that the Commission will regard favourably General Panet's application. I hope you will not consider it out of place on my part in saying to you that throughout the War General Panet was one of the most valuable officers serving with the Canadian Corps. Trained throughout his life in Military Service he is strongly imbued with a sense of discipline, loyalty and devotion to duty. These qualities he shewed in a very high degree during the War. His personal qualities stand him in good stead. He is courteous and affable, yet dignified.

He served on both the General Staff and the Administrative Staff, so that he has an excellent knowledge of what organization means. He cannot only plan, but he can carry out, and I believe the Commission would find him an extremely valuable officer.

Ottawa, Aug 20/22

My dear John.

In connection with a possible re-organization of ^{some of} the personnel of the Dept in the near future, it would be of considerable advantage to me if I could have a recommendation from Sir Arthur Currie in connection with my services with the Canadian Corps in France.

Do you think, as a friend of Sir Arthur's,

you could secure this
for me without embarrassing
you in anyway?

Love to family,

Yours faithfully,

Wm. L. Garrison.

Sir Arthur Currie K.C.B., G.C.M.G.

Sir,
I trust, that, after having read my letter, you will pardon the liberty I have taken in writing to you. In order that you may thoroughly understand my position, it will probably be as well as to give you a short outline of my life.

I am 33 years of age, born in Liverpool England, son of late W. H. Parsonage, who, until his death in 1900, was editor of one of the leading papers of that city. When I left school in 1905, my Mother being in straitened circumstances, I emigrated to Canada & followed many occupations, until 1910 when I went to Victoria & was employed by the Victoria Transfer Co, under Leonard Sait, until July 1914, when owing to business being bad & wages being reduced I left & came east. Shortly after was was declared & I was temporary employed by C.P.R. from Aug until Nov 14/1914 when I

enlisted for active service with 21st Bty. C. FA
 in this city. I proceeded to England in
 Feb. 1915 Arrived in France May 1915 &
 was posted to 1st B.D. A. B for a few months
 & then sent as signaller to Hdqrs 1st Bde bFA
 under Col. G. McCharen D.S.O. I remained with
 this staff, being absorbed by Div Sig. Co.
 & attained rank of Serjt. In 1917 I was
 transferred to 1st Div. Hq. as Sgt in charge of
 telephone & telegraph line maintenance, which
 position I held until Oct. 1918 when my
 C. B. Maj Barnshaw recommended me
 to Col Ford for commissioned rank. I proceeded
 to Seaford, Eng. & passed necessary exams &
 given Lieutenancy in Can. Engrs. Signals.
 & as by this time armistice had been
 signed I was posted as adjt b boy with
 1st B. B. Res. Bn. until I returned to Canada
 in Aug 1919. During my service in France.
 I was awarded the M. M at Hill 40 in
 Aug 1917 and bar to M. M at the Canal
 du Nord operations in 1918. On my
 return to Victoria it was three months
 before I got employment, & went to the
 Victoria Baggage Co 506 Fort St for whom
 I drove motor until August this year when

I decided to come east. My reasons for coming east, were, first of all in 1920 my wife had considerable trouble with her heart & I had D^r in the house all the time & finally D^r Bechtel advised me that a trip would be the best thing for her & so with help of her father I sent her & two children home to England, but continued illness for some time after her arrival there did not give me any chance to save any money towards her fare back & so I came east, working my way from Calgary to here with stock, thinking that if I could get employment here I would be able to have my family join me that much sooner on all of the saving I would make in not having to pay fares to Victoria. I have tried to get on on my own, but have been unable to get any steady employment and all I have been able to obtain since I came to Montreal was one, two & 3 days a week with J. Watterson & Co Murray St, whenever they had any large shipments coming in. They have nothing further in sight and I have answered many advertisements & tramped all over

to no avail. & so Sir, knowing the interest you have in the returned man, & being practically a stranger here, I have taken this liberty of writing you in the hopes that possibly you might be able to help with your advice. I have been unable to send my wife anything for some weeks now & am ~~to~~ nearly at end of my resources, have had to drop my insurance for \$3000 which I took out on my return. I have enough to keep me a week or so, but I am badly in need of warm clothes. I have done my best to get along without help, but at last I have to appeal & do not know who to go to.

I am not asking for charity all I want is for someone to give me a chance to become independent & have a permanent position so that I can once more have my family with me.

Trusting, Sir, that you will excuse the length to which I have gone in this letter, but thought it better to give you full facts.

I beg to remain Sir
 Yours truly
 Edgar Parsonage.

Sir,

On receipt of your letter of introduction to Mr Paul Sise, I immediately went to the Northern Electric & am pleased to be able to say that I have been employed by them for past two weeks and am progressing favourably at the work to which I was assigned.

I am indeed grateful to you, Sir, for your interest in me, & will do my utmost to repay you, by proving myself worthy of the introduction you so kindly gave me.

I have the honour to be, Sir,

Dear Sir Arthur:

I was away in New York when Mr. Parsonage presented your letter but our Assistant Superintendent, Mr. J. S. Cameron, had a talk with him and thinks we may be able to give him something to do.

Under the regulations of our Pension and Benefit Fund, all employees must pass a medical examination. As the Company doctor was away when Mr. Parsonage called, it will be necessary for him to call again for the examination and I presume there will be no difficulty in that connection.

Yours truly,

Dear Mr. Sise:-

I am giving this letter of introduction and recommendation to Mr. Edgar Parsonage, who ought to be able to prove himself a useful member of such an organization as yours.

Enlisting early in the war he arrived in France in May, 1915, and after serving a few months with the Engineers he became a Signaller at Headquarters, 1st Brigade C.F.W. under Charlie McLaren of Ottawa. He was transferred to the Divisional Signal Company and attained the rank of Sergeant. In 1917 he was transferred to the headquarters of the 1st Division as Sergeant in charge of Telephone and Telegraph line maintenance, which position he held until October 1918. when his O.C., Major Earnshaw, recommended him to Colonel Ford for commissioned rank. He was sent to England and after passing the necessary examinations, was given a Lieutenancy in the Canadian Engineers Signals. About that time Armistice was declared and he did duty as Adjutant of one of the Companies with the Engineers Reserve Bn., until he returned to Canada in August, 1919.

I know that Major Earnshaw and Colonel Ford would not have recommended him for a commission unless he was well worthy of that rank.

While serving with the Signallers he was awarded the M.M. at Hill 70 in August, 1917, and received a Bar to that medal at the Canal du Nord operations in 1918.

Paul F. Sise, Esq., - 2 -

He is a married man, but his wife is in England, having been sent there for her health, with the assistance of her father. He is a man of some education, his father, the late W.G. Parsonage, having been Editor of one of the leading Liverpool papers.

I believe that all he wants is a chance to earn a decent living. He assures me that he has tried faithfully in many quarters, but outside of odd jobs with some of the Baggage Companies, he has found little since coming to Montreal. I hope you will not mind my asking you to give his case your kind consideration.

APPROVED BY THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA UNDER ORDER 162.
DATED MARCH 30, 1916.

It is agreed between the sender of the message on the face of this form and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeatable telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case the Company shall be liable for damages, suffered by the sender to an extent not exceeding \$200., due to the negligence of the Company in the transmission or delivery of the telegram.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz: one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers he acts for that purpose as the sender's agent; if by telephone the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

DAY LETTERS.

This Company will receive DAY LETTERS, to be transmitted at rates lower than its standard telegram rates, as follows: one and one-half times the ten-word Day message rate shall be charged for the transmission of fifty (50) words or less, and one-fifth of the initial rate for such fifty words shall be charged for each additional ten (10) words or less.

DAY LETTERS may be forwarded by the Telegraph Company as a deferred service and the transmission and delivery of such DAY LETTERS are, in all respects, subordinate to the priority of transmission and delivery of full-rate messages.

DAY LETTERS shall be written in plain English, or in French. Code language is not permitted.

DAY LETTERS may be delivered by the Telegraph Company by telephoning the same to the addresses, and such deliveries shall be a complete discharge of the obligation of the Telegraph Company to deliver.

DAY LETTERS are received subject to the express understanding and agreement that the Company does not undertake that a DAY LETTER shall be delivered on the day of its date absolutely and at all events; but that the Company's obligation in this respect is subject to the condition that there shall remain sufficient time for the transmission and delivery of such DAY LETTER on the day of its date during regular office hours, subject to the priority of the transmission of full-rate messages under the conditions named above.

re: est

Sir Arthur W. Currie, G.C.B.
McGill University,
Montreal, Canada.

Dear General Currie,

I am writing to ask if you would be kind enough to use your influence with the Militia Department to get me a little better treatment on retirement than appears to be contemplated by H.Q. Letter 1-57-1, a copy of which is enclosed.

I also enclose a letter with a Statement of Service which I have forwarded to the Minister and which explains the situation fairly well.

The chief point, I think, is that it is unfair to me, after 32 years in Departmental service, and at 51½ years of age, to be turned out with a mere gratuity. My handicap in seeking out and learning a new means of livelihood in Civil Life will be far greater than would be covered by the gratuity suggested.

I do not know whether you are personally acquainted with the Hon. Geo. Graham or not, but Billy Ditchburn assures me that he is a very decent fellow, and he also said that he was sure that a word from you would carry great weight in getting the Minister to favorably consider the special circumstances of my case and to get an Order in Council passed to remedy the situation.

The fact that you can verify my record of service by your own personal knowledge would also strengthen the case; you will remember that, in the old days, you and I often walked home to Victoria West when we were both N.C.Os, and you will also remember that I was employed in a civil capacity in the R.E. Office.

I am afraid that I have not got a very strong political pull although the only political Association I ever joined was Charlie Macs. liberal Assn. at Esquimalt, while I was on the R.E. Staff. I remember Sam Matson being terribly mad one election day when I told him I was going to vote Ralph Smith, but I dropped it immediately I was transferred to the Dominion Government and since then have taken no active part in political affairs.

I hate to bother you with my troubles, as I am sure you are a very busy man, but I should be much obliged if you would be kind enough to write to the Minister on my behalf and I am sure that *your* recommendation would carry great weight with the existing authorities.

Thanking you in anticipation, and with kindest regards,
Sincerely and fraternally yours,

W. T. Phillips

From Mr. W.T. Phillips,
R.C.E. Store Accountant,
519 Lumsden Street, Esquimalt B.C.

To The Honorable, The Minister of Militia & Defence,
Militia Headquarters,
Ottawa, Canada.

Sir,

I have been notified that in accordance with H.Q. Letter, 1-57-1, 11.W.D.34.P.372, dated Ottawa, 21st November 1922, that it is proposed to retire me from service in your Department from 1st January, next.

Feeling that the conditions of retirement outlined in the above-mentioned letter are not entirely fair to me for the reasons stated below, I mentioned the matter to Mr. W.E. Ditchburn who said that from what he knew of you he was quite sure you would give my case a fair and sympathetic investigation, which has led me to take the liberty of forwarding you a few facts in connection with my past service.

The enclosed statement of service shows that on January 1st, next, I shall have been employed in connection with military affairs for nearly 32 years, and over 30 years of this service has been in Canada.

So far as I am aware I have always had the very best recommendations from the different ^{officers} under whom I have served, and my proposed retirement is not for any shortcomings on my part.

It is now proposed to retire me with two months pay and a gratuity of \$775.62, which I respectfully submit is inadequate to overcome the handicap I shall be under in searching for civil employment at the age of 51½ years and after 32 years Departmental Service.

I have a wife, and two children aged respectively 8 years and 11 years. I might also state that I suffered a severe breakdown in health (Neurasthenia), first in November 1918 and then more seriously in March 1919, as can be seen from my records, and although at the present time I am very much improved in health, I feel that I should be somewhat handicapped in seeking a new means of livelihood.

I have never been in receipt of more than a moderate salary and the sickness above referred to, together with other sickness in my family, has used up practically all the small capital I had been able to save out of my pay.

I am in receipt of no pension or allowance for my military or civil service under the Imperial War Department, but if I had been transferred to the Militia Department in 1906 as a serving soldier instead of a civil subordinate the whole of my former service would have counted for pension.

I feel that in view of the special features of my case, that I should receive a little more favorable consideration than that outlined in H.Q. letter of November 21st, above referred to. I therefore wish to bespeak your kind consideration and to ask you to recommend, as an act of Grace, that at least sufficient of my Imperial Service in Canada be included with my Canadian Service in computing my retiring category, to enable me to qualify for superannuation. If this cannot be done I would respectfully urge that I be permitted to continue in the service until I qualify for superannuation, that is to say, for 3 years and 4½ months.

I am,

Sir,

Respectfully yours,

Dear General Currie:-

I have been out of town for a few days, and on my return find your letter of the 11th instant, written on behalf of Mr. T.W. Phillips, of Esquimalt, B.C.

I quite appreciate your interest in Mr. Phillips, but it was decided some time ago to have a permanently enlisted man look after the duties which Mr. Phillips has been performing. I understand his retirement was recommended two years ago, and in the present circumstances, whilst I would like to meet your recommendation in this matter, I really do not feel justified in retaining Mr. Phillips, as the work upon which he was employed can easily be done by one of the men in the Royal Canadian Engineers.

Yours very truly,

My dear Mr. Phillips:-

Let me acknowledge receipt of your letter of 30th November with enclosures as stated.

I suppose your case is being dealt with in strict accordance with the regulations and I should imagine that it would be difficult to induce the Government to put through a Special Order-in-Council making a special case of you. I have no political influence with the Government as I have taken no part in politics since my return to Canada and am generally regarded as being very independent in my views. However, I shall write to the Hon. Mr. Graham and say what I can in your favour. It is too bad that after thirty-two years of Government service you should be turned off just at the age when it is difficult to start anew.

With all good wishes and assuring you that I shall do my best, I am,

Yours faithfully,

December

1922.

Hon. George Graham,
Minister of Militia & Defence,
Ottawa.

Dear Mr. Graham:-

I have received a letter from Mr. W.T. Phillips, 519 Lampson Street, Esquimalt, B.C., to which is attached copy of one addressed to you on November 30th last.

I do not know what I can say on Mr. Phillips' behalf, because I suppose the Department is dealing with his case strictly in accordance with regulations. However, I have known Phillips for 25 or more years. He was a member of the permanent force stationed at Work Point and when I was a non-commissioned officer in the old 5th regiment, he, I think, was also Corporal in the Royal Engineers, afterwards transferring to the Royal Canadian Engineers. Since that time he has always been employed around the barracks, though in a civil capacity. He points out that he is in his 52nd year and that it is very difficult to start afresh. The fact that he has given thirty-two years of service to the Government should entitle him to special consideration.

I note that if he continues in the service for another three years he will qualify for superannuation. Governments, I know, often have a way of getting rid of a man in order to avoid that superannuation. I hope the dismissal of Phillips is not for such a purpose. He is a decent fellow and I hope that you will reconsider his dismissal.

Yours faithfully,

Dear General Currie,

Thanks very much for your favor of 11th instant promising to write to Hon. Mr. Graham on my behalf. Immediately after I had written to the Minister and yourself I received a letter from the Civil Service Commission, stating that I had the right to appeal if I was not satisfied, so I have now submitted an appeal to the Commission very much along the lines of my letter to the Minister.

In regard to politics, I wasn't thinking so much of your political sympathies, but rather of your prestige in military matters, and the fact that you had known me personally as an N.C.O. as well as a member of the Civil staff under the Imperial Government.

I suppose this will reach you about the time I am assisting to install your successor in the O.C. of K.S. I haven't heard much of your masonic activities, but may say that lately I have been fairly busy again. At the present time I am *interest.* Grand Supt. R.A.M. for Vancouver Island, besides taking a considerable in the Victoria Lodge of Perfection A. & A.S. Rite. And of course am still in office in United Service. I think you once prophesied something to the effect that I was in office for life.

Dear Mr. Pooley:-

I was glad indeed to receive your letter of the 28th of February, and have to-day written to Sir George Foster in accordance with your wishes.

I hope the Canadian Government will see its way clear to give you the appointment, because I consider it highly desirable that Canada should have a direct representative in Egypt.

I am interested in what you tell me concerning your life since I last saw you in France. On two occasions since returning to Canada, once in the Fall of 1919 and again last June in Ottawa, I saw your brother Harry. He was looking very well I thought, and judging by the result of the elections last Fall in Esquimalt district, still retains a very firm hold on the regard of the people who know him best.

I thank you for your good wishes and may say that I enjoy my work in Montreal and also that next to Victoria I prefer living here to any other place in Canada.

Dear Sir George Foster:-

I am to-day in receipt of a letter from Mr. T. E. Pooley, who is the Agent for Vickers Limited in the area of Egypt, Palestine and the Soudan.

Mr. Pooley states that he has written to you asking that he might be appointed Consular Agent for Canada at Cairo. All I can say about him is that I knew him many years ago in Victoria, B.C. He is a qualified Barrister of that Province and comes of exceedingly fine English stock. He would be a creditable representative for Canada as far as integrity and social standing are concerned. He has always shewn commendable zeal for public service.

I know that he served in the South African war with Lord Strathcona's Horse and also served with the Canadian Railway troops in the late war. I do not think he can ever be classed as a brilliant man, but I do know that he is honest, fearless, and incapable of doing an unworthy action. He is well known, of course, to the Hon. Dr. Tolmie.

If Canada has no representative there and considers such representation desirable, I believe Mr. Pooley can acceptably fill the position.

Enclosures 1.

Dear Sir Arthur,

I am enclosing herewith a copy of a letter I have written to Sir George Foster and I feel that it fully speaks for itself. I am writing to ask if you can see your way to put a word in for me to the Canadian Government. I would indeed esteem it as a favour if you would do so, as I know it would go a very long way towards securing me the appointment.

I am firmly of the opinion that if we wish to develop Canadian Foreign Trade we must have Canadians appointed in various parts of the world to foster and encourage it. The United Kingdom besides having its Consuls has also a special Overseas Trade representative here to look after trade interests. America has also representatives in addition to their Consul & the Australian & New Zealand Governments have as a result of their representation done considerable trade direct with the Egyptian Government.

I consider the individual appointed must be a Canadian and as I have had considerable trade experience in this territory and of course am very anxious to keep myself in as close connection with Canada as possible, I am of the opinion I am well suited to the position.

On leaving France in 1918 with an injured knee I was kept 5 months in hospital, mostly in bed. On coming out they would not let me return to France and I was given a job in the Ministry of Munitions & from there into Vickers Ltd. At the termination of the War I was asked to come to this country by that firm as their General Agent. This was owing to my past experience in this country, and I have been here now since early 1919.

I hope you are in the best of health and that you like your new appointment, which none more delighted than I to hear you have received.

Yours sincerely,

Minister of Trade & Commerce,
OTTAWA,
Canada.

Sir,

I have the honour to herewith make application to you for appointment as Official Commercial Agent or Trade Representative of the Dominion of Canada in this territory viz: Egypt, Soudan & Palestine.

I enclose herewith a statement giving information concerning myself and by which you will notice I am the General Agent & Representative of Messrs. Vickers of London in the territory mentioned. I can perhaps recall myself to your memory in referring to your kindly interest at the time of my obtaining a Commission in Lord Strathcona's Horse in 1900, when I was staying with Maj. Genl. Sir Edward Hutton in Ottawa.

Being Canadian born and naturally having the interests of Canada very much at heart, I am firmly of the

opinion that an individual should be appointed in this territory to assist and develop Canadian trade interests. Particularly so with the approaching Palestine and Soudan development. It is absolutely essential that such Representative should be well acquainted with this territory and preferably a Canadian. As I have over 10 years experience here in important work and trade, I consider I am well suited to fill the position.

The American trade is, under the active assistance of the American Consul, making great endeavours here and I am convinced that Canada can also find a good opening. Especially will this be the case so long as Canadian exchange remains more favourable to this country than America. The American trade is also doing considerable local advertising, some of which I understand is the direct expenditure of their Consulate.

Other countries also have their Commercial Representative here & in some cases in addition to their Consulates.

It is surprising to me as a Canadian how little Canada and matters Canadian are known in this territory. Australia and New Zealand trade is developing since the war. If there was some recognized Representative here and a source for information & advice opened up, some of the trade

NO

that is going to Australia, New Zealand & America could be diverted to Canada. In addition, responsible Canadian Houses could be brought into connection with responsible firms here and vice versa. The need of such a Representative here is shown by the fact that as I am well known to be a Canadian, I am constantly receiving enquiries regarding Canada and its possibilities of trade. I am in most cases unable to answer the latter or at least not as fully & confidently as I would wish. This is on account of lack of up to date information and close official connection with Canadian interests. Firms having Canadian enquiries for sugar, oranges from Palestine etc. have approached me and recently the Government have enquired regarding the supply of Railway Sleepers. I have also lately at my own expense been cabling to Canadian Contractors in the possibility of getting them interested in certain projected contracts here.

There will shortly be following on "Lord Milner's Report" a number of Englishmen leaving Government employ with a certain amount of Capital, they have been enquiring from me regarding Canada and as they would become good citizens, I have advised them accordingly. This year alone I have already issued 5 letters of introduction to people going to Canada, so that they may fall into the

right channels.

Recently there appeared in the local press certain articles concerning Canada and particularly British Columbia, which in my opinion were not only misleading, but the advice conveyed was incorrect, and which, if followed by certain people, would probably have left them stranded & disgusted on arrival. Had I been in an official position I could have corrected these articles with more weight.

Although I have not yet received official sanction from Messrs. Vickers Ltd. to accept an additional appointment, yet unofficially I am informed that they would not object provided their interests were in no way neglected. I am firmly of the opinion that the two appointments could be very favourably worked together and in no way conflict. If I was not of that opinion I would certainly not make this application.

There are cases existing in this part of the world of Englishmen representing English firms and at the same time being Consuls or Vice Consuls of Countries outside the British Empire. I mention this as it might appear that I could not hold the position of Canadian Trade Representative and at the same time represent an English firm. I however consider I should be more favourably considered for that very reason as my work would be strictly

NO

devoted to trade within the Empire & opposed to foreign interests. I also would be able to undertake the representation on a suitable footing at a smaller remuneration than that which would be necessary for a Special Representative devoted solely to that work, which I do not consider the market at present warrants. He would have to be a very high salaried official in order to keep on an equal footing & coordinate with those holding a similar local position. This being almost a new market for Canadian trade, it will require considerable cultivating and in order to do so, some individual must be appointed here as a center from which reliable information can be obtained and Canada's productions brought to light and interests kept to the fore. In general trade which America, Australia & New Zealand & countries outside the Empire find beneficial could largely be competed for by Canadian firms, if they were only given an opportunity or a channel.

As regards remuneration for my work I am quite prepared to accept such terms as you may consider fair and just, believing that the Government will take into consideration further increase in such remuneration as results may justify.

As a guidance to you in settling this question, and showing expenses that would be incurred outside

remuneration, I would point out that wages for Europeans, Office accommodation and living expenses here are much higher than in Canada. The appointment would necessitate my adding at least one clerk or typist, probably both to my staff according to the amount of work entailed through necessary reports and correspondence. Such clerk or typist should be European owing to the necessity of confidence, which cannot be guaranteed in an Egyptian, and British nationality for preference. A young European clerk gets from £20. to £30. a month and a girl typist from £15. to £20. These are the reduced scale, recently they were much higher. I would require extra office room, amounting to one or two extra rooms, the rental for which amounts to £4. or £5. each a month. There are also the expenses connected with occasional hire of carriages and travelling to various centers in this territory, making the round two or three times a year. Local travelling could always be done in connection with my other work and therefore at reduced rates. This would be particularly applicable to Soudan & Palestine.

In addition to the above there would be the cost of official advertising and Office stationery and supplies and printing when necessary, also cables and postage.

-ctd.-

DATE

24.2.21.

7

There would also be the cost of advertising for Canadian firms to enable them to establish suitable connections with those interested, and cables to them, these would be payable by the firms concerned.

From the above I estimate expenses here would be as follows:-

Clerk	£30.
Typist	20.
2 Rooms office	10.
Carriages & travelling etc.etc.	15.
Total per month about...	<u>£75.</u>

or £900 the year. This does not include office stationery, printing, telephone rental, postage, official advertising as distinguished from that for private firms. Also to suitably furnish 2 extra rooms and extra typewriter would cost about £100.

Further as I am a qualified Barrister & Solicitor of the Supreme Court of British Columbia, it might be convenient to the Canadian Government to appoint me either as a Notary Public or Commissioner for oaths for Canada.

In giving the above estimate for expenses I am making full provision for coping with the work I consider will probably have to be undertaken. As however I am not aware of the general Conditions governing your Commercial Agents and what is required of them in the way of reports etc., there may be less work involved than I am assuming

NO

to be the case and in which event the services of an extra clerk might be dispensed with. I will of course be fully informed of your requirements and leave the question of my remuneration to be decided by you in accordance therewith.

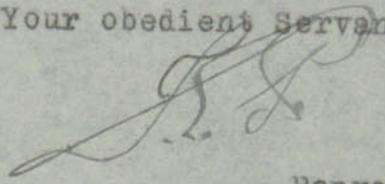

You are no doubt aware that the United Kingdom has residing here, besides Consuls & Vice Consuls in various towns, a Special Representative appointed by the Overseas Trade Dept. In addition to the American Consuls, there is the American Foreign Trade Corporation Offices being opened up. Australia & New Zealand have also made a local appointment to look after their trade interests.

In placing this application before you I hope it may meet with your early & favourable consideration & should there be any further information required regarding myself, or matters in this territory I shall be very pleased to supply it.

I have the honour to be,

Sir,

Your obedient servant,

Representative,

Dear Sir Arthur.

I have to thank you for your kindness in giving me a letter to Lord Bynq, which will certainly assist me considerably.

I wish to explain that it was not my original intention in calling on you in Montreal to ask for this letter. I wished to pay my respects in congratulations etc and at the same time to confidentially communicate something which might be of interest to you regarding B.C. I hope however to be in a better position to do so on my return from there. At any rate between here and there I hope to accomplish something which may be of considerable benefit to the good old Province.

Please give my kind regards to Lady

have the pleasure of calling on her. Again
thanking you for your kind response to a
request which I fear was somewhat hastily
and abruptly made.

Dear Sir:-

You must forgive the presumption but desperation causes one to resort to desperate measures. My reason for coming to you is that, as we were both members of the original Second Brigade, sentiment may cause you to help us out of the fix we are in.

I tried to see you personally but an interview was denied me.

This is the situation. Memory and myself embarked upon this business a short time ago expecting success. We now find that it takes time to work up a business and although there is no doubt of ultimate success, yet, we find ourselves unable to meet our expenses.

I am perfectly frank with you. Neither of us can raise any money and the immediate future looks very black.

Will you please help us?. There are so many ways. Your influence could secure work for us. That is what we want. Not charity. The University of which you are the head must give out a deal of work. Some was promised us but we cannot wait. Immediate help is needed and as in those dark days of war we look to our General for assistance.

If my presumption annoys, try to realize the desperate position we are in and you will fully understand my motives.

Hoping you will favourably receive this communication.

Yours truly.

Dear Sir:-

I am very anxious to ascertain something about the character and ability of Captain H. S. Quigley. I am informed that you are acquainted with Captain Quigley and are familiar with his activities during the War, and it has also occurred to me that you may have some knowledge of his activities since the War as a flying pilot and director of flying operations.

Any information you can give me would be greatly appreciated and treated as strictly confidential.

Dear Sir:-

In reply to your letter of the 27th of March asking my opinion of the character and ability of Captain Quigley, let me say that it gives me pleasure to testify favourably in his behalf.

When I first knew Quigley he was a Corporal in the Signal Section of the 2nd Infantry Brigade which I commanded at the beginning of the war. He did exceptionally well at the 2nd Battle of Ypres, shewing that he possessed all kinds of pluck, outstanding cheerfulness and dependability. It was with pleasure and confidence as to his future success that I recommended him for a commission in the Flying Corps, where I believe he had an equally splendid career. Since the war I know that he has continued in the Flying Service, flying for large commercial interests and giving, I believe, every satisfaction.

I have not seen him for a year or so, but I always liked him, had confidence in him and am happy to recommend him to you.

Dear Sir Arthur,-

I beg to acknowledge yours of the 27th instant, recommending Col. J. G. Rattray D.S.O., of Winnipeg, for the advertised position of Emigration Agent, Great Britain.

There are two vacancies of the above nature and a written examination in connection with same was held last week, at which I presume Col. Rattray wrote. It will largely depend upon the result of this examination as to who will be appointed to the two positions in question, but I can assure you that every consideration will be given Col. Rattray's qualifications before an appointment is made.

RE-ESTABLISHMENT BOARD

Re 154

Evidence submitted by

G.R. McNicol in support of Re-Establishment
Resolution, presented by the Dominion Veterans Alliance
and Suggestions of Bonus by Grand Army United Veterans.

* * * * *

Honourable Chairman,

Honourable Lady & Gentlemen,-

86,811 Disabled Men Need Further Assistance.

I wish to submit for your kind consideration the general condition of disabled ex-service men who have been recognized by the Board of Pension Commission as attributable to War Service. This class affects, approximately, 86,811 men or 18% of all discharged ex-service members of the C.E.F. The above also, includes the category of which entitles them to vocational training of which figures prove 51,000 took advantage.

These men have suffered considerably and readily realize that it is beyond the Government's power to completely recompense them for their loss through War service. Their pensions range from \$5. to \$100.00 per month. according to percentage of disability. Such pensions are not awarded for service or wounds but for the loss or lessening of normal abilities, such as walking, stooping, hearing, seeing, etc. While they are thus recompensed, it is not sufficient to overcome the handicap and disadvantages in not being able to accept opportunities that arise from time to time.

Over 90% have to seek employment in the labour market; they are continually breaking down and not able to work steadily; therefore it is only the sympathetic employer that will employ them and the average employer does not come under this category.

The Vocational Training has proven quite inadequate and been admitted by Officials of D.S.C.R. Then, Honourable Lady and Gentlemen, the question arises how these men can be re-established to sufficiently earn and maintain a liberal standard of living, to guarantee health, education and all necessities which go to make up a standard of living worthy of Canadian citizenship.

Therefore, if these men were given a re-establishment bonus, it would enable them to start a small business of their own, in which their wife or dependents could assist when health did not permit activity; or they could purchase a small home and in spare time or while unemployed, could assist themselves considerably by gardening or raising other commodities of life, and thus cut down living expenses.

27,000 Land Settlers Need Assistance.

Then, there are approximately 27,000 ex-service men who have taken advantage of The Land Settlement Act. These men are worthy of further consideration as has been proven beyond a doubt by other witnesses. Therefore, if a re-establishment bonus was paid it would take considerable off the principal, thus encouraging the settler by making his payments and interest lighter at a time when general conditions are bad; which would overcome the difficulty, The Land Settlement Board is confronted with, at present, Depression and crop-failures, make the settler believe he has lost his equity and is therefore discouraged and ready to quit.

The above figures, namely 27,000 (Land Settlers) and 86,811 (Pensioners) making a total of 113,811 or 24% , which according to summary of D.S.C.R.'s activities to Dec.31/21 have received assistance.

419,916 Discharged as Al not
Adequately Re-established

Then, the third class, which require your earnest consideration and assistance is the ex-service man, discharged physically fit, which represents 419,916 or approximately 76% of the men who come under the purview of your committee. The only assistance available for these men was the original gratuity and the un-employment fund of the Winter of 1919, which in several ways was a detrement to the industrious ex-service man; as the employer was fully cognizant of the facts that should he lay off ~~an~~ ex-service employees, they would receive from \$60.00 to \$100.00 per month while his civilian employees would not receive any assistance. These conditions had a tendency to encourage the employer to discharge ex-service men and retain civilians.

Several cases were brought to the attention of Soldier's Organizations, where men who had been promised steady work were discharged and this was the only apparent reason. Not more than 20% this victimized have been able to locate a permanent position.

Honourable Members, please allow your memory to drift back to 1919 and follow conditions from then; 419,916 men were placed on the labour market, when general industry was disorganized throughout Canada, in changing from implements of destruction to industries of peace.

Then we must quote the statments of our late Government

officials and in their own words.

"Shortly after the Armistice, it was recognized that treatment might have to be provided for former members of the forces who were suffering from disabilities not directly attributable to War service, but which might have been indirectly caused thereby. Owing to a temporary lowered physical resistance to epidemic, or other conditions, power was therefore taken to grant free treatment and medicine to all former members of the forces who might fall ill during twelve months following the date of retirement or discharge. Some thousands of men have in this way secured free medical treatment and this concession has been much appreciated. No pay and allowances were granted."

The Medical Officials state that the thousands of men referred to, were suffering indirectly from War service. But what of their dependents? The bread-winner in hospital perhaps for 2, 6 or 8 months, no pay and allowance and the high cost of living that existed in 1919. A few weeks illness would put them several hundred dollars in debt and they have had no chance to redeem themselves since.

Surely there is a justifiable reason to ask for assistance on behalf of these men. Then we ask you to consider the need of assistance to those who have returned physically fit but with prospects greatly damaged by their absence on War-service. This is a very real problem. If a large number of men are prevented by lack of means from continuing their training for professional or industrial life, not only will they suffer themselves, but the country at large, from lack of services they would, if qualified, have rendered. It is also likely to suffer if there are many, who

from want of a little help at the start, are prevented from becoming independent in industrial or commercial occupations, for men with a permanent grievance are a menace to any community, and also there is no more valuable class of citizen than the man who is working for himself in however small a way.

There is not the slightest doubt that many men who were fortunate enough to escape disablement suffered greatly in their prospects because of their patriotic action in enlisting. Businesses were given up in some cases, which it is well nigh impossible to start again. Chances of partnership were lost. Situations were left, which are not now open. Young doctors and lawyers abandoned their practices, which they find very hard to gather again. Students, both at universities and in industrial schools, gave up their studies to enroll themselves and unless they did so under the age of eighteen find themselves now in the position of not only having lost very valuable years, but in many cases of being without ^{the} ~~an~~ necessary means to continue their interrupted studies. Also, there is no doubt that in spite of separation allowances, debts and mortgages on homes were often inevitably incurred as a result of the reduced earning capacity and absence of the bread winner.

Those, too, who were in training for commercial, industrial or professional careers, suffered heavily by having that training interrupted for several years at a most crucial period, so that whatever allowances are made or extra courses arranged, they find themselves somewhat handicapped from the loss of time. It is not difficult to realize the acute disappointment therefore, of men who, while prepared to face the severe handicap entailed by the interruption of their training, now find themselves obliged,

through lack of assistance they should have, to abandon all hope of completing their training. To have put themselves voluntary behind in the race, for patriotic motives, is, we claim a sufficiently heavy sacrifice; but to have lost their chance altogether is very hard to bear.

Thousands of men sacrificed positions, businesses, farms and other enterprises in which they had sunk the savings of a lifetime to develop, and now upon their return to civil life the former threads must be picked up if possible, but with little hope of real success, unless by financial assistance which would accrue if the bonus ^jproject becomes adopted.

The great need for further re-establishment has always been recognized by the three major soldiers' organizations, namely, Army and Navy Veterans, Great War Veterans, and Grand Army United Veterans, and during the past year each organization at their annual convention, passed resolutions requesting adequate re-establishment for all ex-service men.

Public opinion throughout Canada supports the ex-service men in their requests for adequate re-establishment, and we submit the following evidence to support this fact.

In 1920 Organized Labour held their Dominion Convention in Hamilton, Ontario, and unanimously endorsed a resolution in favour of further re-establishment for our ex-service men and in this they still concur. The above statements prove the toilers of Canada wish just treatment on behalf of our returned men and are ready to contribute their share to same.

We next draw your attention to the resolution passed at the Liberal Convention in the City of Ottawa, August 8, 1919.

1. "Whereas, it is considered that the guiding principle

for a permanent settlement of the problem of civil re-establishment should be equitable treatment to soldiers in all vocations, having regard to length and nature of service.

"Resolved that this convention declares that the adoption of a system of cash grants to the soldiers and dependents of those who have fallen is the most satisfactory and effective means of civil re-establishment, such grants to be in addition to any gratuity and to any pension for disability resulting from service.

This Convention represented a large percentage of our leading and most esteemed citizens gathered together to represent their followers from all parts of the Dominion. Therefore, the opinion of such a great and representative body cannot be lightly passed over without realizing the need for further re-establishment.

In view of the fact that over 400,000 of the ex-service men have not received any assistance since 1919, the indisputable fact is that if the re-establishment referred to in above paragraphs was necessary in 1919 it is of greater necessity now.

Therefore, we feel we can give your committee the assurance of this great party as they would not be-little themselves to withdraw such a glorious resolution based on such justifiable grounds.

The following are questions sent to the Honourable Leaders on November 22/22, by Grand Army United Veterans, and we feel justified in quoting our Honourable Prime Minister's letter as proof of him being in favour of further re-establishment. Had he not considered Clause (1) justifiable no doubt he would have stated frankly that in this clause he did not concur.

QUESTIONS: 1. The re-establishment of ex-service men and women by the payment of a re-establishment bonus, based on the length of service, which, when added to the gratuity already

received, would be at least equal to the highest amount paid by any country to its ex-service men and women who served in the Great War.

2. Pensions sufficient to completely compensate for loss of earning power on the basis of one dollar per month for each per cent of disability, and in the meantime present bonus on Pensions to be made permanent.

3. Pensions for the widows and orphans sufficient to enable them to live up to the Canadian standard of living.

4. Pensions to be paid to parents of deceased ex-service men and women.

5. That an amount equal to one year's pension be made payable on the death of pensioner, to compensate those who have assumed responsibility for sick and funeral expenses of said deceased pensioner.

6. Preference to be given in appointments to Civil Service (qualifications being equal) to ex-service men, and such appointments to be made permanent after six months' satisfactory service.

7. Insurance against sickness and unemployment.

8. Restriction of immigration and rigid exclusion of all Asiatic and alien enemies.

9. The erection and maintenance of Homes by Federal Government for aged and indigent Veterans.

10. Apportionment to be made forthwith to all ex-service men and women of the amount due in cash owing to the loss due to exchange of army pay and allowances during overseas service.

11. Employment to be found in Government service for all pensioners instructed by medical boards to obtain light employment.

12. That all ex-service men and women who have received gratuity in lieu of pension be entitled to re-board on application.

Answers to above questions:

Toronto.

Dear Mr. Marsh,-

I received only at midnight on Saturday, your letter of November 22nd requesting on behalf of the Grand Army of United Veterans, a statement from me as the Leader of the Liberal Party regarding re-establishment proposals of the Grand Army of United Veterans, authorized by the Dominion Board of Directors at a special meeting held in Toronto on Sunday, November 13th and submitted to the leaders of all political parties and to individual candidates for Federal elections.

In considering the reply I should make to each of the several proposals, I am obliged to recognize that it is impossible for me to expect any dissociation, in the public mind or in the mind of any of the members of your association, of views expressed by myself as an individual candidate on the present elections from views expressed by me as one who also carries the responsibility of a leader of one of the political parties. I presume it is primarily as the Leader of the Liberal Party that you wish me to reply. If, therefore, in the reply I am making, I find it necessary to speak in general rather than in specific terms with respect to the proposals submitted, I hope you will not feel that this is owing to any desire to evade clear and definite responsibility, but rather to be perfectly sure in my own mind that, in the expression of views I am making, I may rely with confidence upon the wholehearted and active support of my fellow Liberals in all parts of the country.

I believe that the whole matter of further re-establishment of soldiers, and all questions incidental thereto, should be reopened and reconsidered by the new parliament, which fortunately will be more representative in its character than the parliament which has just been dissolved. In this connection, I would favour the appointment at the next session of Parliament, of a committee of the House of Commons, empowered to take into consideration all of the suggestions contained in the re-establishment proposals submitted. I would further favour the committee being given the widest powers to consider all matters relevant to these proposals and having no restrictions placed upon its findings by the Government.

I should like to add that, speaking for myself personally, I should not hesitate to endorse the principles underlying practically all of the several resolutions and that any influence I may have with respect to these or kindred matters will be gladly exerted at any and all times with a view to seeing that the returned men and the dependents of those who sacrificed life or health in the Great War are dealt with not only justly but generously.

Yours very sincerely,

(Signed) W.L. Mackenzie King.

The evidence submitted by Sir Thomas White to the Parliamentary Committee of 1919 re Canada's inability to finance further assistance to re-establish her ex-service men, was quoted by Committee as their reason for refusing such assistance as was requested at that time.

Please allow me also, Sir, to include in my evidence, quotations of Sir Thomas White in a book entitled

"The Story of Canada's War Finance," By Sir Thomas White in 1921.

The Three Victory Loans were the greatest financial achievement of Canada during the War. They were floated in 1917, 1918 and 1919 respectively, and raised an aggregate of more than ^{Seventeen} ~~Seventeen~~ Hundred Million Dollars. That this astounding sum, which was almost twice the amount of all the deposits in all the chartered banks before the War, should have been made available for the purposes of the Government from the savings of the people of Canada, was probably as surprising to ourselves as to the outside world. Suggestions have not been wanting that Canada could have raised as large sums through public issues made to her own people before the War, but that we never suspected our ability to do it, and

consequently always did our national borrowing in London and New York. This view overlooks the fact that our War loans were really subscribed by the public from the savings made during the War itself. There is real truth in statements which were made frequently by economists that nations pay for wars as they go along. Productive enterprises are of necessity greatly stimulated. This, coupled with the constantly increasing rise in wages and in the price of commodities, produces an enormous amount of credit, or money so called, which finds its way into the pockets and savings accounts of the public. This money is available for subscriptions to Government loans.

The business which Canada obtained through the financing afforded by Victory Loans enabled us to pay our War expenditures abroad as we went along and finish with a large balance to our credit.

Canada's people saved from the earnings of the War \$1,700,000.000 besides land and other investments. We ask you Honourable **Lady** and Gentlemen, are not the men who made this achievement possibly justified in requesting a small portion of all war prosperity? In other words, the interest paid to the people of Canada annually for money loaned, is over \$93,000.000 and in 3 years would finance requests which we submit for your consideration.

the soldiers won the war and then

The argument so often used that /pay the cost is ~~is~~ returned to
to

amply proved by these figures.

One of the noblest memorials Canada could erect to memory of her heroes would be to care for the widows, orphans and dependents of our dead comrades, and to re-establish in civil life those who have been spared to return.

Mon cher Général,

Je reçois votre lettre.

M. Richards a travaillé au chalet du Club de Golf Laval sur le Lac, dans le cours de l'année dernière, et il a dû quitter le service comme tous les autres employés le 1er novembre, à la fin de la saison.

Le gérant du Club est chargé de recruter le personnel requis pour le service, et nous avons cette année un nouveau Gérant qui a déjà recruté son personnel. M. Richards aurait écrit dans le cours de l'hiver à l'ancien gérant qui a omis de transmettre au nouveau les lettres qu'il aurait reçues de M. Richards.

Je n'ai pas de doute que le nouveau gérant aurait engagé M. Richards s'il eut connu qu'il était prêt à revenir à Laval au printemps. Mais il n'avait aucune nouvelle de lui, et il ne connaissait même pas son adresse.

J'ai communiqué avec le gérant en recevant votre lettre, et je lui ai expliqué le cas de M. Richards. Il m'a dit qu'il avait eu la visite de M. Richards, il y a quelques jours, et qu'il l'aurait alors employé s'il avait pu lui donner de l'ouvrage, ajoutant qu'il lui paraissait impossible de congédier un employé pour accommoder M. Richards. Je lui ai alors demandé de se rappeler son nom et de tâcher de l'accueillir si c'était possible, dans le cours de la saison.

Veillez agréer, mon cher Général, l'expression de mes sentiments les meilleures.

I do not remember the man by name, as
several Richards have served in the 22nd bataillon. The

Captain E. E. Rickard,
2126 - 5th Street W.,
Calgary, Alta.

My dear Captain Rickard:-

Replying to your letter of March 6th let me say that I have to-day written the Hon. Jacques Bureau saying what I could in your behalf. I hope my letter does you no harm but I have a most positive impression that the Civil Service distinctly forbids any one on the outside writing to them to influence the promotion of one in their employ. I know this to be so because it came up in connection with a letter I wrote for a man employed in the Post Office Department.

I am very glad to hear of you again. One if not likely soon to forget those who were comrades in the second battle of Ypres. Just ten years ago now we were out training at Estaires I remember very well where the 10th Bn. were billeted. After I got to know them I always had the highest regard for the 10th and there was no finer fighting unit in the Canadian Army.

With all good wishes, I am,

Yours faithfully,

April 4th, 1925.

Personal

Hon. Jacques Bureau,
Minister of Customs and Excise,
OTTAWA.

Dear Mr. Minister:-

I hope you will pardon the liberty I am taking in writing to you on behalf of one E. E. Rickard, now in the Customs Department at Calgary, who is, I believe, applying for the position of "Investigator of Values" at Vancouver.

Of course, I have no knowledge of Mr. Rickard's qualifications for such a position because I do not know just what it involves, but I do know that he is an old servant in the Customs Department, that he served overseas with the 10th Battalion, which was in my old Brigade, and that he was promoted by myself on the field after the second battle of Ypres for meritorious and gallant conduct during that battle. I know, therefore, that he possesses some good qualities and I hope his service will be regarded with sufficient favour to justify you giving him promotion, if that is possible.

I know that departments do not care to receive letters from the outside with reference to the promotion of their own staff and if I have been too bold I hope you will not hold it against Mr. Rickard.

Yours faithfully,

April 3rd, 1925.

Lieut.-Colonel Eric MacDonald, D.S.O.,
106 Spadina Road,
Toronto, Ont.

My dear Eric:-

Thank you very much for your letter of the 1st of April with reference to Rickard. I dare say I would know him if I saw his photograph but his name did not call up anything to my mind.

I was glad to learn lately that you had taken on with the Permanent Force. I hope you are happy in it and I know they are fortunate in having you as a colleague.

With all good wishes, I am,

Yours faithfully,

Sir Arthur Currie, G.C.M.G., K.C.B.,

Montreal.

Dear Sir Arthur:-

Colonel Robinson, the D. S. & T. O. of this district read a letter to me over the phone, written by you and addressed to General Bell, in which you asked if I could furnish any information about Mr. E. E. Rickard, late of the 10th Battalion. It was suggested, in view of the fact that your letter concerning him should reach its destination by the 7th instant, that I should write you direct.

My recollection of Rickard is that he was "an original" N. C. O.; that he received his commission immediately after the Ypres, (1915); show; acted as a Company Officer for a short period; (and, if I remember correctly, also, as Quartermaster.) He left the Battalion at "Plugstreet" and served the rest of the war period either in England or Canada. He would be, I think, about fifty years old now. My associations with him were very limited, but the impression he left with me is rather favourable and I feel sure you need have little hesitancy in recommending him.

With many kind regards, I am, Sir,

Yours faithfully,

Eric Mac Donald.

Brigadier-General A. H. Bell, C.M.G., D.S.O.,
G.O.C., M. D. No. 2,
Toronto, Ont.

My dear General:-

I am to-day in receipt of a letter from one E. E. Rickard who signs himself "Captain, late of the 10th Bn". He asks me to recommend him for a position and reminds me that he was a Sergeant-Major with the 10th Bn. and was promoted by myself in France.

I am sorry that I cannot recollect Rickard and it is too late to write to Dan Ormond at Regina. I believe Lieut.-Colonel Eric McDonald, D.S.O., has joined the permanent force and is now attached to the Army Service Corps in Toronto. If this is so will you send for Eric and ask him to give me a report on Rickard. He is now employed in the Customs Department at Calgary and is applying for a position as Investigator of Values in the Customs at Vancouver. He asks me to write to the Minister of Customs before April 7th, so if Eric can give me any information he must send it to me at once.

With all good wishes, I am,

Yours faithfully,

March 26. 25.

Dear Sir and Madam:

Dear Sir!

I am writing you indulgence for taking the liberty of seeking a pardon of you.

In the first place, I will explain who I am, and then the nature of my request.

I have no doubt, my name will have passed from your memory, taking into consideration the vast amount of men you were continually meeting; however, I will ask you to go back to May 1915, just after the second Battle of Ypres, I was then a Sgt Major in the 10th Battalion 2nd Brigade, and had the honor of being given my commission in the field, by yourself; an incident I shall never forget, together with the remarks you expressed at that time.

Before embarking for Africa, I was in the British for years, and worked in the Customs as a clerk, to which I returned on the expiration of the war. My prolonged absence naturally affected my chance of promotion, and now, I am still holding the same job as I did 10 years ago; now there is a chance of advancement as "Investigator of Values" at Vancouver, which position I am applying for, and very anxious to obtain; what I feel I need, is a recommendation from an extra influential source, and so I am writing

you to do, what I shall esteem a great favour, by writing the Hon Jacques Bureau, Minister of Customs and Excise, a letter, boosting me a little, I feel, men who have been soldiers, should receive a little preference, sometimes, and I am also certain, a good word or two from you just at this time, would help my chance of obtaining this position very materially.

I regret bothering you Sir, but hope you will be good enough to grant my request, by putting in a good word for me, and also ask you to please get the communication away without delay, as the applications close on April 7th, and will be dealt with, without delay.

Thanking you in anticipation.

I have the honour to remain

Your obedient servant.

My dear Sir Arthur:

I have received your letter of the 13th instant and enclosed extract from letter to you from Lieut. Roberts.

I quite appreciate Lieut. Roberts' desire to escape from the enervating climate of Wilmington, N.C., but if I were in his place I would not contemplate a change during the present time when climatic conditions are less disagreeable than they will be in the Spring. I am moved to this conclusion probably by the difficulty in placing a man of his experience in Canada in view of the pronounced commercial depression here. He suggests that he may be useful in connection with the University's affairs but as to this you will know better than I. In any event, he could not secure if he came to Canada anything better than a clerkship, and that, I do not suppose, would be attractive.

I have referred your letter to our Comptroller and have asked him to let me know if anything turns up which he could consistently recommend for Lieut. Roberts.

Dear Sir Arthur:

Knowing your keen interest in the welfare of those who have served under your command in France and Flanders, I am very anxious of meeting you and having the opportunity of trying to enlist your kind offices to assist me in being located in Canada, where I shall be under the British Flag.

Since I was struck off the strength of the C.E.F., in January 1919, I served throughout the period of demobilization, as Field Secretary under the direction of Professor W.D. Tait on the Advisory Council to Repatriation Committee, and I have been assured that my services in that capacity was a credit to myself and those who elected me to represent them in that work.

My qualifications are briefly as follows, - a graduate of the University of Wales with the degree of B.Sc., considered a thorough Accountant and Auditor, having served the British Government in that Capacity on Railways in South Africa and in Australia, besides having held other very important positions in Government and Civic life, in England and the overseas Dominions.

I am 44 years of age, have served through 3 campaigns, the Boer War, the Zulu Rebellion, and in the World-war from 1914 till I was invalided (after being gassed and wounded several times) in January 1919 from M.D.#6 (Halifax).

At present I am employed as Accountant and Assistant Treasurer to the Tide-Water-Power Company in this City, a very large public-utility corporation having Gas, Electric-power and Street Railways, I have the supervision of a large Office force and the care of the General Ledgers and Statements of the Company, but I am finding that with my disability, (which is above the average) that the enervating climate of the South is doing me more harm than good.

May I not therefore ask that you interest yourself on my behalf, it is just possible that you may require the services of a man of Education and with a world-wide knowledge of men as Bursar, or you might perhaps suggest my usefulness to some business-man needing a man with my qualifications.

I shall be very glad if you will refer to Professor W.D. Tait, General Dodds, and Colonel A.T. Ogilvie for any information regarding my personality and moral character.

Your kind consideration and reply at your convenience will be greatly appreciated,

Yours very truly

Edward Roberts

APPROVED BY THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA UNDER ORDER 162.
DATED MARCH 30, 1916.

It is agreed between the sender of the message on the face of this form and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeatable telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case the Company shall be liable for damages, suffered by the sender to an extent not exceeding \$200., due to the negligence of the Company in the transmission or delivery of the telegram.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz: one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers he acts for that purpose as the sender's agent; if by telephone the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

DAY LETTERS.

This Company will receive DAY LETTERS, to be transmitted at rates lower than its standard telegram rates, as follows: one and one-half times the ten-word Day message rate shall be charged for the transmission of fifty (50) words or less, and one-fifth of the initial rate for such fifty words shall be charged for each additional ten (10) words or less.

DAY LETTERS may be forwarded by the Telegraph Company as a deferred service and the transmission and delivery of such DAY LETTERS are, in all respects, subordinate to the priority of transmission and delivery of full-rate messages.

DAY LETTERS shall be written in plain English, or in French. Code language is not permitted.

DAY LETTERS may be delivered by the Telegraph Company by telephoning the same to the addresses, and such deliveries shall be a complete discharge of the obligation of the Telegraph Company to deliver.

APPROVED BY THE BOARD OF RAILWAY COMMISSIONERS FOR CANADA UNDER ORDER 162
DATED MARCH 30, 1916.

It is agreed between the sender of the message on the face of this form and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unreported telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case the Company shall be liable for damages, suffered by the sender to an extent not exceeding \$200., due to the negligence of the Company in the transmission or delivery of the telegram.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz: one per cent. for any distance not exceeding 1,000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers he acts for that purpose as the sender's agent; if by telephone the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

DAY LETTERS.

This Company will receive DAY LETTERS, to be transmitted at rates lower than its standard telegram rates, as follows: one and one-half times the ten-word Day message rate shall be charged for the transmission of fifty (50) words or less, and one-fifth of the initial rate for such fifty words shall be charged for each additional ten (10) words or less.

DAY LETTERS may be forwarded by the Telegraph Company as a deferred service and the transmission and delivery of such DAY LETTERS are, in all respects, subordinate to the priority of transmission and delivery of full-rate messages.

DAY LETTERS shall be written in plain English, or in French. Code language is not permitted.

DAY LETTERS may be delivered by the Telegraph Company by telephoning the same to the addresses, and such deliveries shall be a complete discharge of the obligation of the Telegraph Company to deliver.

General Sir Arthur W. Currie,

MONTREAL, QUE.

My dear General:

Your wire of the 24th inst. received on Christmas Day and I wish to express my thanks for your kind wishes. Will you accept the best wishes of Mrs. Oliver and myself for your future happiness and prosperity.

In respect to the position of Chief Engineer of Public Works, I shall forward your message to the Hon. the Minister for his consideration. It has been the policy of this Government that, other conditions being equal, there should be promotion in the service, and in discussing the position of Public Works Engineer with the Minister a few days ago, he advised me that he had three men in the service, any one of whom he thought would be competent to fill the position. However, your recommendation will receive very careful consideration.

I am,
Yours very truly,

My dear General:-

Your letter of the 24th of December addressed to the Honourable, the Premier regarding Mr. J. M. Rolston's application for the position of Chief Engineer, Public Works Department, has been referred to me for reply.

I would state that Mr. Rolston's application has been received and will be given consideration along with many others when the position is being filled. The filling of this position will in all probability be by promotion of one of the men already in the service.

I remain,

Yours truly,

Minister.

My dear Mr. Sandell:-

Let me acknowledge receipt of your letter of the 28th of last month.

I wish I could do something to help you get a congenial position but I know of no quarter in England where I have any particular influence. All my friends there were made during the war and were men in the Army. I do not suppose they would be of much value in helping you to get placed.

While I do not suppose there is nearly as much unemployment in Canada in proportion to our population as there is in England still we have had a great deal. I am told there is more unemployment this winter in Montreal than there has been since the war. We are continually looking for better times and hope that general prosperity is not far away. In the meantime there is a good deal of want and suffering.

I wish I could help you, Mr. Sandell, but I do not know just what I can do. I do not know who will be in charge of Canada's exhibition at Wembley. If I did and knew him I

would have no hesitation in asking him to help you.

Sir,

Once previously I took the liberty of writing you. It was about the time of my beloved old Colonel's death - in September 1918, & having just been repatriated from Germany I desired your influence to enable me to have another shot at the enemy & get my own back for frequent spells of solitary confinement.

Over six years later, when the 'summit & the shouting has died,' I am respectfully requesting you to pull one solitary wire on my behalf.

2
Early in 1920, you granted me an interview at your offices in Ottawa & promised me support when I was demobbed.

Shortly afterwards, I had a nervous breakdown & was incarcerated in a 'nut-factory' at Kingston. The authorities there took 3 weeks to discover I was sane, & transported me to England with no pension.

Your A. D. C. very kindly gave me a letter to the Canadian Commissioner, then Sir G. Perley, asking for an introduction to Lord Beaverbrook with a view to work. This did not materialise.

The time for bemoaning
the past is over, Sir, other-
wise I could fill these pages
detailing the bitter miseries
of unemployment. What
does matter most vitally to
my wife & me is the future.

I am now fit & prepared for
anything. There may be a
chance for me in connection
with Canada at Wembley, or
again there may be some
influential Canadian in
London who would assist
me to a job — not financially.
I can write for a living, or
speak in public, or do any
hard work requiring education.

sact, or muscle.

If by any possible chance,
Sir, you can put me in the
right direction to obtain any
brand of work, I should be
your lifelong debtor.

My army record was, in
it's way, as good as any.

I am, Sir,

You will perhaps remember me if I recall a little incident that happened between Brighton and London. I was driving your car one morning from the former to the latter city when the upper part of the windshield suddenly caved in, fortunately doing no other damage. I am writing this letter Sir, to see if you could possibly get me into McGill this fall on a five year medical course. I started a combined Arts and Science course at Queen's University but went overseas at the completion of my first year, in the spring of 1915. On my return last October I applied for admission to the faculty of Medicine but on acc.

Last winter I lived at the Chateau for seven weeks and again for four weeks in June and July this year. As far as I could observe this boy was active, attentive and polite. He still retains his military bearing and discipline.

He says that some of his friends have recently moved to Montreal and he would like to get a position here. He must give ten days notice before giving up his position in Ottawa. I wonder if there is anything that you can offer him.

Dear Sir:-

I have now received a reply from
The Soldier Settlement Board with reference to
your relations with them.

Apparently, the matter is now being
dealt with by the Department and your solicitors.
That being the case I do not think there is anything
that I can do. The Department inform me that their
records disclose that you were unable to make a
success of the farm largely on account of your
failure to cultivate properly the land, to your
habit of making unnecessary purchases, and to certain
other factors for which you yourself were to blame.
They claim that they have done everything possible
to assist you. They inform me that you were granted
the full amount of the loan permitted under the Act;
that your case received particular attention on the
part of the District Office officials, and that the
Head Office has on two occasions sent parcels of
clothing for the use of your family, and have also
expended a grant of \$100., for your benefit, which
they induced the Canadian Patriotic Fund to contribute.

In your letter to me you say that you
bought lots 46 and 47 in a certain district, con-
stituting 200 acres. The Board deny this and say
that it was always well understood by you that lots
46 and 47 comprised only 97 acres. They say that
your own application for the land led the District
Office to believe that certain other areas would be
given free to the Board, and that there was no
authority for this statement being made and that you
had never any right to expect more than the 97 acres.

J.B. Selby, Esq.

- 2 -

They also point out certain other irregularities on your part, mentioning that you sold some stock which you had no right to sell and bought other stock. However, as it has now become a matter of settlement by law between you and the Department, I think I had better let the case take care of itself.

I am sorry that you have been unfortunate in your efforts to get placed on land.

Yours faithfully,

The Soldier Settlement Board.

Office of the Chairman.

Canada.

OTTAWA, December 6th, 1921

Dear Sir:

I have your letter of the 29th ultimo, enclosing a letter from Mr. J. B. Selby, in which he complains of his relations with the Board.

In reply I may say that Mr. Selby's case had been taken up with us by his solicitors, and all the circumstances complained of were fully gone into by the Board. I enclose herewith a copy of our letter of October 17th last, addressed to Messrs. Chauvin, Meagher, Walker, Stewart & Crepeau, his solicitors, which sets forth our position in the matter.

I may add for your information, that according to our records this settler's inability to make a success of his farming enterprise was due largely to his failure properly to cultivate the land, to his habit of making unnecessary purchases, and to certain other factors contingent upon the settler himself. So far as the Board is concerned everything possible was done to assist the settler. The full amount of loan permitted by the Act was disbursed in his favour; his case received particular attention on the part of the District Office officials, and our Home Branch has, on two occasions, sent parcels of clothing for his family contributed by private individuals, and also expended a grant of \$100.00 for clothing given by the Canadian Patriotic Fund.

Yours truly,

A handwritten signature in cursive script that reads "John Barnett".

Chairman.

Sir Arthur Currie, G.C.B., G.C.M.G.,
Principal, McGill University,
MONTREAL, QUE.

- C O P Y -

OTTAWA, October 17th, 1921

Attention Mr. Meagher.

Gentlemen:

We have your letter of the 4th instant with further reference to the case of Mr. John B. Selby.

As pointed out in our letter of the 11th August, if any surplus will be realized on resale of the property which reverted to the Board pursuant to rescission proceedings, such surplus will be refunded to Mr. Selby on completion of adjustment operations. The Act provides also that should, instead of a surplus, a deficiency arise, that deficiency shall be paid by the settler to the Board which shall have a right of action against him therefor.

You now bring to the attention of the Board certain additional considerations which, in your opinion, should be taken into account in dealing with Mr. Selby's case, namely, (a) that agreement for sale of land to Mr. Selby calls for 200 acres and that having acquired stock which he could feed from 200 acres, he lost certain animals from starvation, inasmuch as he secured possession of 97 acres only, and (b) that pursuant to rescission proceedings certain stock and equipment was seized by the Board which Mr. Selby purchased with his own money.

In consideration of the above you request that in addition to refunding Mr. Selby whatever he paid on account of the land, the Board should, (a) return to Mr. Selby the amount of cash he had paid for the animals, and (b) immediately pay him for such work as he has done on the farm.

In so far as the discrepancy in acreage is concerned, we would point out that the agreement only calls for Lots 46 and 47 and the area of these lots is about 97 acres. Mr. Selby's own application led the District Office to believe that certain timbered area will be given free to the Board. In his application he states: "There is 100 acres timber 'Canon land' which will be given with the land." As Mr. Selby conducted the preliminary negotiations with the vendor and was familiar with the land and the circumstances surrounding the purchase, he should have known that the vendor was not in a position to give clear title to the Board for the timbered area. Furthermore, this additional area is reported to be mostly all covered with scrub and dead trees and is $\frac{1}{4}$ of a mile from the farm which was sold to Mr. Selby by the Board. It is of no value for any other purpose other than cutting fire wood and could have been of no assistance to Mr. Selby as far as feed situation was concerned. The information on our files points to the fact that certain loss of stock which occurred was

(due to disease)

due to disease caused by the settler's lack of proper attention to his stock.

As far as your statement is concerned that the Board sold certain livestock and equipment which was purchased by Mr. Selby's own money and that Mr. Selby holds receipts for purchases made, it appears that Mr. Selby on several occasions sold stock which he purchased from the Board under agreement for sale and which he had no right to dispose of. With the proceeds he apparently bought other stock, but a number of animals have not been replaced. Our file does not contain full particulars in this regard, but we are having the matter investigated with a view to taking further proceedings against Mr. Selby.

Yours truly,

Sir,-

I regret to have to bring to your notice the way I have been treated by the Soldiers' Settlement Board in connection with a farm I purchased from them on the 15th day of Nov. 1919 at Conception, County of Labelle.

After having three farms turned down by the Appraisers for some reasons unknown to me, I wrote them a letter stating that it was impossible for me to proceed to look after any more farms, as I had not got the means to do so, as I had a small family, six in number, which I am proud to say all born under the Colours of the Union Jack. I further told them that I was quite willing to take over one of these farms that had been pass by the Government to save me any further trouble, as this is how I was treated at the finish.

Sir, I signed the deeds to purchase a farm located at Conception in the County of Labelle and the Township of C Parts Lots 46 and 47, constituting 200 acres, with stock included for the price of six thousand dollars - Land \$4,800, stock \$1,200 - \$6,000. in all.

After me taking possession of the said place on the 18th day of Nov. 1919 I was unable to tell what sort of land I had bought. But in the Spring of 1920, the first thing I did was to look round my line fences. After doing so I failed to find the amount of land by half that I agreed for on my Agreements. I reported the matter to the S.S.B., Ottawa, and they failed to look into the matter for me until Dec. 1920, and they then sent an Appraiser down from Ottawa to take the measurement of the land and he found only 97 acres, leaving a difference of 103 acres

short. I had renewed all the stock that was on the place, replacing them by first class stock that I paid as high as 80 dollars per head. I bought four horses, ranging from \$150. to \$200. Owing to the shortage of land it was impossible for me to grow $\frac{1}{4}$ enough feed for my stock for the winter as what land I had got was covered in pine stumps. I had to purchase feed for my stock the best way I could, and I did so until I had not got one cent in the house to live on. I reported the matter to the S.S.B. and applied for a loan to purchase feed for them, and I was refused and told that I would have to get feed out of my private funds. It was impossible for me to do so. During the winter I had very hard luck with my stock. I had three of my horses died, 2 two year old cows, 1 bull calf 5 pigs and about 40 heads of hens, all within a month.

The S.P.C.A. Inspector got to hear of my case and they paid me a visit, finding me in a very bad state for food in the house for my family and feed for my stock. They at once reported the matter to the S.S.B. Toronto and they at once sent down an Appraiser to my place and gave me 7 days notice that they were going to sell me up on the 3rd day of February 1921, after me spending every cent I could get in clearing land for my use the coming year. After buying about \$150. dynamite to blast up the pine stumps and leaving me centless after the stock and implements were sold. They left me on the farm without one cent to live on with a family of little children. So, on the 15th day of Feb. I proceeded to Montreal and put the matter in front of Mr. J. J. Meagher, Advocate, 232 St. James St. and left the case for him to go through with it as I am trying for nothing but my rights. The expenses that I paid whilst on the farm and my wages for every day I worked on the farm, that totals \$4,000 Dollars. But they seem as if they will do nothing at all in the matter for me. I am out of employment at the present time, not knowing where the next bit of food is coming from for my family.

Sir, I would thank you very much regarding this case as I have in my possession all documents to prove that that land was sold to me on misrepresentation and I fully intended to fight the case through.

Thanking you for an early reply and if it is possible I could tell you more if I could get an interview with you.

I have the honour to be

Sir

TO WHOM IT MAY CONCERN:

I have much pleasure in stating that the bearer, Major Wendell B. Shaw, has been well known to me for many years. Before the opening of the Great War in 1914 we were citizens of Victoria, British Columbia, engaged in the same kind of business and associated together in the same regiment of Militia. Knowing him as I did it was no surprise to me that he volunteered for service at the outbreak of the war and left Victoria with the first contingent from that city. He was a very valuable officer disclosing qualities of devotion to duty, courage and determination of the highest order. He steadily won promotion in the field until the time he was severely wounded.

I can sincerely testify that he is a man of ability, of loyalty and capacity to get along well with others. He deserves to succeed and I most cordially commend him.

Yours faithfully,

Dear General Currie -

I beg to thank you
for your letter received a fortnight ago.
It was very good of you to reply so
promptly.

I have finally decided to go to California
for a while and try my luck - much as
I do like doing so.

Would you mind writing ~~for~~ me a
few lines that might help me in finding
a position? If so, I shall ~~rep~~ greatly
appreciate your kindness.

Mrs. Shaw joins me in kind regards to
Lady Currie and yourself.

My dear Wendell:-

This will acknowledge receipt
of your letter of the 30th of March.

In one way I am sorry to hear of
your going to California, but I hope your loss
to Canada is but a temporary one. Too many
Canadians are finding it to their advantage to
cross the line. It is a great pity that con-
ditions in Canada are not prosperous enough to
keep them here.

I have much pleasure in attaching
herewith a memorandum which I hope may be of
some service to you.

My wife, who has always been
greatly interested in your plans, joins me in
all good wishes to Mrs. Shaw and yourself.

Yours faithfully,

My dear Wendell:-

The delay in answering your letter of January 26th has not been due to indifference on my part at all. I should have acknowledged your letter at once, but I hoped that I might be able to find something congenial to you and which would be worth your while accepting. It would have been so much nicer to have told you that when answering your letter.

I am sorry I cannot give you that good news or much encouragement of any kind. Business on the whole in Canada is improving, but very slowly. Business men tell me that there is little occasion to add to their staffs and, personally, I believe that you are better off at the coast than here, Montreal being, I consider a more expensive place in which to live than Vancouver or Victoria, while your climate is not at all to be despised. I do not mind the cold so much, nor has the heat been particularly excessive, but the winters are very, very long and we have practically no spring at all. I consider that the improvement in business will be just as great in Vancouver as anywhere else.

I should be sorry to see you go to California. Too many tens of thousands of the young men of Canada have gone to the States, where they are welcome and usually succeed. The necessity for increased immigration in Canada is probably the most pressing matter of the hour and closely connected with that is the desirability of keeping Canadians at home.

Wendell B. Shaw, Esq., - 2 -

It is really too bad that a country as rich naturally as ours is has so failed to hold her young men. In the last ten years, I believe, we have lost a number greater than those who came in by immigration. That is much too high a percentage and the loss is very severely felt. However, a man must make a living and nobody can blame him for going to the place which best suits him.

I am sorry your health has been so indifferent and I most sincerely hope that in time you grow completely out of your disability. The war took out of most of us a great deal more than appears on the surface. It is hard enough to re-establish oneself at any time, but to suffer from indifferent health at the same time is to be doubly handicapped.

I am very grateful, Wendell, for the staunchness of your friendship. I have always been fully aware of that and believe that as time goes on and things are better understood you will have the continued satisfaction of not having put your money on the wrong horse. I was very glad to see you all last Fall, though sorry that my time in Victoria was so very short. I hear good reports of the old regiment.

I most sincerely wish you the best of good fortune and am sorry that I cannot help in a positive way. I know, though, that you will stick to it and I believe that all will come right again. My wife and sister join me in most cordially reciprocating your good wishes and we would like to be kindly remembered to Mrs. Shaw.

Dear General Currie:

I wrote you a fortnight ago a rather ambiguous letter which I have since regretted having written, - as I should not have bothered you.

I mentioned that I would not likely see ^{you} for some time, which was a rather ambiguous statement in view of my request for ~~for~~ you to look out for a job for me. The fact of the matter was, that I wrote you on impulse, having ~~previously~~ previously made up my mind to go to California. I did not have much confidence in being able to obtain a job in the East - even when I wrote you; as I realize that conditions are bad throughout Canada.

I intend to go to the States if I can dispose of my business. Otherwise I may have to remain on for a time.

I regret very much having bothered you - realizing as I do, that your time is very fully occupied.

Yours faithfully,

OUR FILE NO.....

Gen Sir Arthur Currie,

Montreal, Quebec.

Dear General Currie:-

It occurred to me that you might be able to advise me, and I am taking the liberty of bothering you.

I have tried hard to re-establish my business since the war, but what with a lot of ill-health and the general depression I find myself quite unable to do so. My health is just about all right since the new year, but I have suffered so financially trying to expand my business that I must take some action without delay, -- having dropped considerable money and property during and subsequent to the war. You see I am expressing myself plainly.

The only thing I can see (this is of course very confidential) is to go to the States and start all over again, pay off liabilities, etc- which I have incurred in the belief that things conditions would have improved. Unfortunately I got ill last year, and while able to walk about most of the time, I have not been able to give attention to business.

I have always been fairly successful with administrative work of different kinds, and it occurred to me that ^{if aught} there ^{be a} friend of yours at Ottawa or elsewhere who would be able to place me. I am willing to go anywhere. Of course I fully realize that jobs of \$250. or \$300. a mo are not easily found just now, but I thought it would do no harm to write you, and I felt certain you would not mind me writing you on the subject. * You do not need any boosting of course as History will record your great achievements, but I do not hesitate to say that no person in Canada has more enthusiastically boosted you at all times, and than has myself. I say this now because the need for boosting (excuse the word) has disappeared but there was a lot of backbiting subsequent to the war. You had many loyal friends here, but there were some who because of your success were anxious to pick flaws.

I know quite well that referring to the above is not necessary to secure your assistance, but inasmuch as I plan on going to the States very shortly if something does not turn up (that has some promise to it), it is ~~probably~~ very probable that I will not see you again. I therefore referred to the above, so that you might know that from the day you first offered me a commission in the Fifth, I have always been one of your greatest admirers. It is

no extravagance to say that I have admired you more than any man I ever knew. Not having received any decorations, the only satisfaction I have is that in one or two of your letters to Victorians during the war, you kindly mentioned me.

Having perused the letter thus far ^{may} you will be inclined to throw it in the waste basket, as being rather flat and mushy. However, I hope you will read it as I mean it to be read - as an expression of my deep personal regard.

To return to the matter of a job, (or advice as the case may be) I do not wish you to go to a lot of trouble. Just drop me a line if you find time and I will greatly appreciate it. I can if necessary go to Los Angeles (where my brother is) but I wish to stay under the old flag if it is possible.

Give my regards to Lady Currie and to your sister.

Yours faithfully,

Wendell Shaw

My dear Sir Arthur:-

I have your letter of 31st January, in reference to Mr. W. C. Smith of Kamloops.

Mr. Smith is at the present time in the service as a trainman out of Kamloops and it is the intention, at his request, as soon as business increases, to make him yardmaster at either North Bend or Coquitlam, which arrangement he is satisfied with. Of course, on account of the unfortunate slump in business, he may not be doing very much work at present and it may be sometime before above mentioned arrangement can be carried out.

It might be possible that Mr. Kelley could do something for him, but, under present conditions, I very much doubt it. However, I would have no objection whatever to give him a letter of recommendation, should you wish it.

Yours very truly,

Dear Sir:-

You probably remember Mr. W. C. Smith of Kamloops, B.C. I believe you expressed yourself as willing to reinstate him in your service, giving him his previous seniority, on condition that the employees of his division were agreeable.

I am informed that they were not agreeable and that, apparently, nothing further could be done. Mr. Smith was a member of my old regiment in Victoria at one time and also served Overseas. Apparently, he would like to return to the employ of the C.P.R. and feels that his four years' service Overseas has spoiled his chances for promotion. He seemed to have the necessary qualifications for a good position, as far as I can remember, and you are in a better position to judge of his loyalty and experience, his initiative and executive ability.

Is there anything that you can do for him? If a place can not be found for him with the C.P.R., is he a man whom you could recommend to Mr. Kelley?

I apologize for troubling you, but I believe that the circumstances of this man's family are such that it would mean a great deal to them if he were to get a permanent position.

Ever yours faithfully,

Dear Genl Currie

In reference to previous
correspondence in regards to my seniority
standing & your kindly efforts in my behalf
with Mr. Grant Hall I can fully appreciate
the spirit shown by Mr. Hall in being willing
to re-estate me in my previous seniority
standing on the condition that the employees
of my division were agreeable, this I am
sorry to say was not obtainable by one class
of employees through selfish & narrow
minded motives.

Taking into consideration
the kindly interview Mr. Hall gave me
when I called at his office on my return
from Overseas & his willingness to re-

instigate me later I do not feel inclined to go any further in the affair as I can fully realize the feeling it would create with the employees effected.

Previous to my proceeding Overseas I was acting as relieving yard master on this division & was naturally in line for promotion to a permanent appointment & would of secured one of the two positions created during my four years absence overseas, but on returning I was unfortunate enough to find a changed staff of local officials on my division who did not recognize or at least did not feel disposed to give me my natural promotion as yard master.

In recognition of my long service with the company in addition to my excellent overseas record I feel as if my life & service has really gained me little & my four years service spoiled my

chances for promotion in civil
occupation

On such a large system
as the Canadian Pacific available
material is always required and
sought for in the rank & file to
fill official & semi-official posit-
ions such as Trainmasters
yardmasters & etc. & Loyalty ex-
perience initiative & executive
ability are the necessary qualifications
required in making the selection
for these appointments.

I have all of these
coupled with the educational
qualifications having graduated
from Upper Canada College Toronto

Owing to your willingness
& the interest you have taken in
my behalf in the past & being a
member of your old militia
unit for many years in ad-
dition to serving under your
command in France, I feel as
if you could help me secure one

of these positions with the C. P. R.
if at your convenience you
could have an interview
with Mr. Grant Hall.

I am not particular
to what division I may re-
ceive an appointment & I
would be willing to present
myself at any time for an inter-
view.

In the event of the
C. P. R. not having any to offer
I would gladly go to the Can.
National or proceed to India
with Genl. Stewart if anything
can be done in that direction.

I hope you will pardon me
for taking up your time but I am
really deserving & it means every-
thing to myself & family.

I have the honour to
remain your obedient

It has been suggested that you would be able to supply some useful information regarding his fitness to farm and his agricultural experience.

I am enclosing an addressed and stamped envelope for your reply and would greatly appreciate your writing me confidentially, stating whether or not you consider the applicant is generally fitted to engage in farming and if in your opinion he would be likely to make a success of the operation of a farm of his own.

Dear Sir,-

I have the honour to apply herewith for the position of Immigration Agent in the United Kingdom.

I am a Canadian by birth, but have lived in England and have finished my education there, so am very familiar with English customs, and methods of doing business, and feel that I am able to judge the prospective Immigrant who wishes to try his luck elsewhere. My army experience has taught me to be a good judge of character, and to my mind, the very best experience to be able to judge a true man.

Please allow me to state that I served with the Overseas Military Forces of Canada since June, 1915. My Battalion was broken up in England and was given the chance to revert from my rank of Major to that of Lieutenant, to proceed to France. I was promoted in France to that of Captain, and later to that of Major, and may say that I am now confirmed in my rank. I have a Victory Medal, General Service Medal, Colonial Auxilliary Decoration and the Croix du Guerre. I have also lost a leg and am also somewhat crooked in the other, and in receipt of about 50% disability.

I have had my application before the Civil Service Commission for some time, but have not obtained results, and therefore, you will please pardon me for taking the liberty of getting into communication with you direct.

Mr. Gregg of the Massey Harris Company is interested on my behalf, also Mr. Foran has some letters of recommendation, which I trust will be considered.

If the facts are as stated in the

If one boldly makes trouble over this Thomason may

partly disabled soldiers, and the article just described my
own case.

Just more than a year ago, I was appointed Lock Master
on the Welland Canal in Port Colborne. I had interviewed
Major Bell, Deputy Minister of Railways & Canals in Ottawa,
previous to my appointment who told me that he would investigate
the case & finally I was given the appointment.

During the war Mr. B. Steele, a wealthy retired farmer
got a position on the Lock here in Port Colborne. The former
lock master was promoted last year, and Mr. Steele expected
to get the Lock Master's position as he worked on the Lock
before I did. Instead I was appointed after a thorough
investigation. I might here mention that I received a gun
shot wound in the left arm, and have only the use of
the little finger on the left hand.

A few weeks ago I was reduced from Lock Master to
seasonal Lock Master, which means that I am idle four
months in the year and as I am in the prime of life I ought to
be saving for my old age. My disability prevents me from carrying
out my own occupation namely that of farming.

Mr. Steele was put in my place, although Mr. Haran,
Superintendent of the Welland Canal assured me that my
services as Lock Master had been entirely satisfactory, but

that a mistake was made when I was appointed, and that Mr. Steele should have been appointed as he was senior man after my interview with Major Bell. I know no mistake was made, but Mr. Steele and his friends used all the influence possible to have me reduced and they managed it, although he is a wealthy retired farmer, sixty six years of age and old enough to be superannuated.

For his services for the government during the war he received four dollars per day and was in a safe place and I only received \$1.10 per day and that was overseas. He has an enlarged bank account to show for his services and I have a crippled arm.

Had I not been capable of doing my duty as Lock Master the blow would not have been so hard. The people here feel a great injustice has been done in my case, as it is influence only which has robbed me of my permanent position as lock master.

If promotion in the civil service goes by seniority I am sure my services for the country at the time Mr. Steele was placed on the dock here, were equally as important as his.

Hoping I have not trespassed too long on your valuable time, but trusting to let you see the injustice meted out by the government as well as by private employers.

I remain Sir,

Your obedient servant,

Wm. Thomason.

Sir,

I am in receipt of your kind letter of June 22nd and appreciate it very much indeed.

I don't see how any action you might take could result in my dismissal as both Major Bell of Ottawa and Mr. Hara, Superintendent of the Welland Canal at St. Catharines have written that my services as Lock-master were entirely satisfactory. The leading citizens of Port Colborne are also in sympathy with me.

I know you will move diplomatically and I have every confidence in you, as we all had overseas. Thanking you very much indeed for the interest you are taking in me.

My dear Colonel:-

I acknowledge receipt of your letter of the 4th instant, transmitting to me, upon request from Sir Arthur Currie, a letter from William Thomason, Port Colborne, returned man, asking for employment during the winter.

Thomason, who is employed during navigation season on Welland Canal staff as lock motorman, has, for some time, held a grievance against the Department on account of having been demoted from a position of lockmaster, to which he had been promoted by mistake, back to his original position as lock motorman. Thomason's attitude is unwarranted as fully explained in the correspondence herewith annexed.

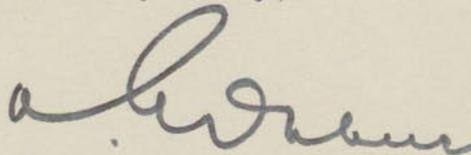

As a seasonal employee, he ceased employment with the closing of the Canal in the middle of December last, and under normal conditions should not be employed until the reopening of navigation in the middle of April next. It is extremely difficult to find employment during the winter months, for such seasonal employees, as nearly all our works are then closed and only skeleton staffs kept.

I am enquiring.....

I am enquiring though, from the local Superintending Engineer, if some temporary job cannot be found for Thomason pending the reopening of navigation.

I return herewith Thomason's letter and, with kindest regards to Sir Arthur and yourself, beg to remain,

Yours very truly,

June 13th 1925.

Dear Sir,-

I beg to acknowledge receipt of your communication of the 8th instant, with regard to Mr. Wm. Thomason of the staff of the Welland Canal at Port Colborne.

I quite agree with you that Mr. Thomason's services, during his incumbency of the position of Lockmaster and Canal Patrolman, was entirely satisfactory and the Department has no complaint whatever to make regarding the same. However, his appointment as such was based upon an erroneous recommendation, the Superintending Engineer having overlooked the fact that Mr. M.E. Steele was entitled to the position in question. The latter was a Lockmaster, while Mr. Thomason held a position junior to him, that of Lock Motorman. In addition, Steele had a greater length of service than Thomason and therefore was entitled to the promotion. When these facts were brought to the attention of the Department the matter was taken up with the Civil Service Commission and to remedy the injustice which had been done Mr. Steele it was arranged to place the latter in the senior position to which his rank and service entitled him and for the granting of his seasonal Lockmaster position to Mr. Thomason.

With regard to your reference to Mr. Thomason being a returned soldier, I would point out that the preference extended to returned soldiers does not apply in cases of promotion, but only in those of initial appointments to the Service.

With the above explanation, I trust that you will readily see that there has been no injustice done Mr. Thomason but that, on the contrary, we have done only an act of justice in granting to Mr. Steele the position to which he was rightly entitled in the first place.

Yours faithfully,

(S) G. A. Bell.

Honourable Sir:-

I take the liberty to write you in the interests of one of my townsmen and a member of my church who, some time ago, was notified to relinquish the position he held for one year as Lock Master and Canal Patrolman of Port Colborne Lock. During the time in which Mr. W. Thomason held this appointment he carried out his duties acceptably and well - there was no complaint I understand. The gentleman to whom the post has now been given is now due for superannuation and is in much better circumstances than Mr. Thomason, who served his Country faithfully during the Great War and, as a result of which, is now permanently injured and therefore unable to do more laborious and strenuous work.

Mr. Thomason is much respected in this community and is an intelligent earnest industrious government servant. Anxious to get along during these years while health remains with him, Mr. Thomason built a home in Port Colborne and is endeavouring to pay for it. On the small salary he is receiving I know not how he can manage this. It seems hard that he should be set aside in this fashion, and I think in all justice to a returned man something should be done towards his reinstatement or provision in some way be made for the loss in salary to which he is now subjected.

There is, I understand, a salary attached to oversight of the Water Gauge. Would it not be possible for him to be given this duty?

I write asking your interest and help on behalf of Mr. Thomason because I have heard oftentime of your sound sense of justice and your unfailing demand for fair play for those who have done and suffered so much for our country and Empire throughout the trying years of war.

Yours most respectfully,

Dear Sir Arthur,-

I personally interviewed the S.C.R. people here today with reference to the poor blind chap, E.J. Turner of the 29th Battalion.

The policy of the Department appears to be that where the treatment or training can be effectively carried out in Canada, transportation to England is not provided. Turner's case has been dealt with recently, and he has been informed that if he so wishes, he will be sent to Pearson Hall (Blind Institute) Toronto, where he will be given the special training in Swedish Remedial Exercises and Medical Electricity which he desires. Captain Baker, referred to in the last paragraph of Turner's letter, has been intructed by the Department of S.C.R. to make all the necessary arrangements.

In my opinion the Departmental officials are entirely sympathetic as to granting his request to be allowed to complete his training, and state emphatically that the training he will get in Toronto will be up to date in every way.

I return Turner's letter as requested, and with very kind regards, ~~z~~ remain,

To General Sir Arthur Currie,

Dear Sir,

I hope you will pardon the liberty I am taking in writing to ask for your kindly assistance to get transportation to England for myself and escort, if after hearing my case, which I will put before you as well as I can you think that my application is entitled to favourable consideration.

I applied by letter yesterday to the Officer in charge Transportation S. C. R. Ottawa for transportation to England for myself and escort for the purpose of finishing my training as a masseur at St. Dunstan's hostel for blinded sailors and soldiers.

I went over-seas with the 29th. Battalion, was totally blinded at Courcellet in 1916, on leaving hospital I was sent to St. Dunstan's where I received training as a masseur, and returned to Canada in September 1918. I worked as masseur in Vancouver Military and S. C. R. hospitals from January 20th. 1919. till June 1922, with the exception of six weeks after the fire at Shaughnessy hospital in September 1919.

The training I received at St. Dunstan' was in massage only, shortly after I left Swedish Remedial Exercises and Medical Electricity were added to the masseurs course as experience showed these to be most necessary in either private or hospital practices.

Of all the Canadian blinded soldiers trained as masseurs at St. Dunstan one other besides myself did not receive S. R. E. or M. E. as he also left before these subjects were added to the course, and one

other who took S. R. E. in England and was trained in M. E. after returning to Canada. The first man has long since given up massage this leaves me as I believe the only blinded soldier masseur masseur without a complete training In saying this I mean that I am the only one out of the number trained in England, of the few who were trained later in Toronto I am not sure but believe they were given the full course the lack of S. R. E. and E. M. certificates are a severe handicap to either hospital or private work and it is to get training in these branches and obtain certificates that I wish to return to England.

In 1917 several Blinded soldiers were sent back from Canada to St. D Dunstan's for training in various lines of work and I am hoping that the government will now do as much for me.

During the last four months I have written four times to Captain Baker, General Secretary, National Institute for the Blind Toronto. asking for his assistance to obtain my transportation, but so far I have not been able to get anything definite from him with regard to Ottawa's decision as to my application, and as I have lately been advised by St. Dunstan's Secretary that to get the training I desire I must be there before the last massage course which is now in progress is finished, I am anxious if it is possible to get over while there is still an opportunity to finish training.

If after consideration of the facts given you can see your way clear to use your influence on my behalf I shall be very grateful.

I remain, Sir Arthur,

Yours respectfully,

E. J. Turner.

My dear Mr. Turner:-

I know you will think that I have taken a very long time to answer your letter of February 23rd, but I have been in communication with the Militia Department and with the S.C.R. at Ottawa.

The latter organization claim that the training you require can be as effectively carried on in Canada as in England and that under the circumstances they will not provide transportation to England. They tell me that they have offered to give you the training you seek at Pearson Hall, Toronto. I may say that I found the Departmental officials entirely sympathetic to you. They are also emphatic in their statement that the training you will receive in Toronto will be up-to-date in every way. I sincerely hope that such proves to be the case and that you will accept the offer of the Department.

Dear Mr. Warren:-

With further reference to your letter of the 19th instant, let me say that this morning I saw Mr. Cape, whose firm is putting up the additions to our buildings. Naturally, it is only on these jobs that I have any particular influence in getting men employment. Mr. Cape told me that you had worked for him here a short time ago, but that you had given up. He said that you had given every satisfaction and that he was sorry to see you leave.

Personally, I am sorry too, because at this particular juncture when jobs are so very, very scarce, it seems to me that a man ought to try and get along as well as he could in any sort of work that offers. I feel that a man like yourself who won his way to Sergeant's rank, could soon prove to a firm like the Cape Company that he was a valuable man. I believe that had you stuck with them you would have made for yourself, most likely, a permanent position. I do not know but what, if I were you, I would again take up the work.

Let me assure you, Mr. Warren, that it is going to be very hard indeed this winter for all our fellows to get work at all. If I were out of work I would be delighted to get on with the Cape Company. They are one of the busiest contracting firms in this city. The head of it, Major Cape,

R. Warren, Esq., - 2 -

is always most kindly disposed toward returned men. I do not think any other firm in Montreal is more likely to be busy, not only all winter but far into the future, than Cape's firm. I would suggest that you see him again and say that you would like to go back to work with him.

Warren left Canada with the 38th and, with the exception of about six months' absence ~~from~~ duty, served with the Battalion until its return to Canada in June 1919. His record was one of faithful service throughout. He enjoyed the confidence both of his senior officers and the men under him. Dear Sir Arthur;

I am afraid that you will think I am a bit of a nuisance, but this time I am writing you on behalf of a chap whom you may remember, Major T.H. Warren, who served with the 38th Battalion all the time it was in France, coming over as a reinforcement Platoon Commander and doing good work all the time.

Major Warren has made application to the Ontario Government for the position of Superintendent of Rondeau Park and his friends are very anxious to see him get it. Although not a casualty during the war, Major Warren had a complete nervous breakdown on his discharge, and had to take up farming as an occupation. This, as is the case with many city men, did not prove very remunerative and, since he gave up farming a couple of years ago, he has been engaged in some brokerage business in grain and vegetables. The firm by whom he was employed are now going out of business.

For your information I may say that I understand Major Warren has rendered yeoman service to the political party now in *power* in Ontario. Knowing your desire at all times to do anything you can to assist those who served under you to become well settled in civil life, I am taking the liberty of laying all this before you in the hope that you will write a letter to the Hon. W.S. Finlayson, Minister of Lands and Forests in Ontario, urging the appointment of Major Warren as Superintendent of Rondeau Park.

Believe me, Sir,

Yours very sincerely,

K. A. Greene.

General Sir Arthur Currie. G. C. B.

Canada.

Dear Sir

I delayed sending you this letter, hoping I might be able to secure some good opening without having to trespass on your valuable time, but find I am merely drifting, without anything definite on the horizon. I therefore have decided to request your assistance in helping me secure a position as Canadian Trade Commissioner, or any other opening that requires tact - commonsense - integrity & fearlessness. Do I attach brief particulars of my career, having in view the possibilities of an opening as Trade Commissioner or any special commercial mission that requires commonsense and judgment. I crave your indulgence.

regarding the apparent bulkiness of this letter.

My record in France I have stated very briefly, but I feel I must take this opportunity to state, that in France I volunteered for everything in sight, and never fell down. The last smash up I had in France ended up with a Board declaring me permanently unfit at home and abroad. (through wounds) That is how I managed to get with Col Gardner at Deaford, in order to save me from being sent back.

Like many others I could relate incident after incident in France, which never came to light, for instance although not in command of a company I have both taken and also had handed over to me the command of a company when apparently in a tight corner, also the last time I was wounded, June 3rd 1916 although not in command of the Company I took charge of the Rear of the Coy whilst going across to join the Bn, and in that position, most certainly stopped

a retirement of the Company, at a critical time, due to repeated false orders, and when the Bn counter-attacked I changed around & was leading the Company, when smashed up - Briefly in France I did all that was humanely possible.

Now as regards the Business side.

I was the youngest of a large family My father died when I was 2 years old.

Owing to being the youngest I had to start commerce at the age of 16.

Joined a firm Manfg Jams, Jellies, Preserves, Chocolate, Confy &c (They were family connections & I was eventually to become partner) Put one year in the Office - half a year in Factory, and then Travelled for them in various parts of Gt Britain - Received a very thorough training & experience - Came to Canada - put in 9 months at Farming Owed the Seed & ~~remained~~ remained until the harvest was gathered and the crops Sold & Money Collected. (Valuable Experience)

Did not continue farming because I hadn't

sufficient money to buy a farm & I did not consider my earlier training fitted me for a Homestead miles away from everybody - My farming was done at Fleming in the old province of Assinboia. Went to Winnipeg - Immediately joined Bulman Brothers Lithographers & Printers, and travelled for them for two years, covering the territory from Port Arthur to Victoria. Received a very much better offer from a Chocolate & Cocoa concern who were putting a factory in Montreal - Joined the Walter M Lowney Co of Montreal Chocolate & Cocoa & was given the territory from Port Arthur to Victoria - Opened up Western Canada for them - remained with them for some years & during which time I was the star salesman for them - For very excellent reasons after a few years I left them, went to Europe & secured Agencies & started up for myself as Manufacturers Agent & continued up to the time War ~~Break~~ was imminent & immediately on declaration of War, I being single and

born in Devonshire, England, enlisted -
Joined the 7th Bn, in which Battalion at
the start I knew neither officers or man,
but at the finish, both those who had
given their lives & those who remained to
tell the tale, were my real friends -

Until the War was over I stayed with
the C. E. F. & remained as close to the
fighting line as I could get -

On return my business had departed -
Instead of remuneration - obligations had
to be met - And I was never offered
a position nor yet given an opportunity -
I migrated to the U. S. A. joined the
Lavoris Chemical Co Minneapolis Minn USA,
with the understanding that I was to
proceed to Europe & place their line on
the market there - Through the unrest
in Europe - this was delayed, and delayed.
I covered Minnesota, N Dakota, S. Dakota,
Wisconsin, Michigan, N Y State, Ohio,
Pennsylvania, Kentucky &c calling on
D.D.S.' MD's Who & Retail Druggists
&c &c, an altogether new thing for me

I made a complete success of it -
However I could get nothing definite
as regards going to Europe & also in
my heart of hearts I had no inclination
or desire to be the means of putting an
American Line on the market.

The Union Jack is good enough for
me, so on Decr 31st, I severed connection
with the Lawrie Chemical Co, (who in spite
of my being too British for them, would
give me the highest possible testimonial)
and arrived in Montreal the latter
part of January this year -

I am to an extent crippled - But
Not for Commerce, so once more I arrive
in Canada, to see if a man who has
given ~~five~~ years of his prime to Canada
& the Empire, cannot find some niche
that will give him the opportunity to
remain ~~in~~ under the Union Jack -
I have never failed in Commerce &
have never failed in the C. E. F.
In Canada - Gt Britain & the
U S A I have been in daily touch

with the different branches of Commerce
Every branch of industry & every
branch of commerce, also in close
touch with different commercial
representatives of the various countries.
All I ask is the opportunity.

I have never been in Politics - Today
& through my life I have a tendency
towards what I call the Sane
Liberal Party -

I have recently moved into this
Flat, it being cheaper than an Hotel,
and have not yet, a telephone
installed -

This possibly is too lengthy an epistle,
but I wished to give you details,
possibly Sir I may have the
privilege of another interview -
In closing I would state that the
Union Jack is good enough for me, &
if tomorrow War was declared & I had
no legs at all, Yet, would I volunteer.
I am Sir
Yours very faithfully

CANADA BEHIND IN ADVERTISING

**Dominion Publicity Commissioner in New York Urged
More Propaganda Work**

COMMENDED VISE FEES

**Trade Representatives Too
Few, Poorly Equipped and
Not Adequately Trained,
Said Col. Cooper**

A strong argument was made by Col. John A. Cooper, of Toronto, before the Montreal Publicity Association, yesterday, that Canada, while it had greater potentialities than almost any part of the Empire for foreign trade, was the least advertised dominion of the Empire, with the poorest representation in trade commissioners, both in numbers and in their general individual capacity for making the Dominion known and getting trade for Canada. In fact, he went further, and showed that even in our own country there was little propaganda work to make known what we ourselves had. He argued that Canada ought to have at least 500 trade commissioners abroad, and that the system should be adopted of using the fee system for vising invoices of goods, at \$2.50 fee for every invoice over \$100, as was being used by the United States and most other countries. In this way, he claimed, the trade commission system could not only be made self-supporting, but leave a balance for the Government, which was the case with the United States. Some members asked Col. Cooper if the Publicity Association could do anything to assist in getting a better trade commissioners representation abroad, and he replied that the first thing to do would be to persuade the Montreal Board of Trade, with its strong influence, to withdraw its opposition to the system of charging fees for the vising of invoices on goods coming to Canada. Their opposition, he said, had been made on the ground that such a system would add further taxation to foreign trade, but his opinion was that the benefits to be derived would far outweigh any cost of the service.

President John Fraser occupied the chair, and introduced Col. Cooper, with a few words of appreciation of the work he had done for Canada during his service as publicity commissioner for the Dominion at New York, and the latter was given a warm reception by an unusually large attendance.

NATIONAL PUBLICITY.

Col. Cooper said the subject he had to discuss was Canadian publicity abroad. His audience knew the value of publicity, but unfortunately that could not be said of Canada as a nation. Previous to the war Canada was not even advertised to herself, and had not sold half a million of bonds to Canadian investors. Since the war this had been changed, and with a strong publicity campaign the Dominion Government had sold over two billions of Canadian bonds to Canadian investors, completely changing the investing habits of our people, which was a lesson for all time to come.

This change in methods must continue in order that we could sell ourselves as a trading nation among the trading nations of the world. This was necessary first for our own self-respect, to make Canada known as a nation with an appreciation of art and culture and not lacking in business, commercial or industrial intelligence. To do this, it was necessary to tell other nations what we are, what we have, and what we aim to become, and he quoted from The Gazette of that day several examples of the kind of publicity other nations were getting, even though some of it was not very favorable.

As an example of lack of publicity, Col. Cooper said that few Canadians knew that the Dominion had the greatest gold mine in the world, and was producing today more gold than any State in the Union, while her mineral progress was attracting atten-

tion throughout the world. It was such things that called for national publicity abroad, especially since last year Canada's foreign trade was \$1,600,000,000, about evenly divided between exports and imports, a far greater per capita foreign trade than that of either the United States or Australia.

There were two methods of securing this publicity, official and unofficial, and in this connection Colonel Cooper paid a warm tribute to the foreign publicity service of the C.P.R. abroad, which, he said, was doing more for Canada, and incidentally the C.P.R., than any other element of foreign publicity, especially with their service in the United States under Max Enos at New York.

CANADA IN REAR.

As to the official foreign publicity, he said it was only beginning its work, under H. R. Poussette, in connection with the Department of Trade and Commerce. The way in which this was being done was shown by the fact that at New York there were 50 foreign trade commissioners, representing as many countries, each out for their own publicity, and getting it. In this work Sweden was easily the leader, and Canada badly in the rear, with one trade commissioner at New York, and twenty-five throughout the whole United States.

"But the difficulty is," said Colonel Cooper, "that our representatives are not well equipped to sell Canadian goods as are the other representatives. They are not properly trained or selected, while the importance of their work abroad is not properly appreciated. We need better trade commissioners abroad. When I was in New York I was the only Canadian representative who had power to invite a visitor to lunch and charge it up to the Canadian Government, and I still hold the Government's official authority that I might spend as much as \$25 a month in this work." (Laughter.)

The United States, he said, had the greatest publicity bureau in the world, while its 1,200 trade commis-

sioners throughout the world were trained and equipped for their work, and adequately supported through the system of charging fees for vising invoices. They had 92 men in this service in Canada alone, who sent in regular and valuable reports as to conditions, as compared with Canada's 25 for the whole world. The vise fee system last year brought the United States \$450,000, and their total expense for consular and trade commissioner systems was only \$270,000, so it was clear that by adopting the same system Canada could easily support 500 foreign trade commissioners, which would make the Dominion and its resources known throughout the world, and greatly assist in increasing our foreign trade both export and import.

An excellent musical program was given by Mme. Eva Stopes and Messrs. Hercule and Valade.

Gentlemen,

Replying to your letter of February 4th.

We are very pleased to advise that while in our employ Mr. Wharton was a hard worker, conscientious and always attended strictly to business. As his work was entirely advertising, or missionary work, results can not be definitely determined but we are quite confident he will make you a splendid man as Sales Manager.

We might add that we employed him with a view of opening some new territory in England. Later our plans were changed, so we found we were unable to avail ourselves of Mr Wharton's services, as he was unwilling to remain in the United States.

Yours very truly,

My dear Wharton:-

Let me acknowledge receipt of your letter of March 3rd, with enclosures as stated.

My advice to you is to make a formal application to the Civil Service Department at Ottawa for a position as Junior Trade Commissioner, giving my name as a reference. If they have any intention of increasing their staff at the present time they will undoubtedly write to me. This has happened on previous occasions. Only last week they asked me for a reference in connection with a young man who graduated from our Department of Commerce last year. They are not appointing him to a Junior Trade Commissionership at once, but they are taking him on in the Department of Trade & Commerce at Ottawa to see how he shapes up.

I shall always be glad to do what I can to help you in getting satisfactorily settled.

Yours faithfully,

Dear Sir

I beg to acknowledge your letter of the 6th inst, for which I thank you most heartily. Immediately on receipt of same, I forwarded my formal application to Ottawa for the position of Trade Commissioner, as Senior, - Junior, - or in any trial capacity that might be necessary. Taking advantage of your kind offer, I gave your name only as reference. If found necessary I can produce references and testimonials to suit the most fastidious, but your support is all that any good man should require. I gave you in my former letter

a rather lengthy account of myself, but considered it advisable, to give you fairly full details, in case you needed same for reference. I therefore add a few more I omitted.

Age . 41.

Born Plymouth, Devonshire, England.

Resident in Canada . 17. Years.

Religion Protestant

Height Five feet eleven inches

Single

Health

Robust - In spite of being permanently disabled through wounds.

My disabilities do not in the least interfere with duties of Trade Commissioner.

All I ask is the opportunity, as I have every confidence I would make a big success as Trade Commissioner, but to get the opportunity, your assistance is very necessary & might I state - imperative, to enable me to get the start. I surely have the experience, gained

in the hard field of commerce,
and I can assure you, that
you will never regret being my
sponsor for Trade Commissioner.
In closing, I would state that
I have never in any way been
associated with Politics — But —
should you ever, in the future,
by any chance, step out into the
political arena, — Why Sir, that
also will be my first attempt,
as nothing will stop me from
rallying around the old Flag.

Dear Sir,

Attached please find letters to hand from F.C.T.O'Hara Esq. Deputy Minister, Dept.of Trade and Commerce, in reply to my application for an appointment as Trade Commissioner, Senior, Junior, or any other capacity.

My application was formal and brief together with a courteous request for any necessary forms to comply with regulations, in short, a brief polite letter, searching for information as to the correct procedure to be taken by an applicant.

From the commercial standpoint, which has been my life work, I consider the letter of the 9th. inst. unworthy of a Trade and Commerce Department, it is tactless and by no means answers the polite request for the desired information, and in consideration being given as a reference it is lacking in the courtesy which the enquiry should have elicited.

of your name

You will notice the clause emphasizing the necessity of a University education, this would disqualify me, but in Canada's History and also that of the Empire, records by no means indicate, that the glory, success, and achievements have entirely fallen to those with that qualification, much as it is to be desired.

Surely the experience gained in my many years of Commerce should be a very great asset to a department of this service, and one would think, that in the Industrial War close upon us, Canada's Commerce would be satisfactorily furthered by the selection of men of ripe experience, tried, seasoned, and disciplined, in preference to immature men without any actual commercial contact in trade affairs.

If necessary I would be prepared to take a course at Mc Gill university, to further my interests, if that would remove the disqualification or perhaps a letter from you to Hon. James A. Robb Minister of Trade and Commerce would overcome apparent difficulties, and any efforts on my behalf as you so kindly indicated in your recent letter or suggestions as to the proper course to pursue will be very much appreciated and acted upon,

Yours very sincerely,

Stanley Wharton

My dear Wharton:-

I have your letter of the 11th instant with enclosures from the Deputy Minister of the Department of Trade & Commerce. These I am returning to you.

It is true that the letters are somewhat curt, but it seems to me that they give the information that you are looking for. They say that there are no vacancies for Junior Trade Commissioners and that the Civil Service Commission will not take steps to appoint any until the Department of Trade & Commerce say that such Commissioners are required. That being the case, there seems nothing further that they can do with your application other than to file it.

I fully agree with you regarding what you say re the necessity of a University education. I cannot see what good it would do for me to write to Robb. I cannot urge him to take you on as a Junior Trade Commissioner when no such vacancies exist. If you like I will be glad to write to Dr. Roche, the Chairman of the Civil Service Commission, in your behalf and ask him for advice as to the position for which you should apply.

Yours faithfully,

General Sir Arthur Currie. G.C.M.G., K.C.B., L.L.D.

Dear Sir,

I beg to thank you for your kind letter of 14th. inst. and return of original letters sent for your perusal.

If you will be good enough to carry out your suggestion of writing Dr. Roche the Chairman of the Civil Service Commission I will be deeply appreciative, and his advice and possible help may be very advantageous to me in the matter, and may be the means of creating an opening in the Department.

The Bulletin of Oct. 10th. gives particulars of the examination of May 1921, which I understand was the only one held and was not considered a success, the writers apparently failing lamentably in the first rudiments of Commercial Knowledge, so runs the report by the Secretary of the Civil Service Commission.

The opportunity presents itself of enclosing you a Photo of the late Col. Gardiner, it being one I took myself just before his final departure from Seaford Headquarters and may be an addition to your collection.

Again thanking you for the kind interest you have taken in my case and sincerely trusting that it will develop into an opening that will enable me to prove my worth,

I am,

General Sir Arthur Currie, G.C.M.G. K.C.B. L.L.D.,

Dear Sir,

Attached please find letter from Col. Brothers, which to say the least is somewhat pessimistic.

Someone, somewhere, said that a pessimist was he, who was faced with the choice of two evils and promptly grabbed them both, needless to say I am not a pessimist: it has also been quoted that the exception proved the rule and I see no reason Sir, why I should not in this case prove to be the exception.

It is with a certain amount of trepidation, that I further encroach on your valuable time, but as in many a tight hole before encountered I am filled with the spirit of the old Second Brigade "TO FIGHT ON".

Having served in the late War and particularly having been a 1914 man, has been a decided detriment, rather than an advantage in my efforts to obtain an opening, though all I seek is one opportunity, one chance is enough for me.

The question of being a University graduate still appears to pursue me, but Sir, I am from sound education and practical experience, able I believe to hold my own as regards general knowledge, with any citizen of college training.

The fact that I responded to the call, gave the best years, am permanently handicapped through wounds, might be put forward as an excellent reason for making me the exception to the rule, as my faculties and general health are absolutely unimpaired for work of this nature for which I firmly believe I am eminently suited.

Apologizing for infringing on your valuable time, and still being undaunted and hopeful that an opportunity will present itself,

I am, Sir,

Yours faithfully,

Stanley Wharton

Dear Sir,

To enable you to have a fairly clear idea of my recprd, I attach a letter from my late Firm in the U.S.A. in response to an enquiry from this city.

As regards this particular enquiry, the manager had already been appointed before my arrival here, but in the event of his not making good, I was to take his place, hence the enquiry.

The position was presumed to be worth \$8000 per annum, but the manager is apparently still making good.

I forward this, with the idea in view, that failing to get an opportunity as Trade Commissioner, something else might be in sight, and this additional information might assist you in the event of anything coming to your notice.

Dear Sir

In a letter received from you of the 14th ult, you very kindly offered to write to Dr Roche, Chairman of the Civil Service Commission, regarding the correct procedure to be taken in applying for the position of Trade Commissioner.

I replied to your communication, my letter being dated March 16th, thanking you, and asking if you would be kind enough to forward suggested letter, but up to the time of writing, have not received a reply from you.

In addition, I mailed a letter to you dated March 17th, and also another communication dated March 21st with enclosure, my reason for these

letters being, that you would have possibly on file a reasonably complete record of my career, which would be useful in the event of some opportunity presenting itself.

I attach a cutting from The Gazette of the 6th inst, which does not appear to be very complimentary as regards the Canadian Trade Commissioner.

I fully realize your time is very much taken up with more important matters & also that you haven't time for a lot of possibly idle correspondence; But Sir, I did not receive any acknowledgment of the letters mentioned, am apparently as far removed from

Trade Commissionership, as when I started. If you hear of any opening at all, I shall be extremely grateful to get the opportunity.

I have been assisting others in securing positions, have a call on my purse of an average of three a day, my Bank account is rapidly getting, what I might describe as threadbare. I am in a sense, cursed with the appearance of opulence and prosperity, whereas in truth I am close to the Rocks. There is hardly a day passes, when I am not finding a job or assistance for somebody, but haven't so far been able to assist myself.

Perhaps Mc Gill University require

a Purchasing Agent.

I am forwarding this letter, acting on the assumption that a letter from you in reply to my last three letters has gone astray.

In any case Sir, you can rely upon my going down with the Flag flying to the last.

My dear Wharton:-

Let me acknowledge receipt of your letter of the 8th instant and also of the other letters which you sent to me.

I was particularly glad to get the photos of Col. Gardiner, who I always regarded as one of the best soldiers and comrades serving in the Canadian Corps. I did not answer your other letters largely because I had no good news for you. In response to my letters regarding the Trade Commissionership, I was told that it was not the present intention of the Government to increase the number. I could not quarrel with them over their decision, so there didn't seem to be anything further that I could do.

I would be very glad to have you here as a Purchasing Agent if there was a vacancy, but the man who holds the position now is an old and tried servant of the University and I am quite sure you would not suggest that he should be dismissed. I shall always be glad, Wharton, to put in a word for you if you think it would be of any use at any time you are applying for a position.

I am sincerely sorry that you have not before this secured congenial employment in Montreal and I hope that the time is not far distant when you will be satisfactorily placed. Whatever happens I know you will always keep up your courage and face the situation with a smile.

Dear Sir

Thinking that possibly you are minus information regarding the Montreal Ex Fighting Men Association, but feeling certain that you would be deeply interested, I herewith attach a few rough memos, that will possibly assist you in getting a fair idea of what has, and is being done.

I would respectfully suggest that you pay a personal visit, Monday's and ~~Tuesday's~~ ^{Thursday's} are the Ration days for the Married men, and I will take the opportunity

of telephoning you next Monday morning, on the off chance that you might have one hour at your disposal, 11 or 11.30 A.M.,

I would suggest as being the most suitable time. The spirit, discipline, cleanliness, and general appearance of the men under most difficult conditions, will I feel certain surprise you, and we have the Association running very smoothly under the management of Major Charles, that might well be emulated by other Towns, should similar conditions again arise.

As regards myself I am rapidly approaching dangerous Rocks, but am doing so with a stout heart

and cheerful countenance. All
the same I shall certainly be

Summary, work done, present situation, and future policy.

PRESENT NUMBERS ON STRENGTH.

Married Men	653
Married Men's dependents	1,956
Single Men	644
Total, souls drawing	<u>3,253</u>
	relief.

REGISTRATION.

No man drawing relief from any other source is eligible. All men bear an honorable discharge from the Army or Navy, and were classified as A.1. on demobilization. All served in a theatre of war, and Married Men are required to produce their Marriage Certificates. The Staff consists of 2 Clerks.

INVESTIGATION.

Every case is investigated by a trained investigator. We work in close co-operation with other Charitable Organizations and with the Confidential Exchange, in this way avoiding overlapping as far as possible, Staff 1 Lady and 2 men.

FOOD, SINGLE MEN. Since commencing on December 21st. 1921, until April 17th. 1922, 144,228 meals have been served to Single Men, an average of 404 men, 3 meals per day. A Staff of 3 Cooks, 2 Assistants and 9 Fatigue men are employed in the Cook Kitchen.

RATIONS, Married Men.

During the above period 18,178 rations were issued to Married Men. This represents an average of 544 families per issue, or food for 72,172 people for one week, or 1,526,952 single meals.

TOBACCO.

A small issue of tobacco is made twice a week.

O.H. STORES.

All provisions and stores are purchased in the best and cheapest market. Potatoes are handled in Car Lots, other supplies are bought from day to day as required. An efficient Quartermaster is in charge assisted by 2 Storekeepers.

SHELTER.

An average of 400 men have been provided with shelter, continuously, since January 9th. 1922.

CLOTHING.

Boots, underclothing, suits, overcoats and shirts have been supplied by us to the most needy. A Shoemaker, (one of our own men), is employed repairing boots; he works 10 hours a day and cannot keep pace with the demand.

EMPLOYMENT BUREAU:

We maintain a classified index, by trades, of all men. Canvassers call on large employers soliciting work. About 500 men have been placed, but mostly in temporary work, and have been struck off strength.

HOSPITALS:

On March 10th. we opened a Hospital Ward of 10 Beds. 1 Accident and 33 Medical Cases have been treated to date, and, at present, there are 8 men in Hospital. Only in serious cases can the City Hospitals afford accommodation, and they have no room for convalescents, therefore a number of such cases are being looked after by us, after discharge, from the City Hospitals.

EXPENDITURES:

Up to April 17th. we had expended.....\$27,473.92
and and were committed for payments amounting to.....\$ 7,721.42

RECEIPTS:

TOTAL EXPENDITURE.....\$35,195.34
LESS TOTAL RECEIPTS.....\$30,548.17
DEFICIT\$ 4,647.17

We estimate the additional cost, of supplies etc., from now until May 1st, at.....\$ 4,500.00

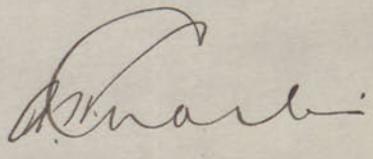

TOTAL ESTIMATED DEFICIT, MAY 1st....\$ 9,147.17

FUTURE POLICY:

If the work is closed down on May 1st. nearly 3,300 souls will be destitute and most of them will be homeless, as that is moving day and landlords will not carry tenants who are in arrears after that date. The average indebtedness, per family, for rent and taxes, appears to be \$141. This does not include Grocery Bills or Medical Attendance Fees.

We are considering the possibility of placing selected men and their families on a Farm. A day's work would be demanded from every soul; men, women, and children would be trained in farming, weaving, basketry, etc., and it is hoped to make the venture self-supporting in time.

The Government might be willing to pay \$1.10 per day to men during the training season, in return for an efficient Militia Unit, which would be available, at other seasons, for making and repairing roads, rural mail delivery, police, forest ranging, etc., etc., and the cost could be divided, pro rata, between Government departments concerned.

Dear General Currie,

This brief letter is to advise you that I have become associated with Messrs Robertson Bros. Manufacturing Confectioners, Queen Street, Toronto, who are the largest and strongest concern in Canada in their line.

The agreement I have made with them is excellent and should mean that at the end of the year, granted health and strength to carry on, my position should be an enviable one.

Although this position has been secured, it may be that enquiries will be made in your direction, and if so a letter from you will carry great weight and will have a distinct bearing on my future chances and I feel sure you will have no hesitation in doing what would be helpful.

I will be leaving Montreal on Monday next the territory to be covered being the Maritime Provinces, but should any exceptional opportunity present itself I trust you will keep my name before you.

Thanking you for the interest you have displayed on my behalf and wishing you health, wealth and prosperity,

General Sir Arthur Currie,
G.C.M.G., K.C.B., L.L.D..

Yours very sincerely,

Stanley Wharton

Montreal, June 5th, 1922.

Col. J.L. Regan, C.M.G.,
President,
Montreal Ex-Fighting Men's Assn.
142 Notre Dame St. West.

Sir,

As business compels me to move from Montreal to St. John, N.B., I am obliged to resign from the Board of the Ex. Fighting Men's Assn.

I am leaving the City today and will be unable to attend tomorrow's meeting.

Having taken a very active interest in the affairs of the Association and as my heart is still in the work I feel that I cannot leave the Board without making some suggestions for the future conduct of affairs and I hope that the Board will give them favorable consideration at tomorrow's meeting.

If the Farm scheme put forward by Major Charles proves impossible to carry out by reason of lack of funds, I think Charles should be encouraged to work out schemes for raising sufficient money for the purpose, as he thinks that he might secure funds if his scheme is backed by the Board. I have seen the farm that he speaks of and though I am not well qualified to judge of farm land, it is most attractively

June 5-22

situated and from inquiries made I think it to be suitable in every respect.

Next Winter is likely to produce a situation as bad as the past one was and I think that the Association must be kept alive to deal with it. To do this Charles should be kept on the job planning ways and means, looking for employment for men and arranging accommodation for the early Winter. He may think it necessary to retain some of his staff and I would accept any recommendation he makes in this regard.

Any of the staff whose services are dispensed with, should in all fairness be generously treated. They should be given a cheque for at least one month's wages.

I think that Charles deserves some recognition for the work he has done and ~~that~~ I recommend that his salary be increased by \$50.00 per month and that be antedated to March 1st, the time at which this Board took over.

My resignation will leave two vacancies on the Board. I strongly recommend that these be filled at once. Sir Arthur Currie is greatly interested in the work and he is certainly the most logical, as well as the strongest man the Association could have on the Board. I recommend that he be asked to act, and that should he find it impossible to do so, he be

asked to nominate two ex-officers to fill the vacancies,
and to lend his own name as an Honorary Patron.

My dear Wharton:-

I am glad to learn from your letter of June 1st that you have secured what is likely to be an attractive position with Messrs. Robertson Bros. of Toronto.

I note that your territory is the Maritime Provinces, which I believe you will find a congenial one. If you ever come to Montreal please come and see me.

It is a relief to me to know that your worries are over for the time being, for, believe me, I was concerned over your having to go so long unemployed.

Major Stanley Wharton, O.B.E.,
c/o Robertson Bros.,

My dear Wharton:

Thank you very much for your letter of
July 27th.

I am delighted to know that you are getting along well in the position you now hold. Frankly Wharton I do not see why you should worry about a position as Assistant Trade Commissioner. In that connection, I am attaching herewith a memorandum issued by the Department of Trade and Commerce. I note that they are calling for application from any one who would like to sit at the next Civil Service Examination. If a candidate is successful he has to go into training for one or two years, and after he has three years experience his salary is only \$1,800. per annum. I also note that the Trade Commissioner's salary, a position which can only be reached after long years of serving, amounts to but \$3,000. per annum. I am quite sure if you stick to your present position you will be earning far more than that in less time than would elapse before you would be a full fledged Trade Commissioner.

I can well understand the pleasure it gives you to meet old comrades of the C.E.F. You run across them everywhere, and always with the strengthening of the feeling that the spirit of comradeship generated over there was something really worth while.

You mention the Board or Special Committee which has been appointed by the Government to enquire into the truth or otherwise of the charges made by the G.V.V.A. re pensions. I know the personnel of that Board very well. The Chairman of that Board is Colonel Ralston, who commanded the 85th Battalion (Nova Scotia Highlanders) during the last year or so of the war. It was I who suggested his name to the Hon. Dr. Beland, who asked me to take the chairmanship. I was forced to refuse, because Dr. Beland intimated that the

Committee would be asked to enquire into the general question of re-establishment. If so, I knew it would take more time than I could afford to give from University matters. Ralston was one of the best officers serving in the Corps - he is a lawyer by profession, has been a member of the Nova Scotia Legislature for a number of years, and I hear his name mentioned as a probable successor to the Hon. H.H. Murray, Premier of that Province. He is a very straight, upright, independent man, and when asked to suggest names by Dr. Beland I could think of none more acceptable.

Colonel Walter McKeown, another member, did not serve in France, but was surgeon to the Kitchener Hospital in Brighton. He also is a very straight, upright man with a warm sympathetic nature.

The third member is Colonel Dubuc, who you will probably remember commanded the 22nd Battalion, was wounded several times.

All of these men, I should think would be regarded by the soldiers as sympathetic.

I have noted with interest what you have said about the Ex. Fighting Men's Association, and will bear the information in mind.

With all good wishes, I am, dear Wharton,

Ever yours faithfully,

Dear Sir Arthur Currie

I have only this date, received your letter of the 6th ult. Not having received my little Pension Cheque, I wrote a friend of mine & he unearthed same at my old quarters, together with your letter which he forwarded.

I advised the Post Office of change of address & received their acknowledgement.

However I can understand that —

As you will always be interested in the welfare of the old C.E.F. — I mention something that I fail to understand, viz, I have just received a communication from the Dept of

This has just found me - The

Subject - Re - Examination

Seeing that I have been drawing
a small monthly Pension, sent to
my address in Montreal, since January
last, it would most certainly appear
to me, that the departments are not
keeping in touch with each other -

My training in Seaford & the success
that I achieved, taught me very
clearly, the immense damage that
can be done, through lack of cohesion,
and everybody pulling the other way.

Fredericton, N.B.

There must be so many thousands affected by this branch of the service, who have a very limited horizon, cannot reason things out for themselves, that an error of this nature, would tend to make some of them Bolsky - I can sort of understand this thing myself, but if I were in charge, somebody's head would have to go - We cannot afford in these critical times to let the humble private think he is just a number - If they make many errors of that nature, its dangerous - Let them check up the Honours list also for those who receive Pensions, for instance I have the O.B.E, its a very small matter to me, but to many of them, it may appear different - I notice they are having a Board

or special Committee to enquire into Pension Troubles - Have they anybody on same who served in the Banks, and by that method has been in close touch with the Other Banks - ?

There are some injustices I am confident, also some drawing Pensions that shouldn't - In my own case two years ago I requested a Board, because I was leaving the Country, for a while - My board was a very poor job - I had a slight trouble with my hip - That was passed over, but afterwards through an M D friend I had an X Ray & found two small pieces of shrapnell legacy from 1915 -

Coming up in the Train a few days

ago with a young French Canadian,
from him I learnt, he served in France
was smashed up, and became C Category
& was transferred to some other branch.
He was discharged here as fit —
He has very bad Varicous Veins &
wears a stocking — I really believe he
got that in France — He was buried
& that leg was a legacy — He receives
no Pension — He has 4 years service
without a bad mark — He was forced
to go to Maine U.S.A. to get a living —
Was back for a visit — Had \$1500
saved when he came back — Started
first week as a Track Layer — got
moved in as an Operator, had to
make way for a married man &
is at present in Maine earning \$125
a month — Cannot tackle Rough.

Work on account of his leg -
I eyed him up as having been a
good soldier & is still a good soldier
in spite of No Pension & having to
leave his Country - Its cheering to
meet men with their chins up -
Now as regards myself - As I
feel sure you would expect, I have
met with a very good measure of
success - I am not boasting when
I state that I fully expect to
increase my firms business 100%.
This is supposed to be a very
difficult territory for a Newcomer -
I have found the people in the
Maritime Provinces - golly fine people,
Very Loyal & I miss my guess
if they are not very staunch friends.

The Fishing has been good -
The Hay crop excellent, - and
Farming generally in excellent shape.
Lumber is moving - Mining shows
signs of improvement - In Cape Breton
things are brighter than they have
been for a long time - At Campbellton
I observed four vessels loading lumber,
two four masted sailing vessels, and
two Steam - Three Danish
& one ex German -

Last year Fishing & Farming was bad
This year Fishing & Farming is good.
Prohibition is here in name only -
Whiskey can be obtained almost
anywhere - Very reasonable -

The Province loses a very much
 need Revenue — Whiskey &c is here
 just the same But no Revenue &
 no Control — The younger generation
 are bound to learn a contempt
 for law — That is dangerous —
 This thorough covering of the
 Maritime Provinces just about completes
 my Canadian education — I am
 good enough to restore a Firm's
 lost business in a difficult province
 for an Englishman & a stranger, but
 apparently not good enough for Trade
 Commissioner — Robertson Bros are
 Manufacturing Confrs — every branch —
 financially very strong, and with

a wonderful reputation for
absolute purity as regards products,
an integrity in all business deals —
My trade is all done through
the Jobbers —

Col Mc Gee gave me letters of
introduction & I was put up at the
St Johns Club — I met an Adjutant
there who was with the NB Reserve
at Seaford — Met two M.D.'s there
who were both at Seaford — One is
now President of some Medical Assn
& lives at Edmonton, the other lives at
Ottawa — At New Glasgow N.S. I
met a Major Mackenzie who used to
be G. S. O. 2 at Seaford, he left Seaford

with the Secret Expedition for
Northern Russia with Colonel Leckie,
Mackenzie became Colonel received
D. O. O. & about twelve foreign decorations
He is now Colonel of the Local Scottish
Bn & lives at Stellarton^{N.S.}, where he is
Asst-Manager of some Coal Mine —
I didn't know it before, but he
told me he left France with an
adverse report — I believe it was
due to some difference between two
Colonels, anyway he retrieved himself.
He drove me over to Pictou & there
I took my biggest order yet from
a Biscuit & Candy factory there —
I also found there a Major McArthur

who presented me with a bottle of Rum - For a few weeks he used to be entrenching Officer at Deaford, and remembered me.

St Charlottetown P. E. I., I was walking up the street & a young fellow stopped me noticing my little Red Patch, finding I was an Original he promptly got his father to put me up at the local Club - I could continue with my experiences, but won't weary you - Suffice it to say, that the Old Spirit is still alive, no matter where you go, & as time rolls on, the old originals will have a still stronger feeling of friendship - I didn't expect to meet a soul I knew in this

I have a busted shoulder, filled
with lead — Shrapnell in my hip —

Regarding the
Montreal Ex-Fighting Men's Association

The following are merely my personal
views, given to you in confidence —

I as you know had to resign, owing
to leaving Montreal —

Since then I have been completely
out of touch —

My idea was to close up for the
Summer & Fall — Keep Major Charles
& possibly a very very skeleton Staff

To hold the threads together, to
use every means to secure Money
for the coming Winter & if possible

to still assist the Married Men —

To hold the threads together, and

Barker House

C. A. Monahan, Proprietor

Fredericton, N.B.

to look ahead for the coming
Winter (which should be the last)
& make all possible sane arrangements.

The Board of Directors to be
entirely Re-constituted — in other
words Changed —

Col Regan in my opinion is
Not the right man for President.

Lt Col Chaballe would be alright
for further service —

Lt Col Smith should Retire, he
never attended a meeting & did
nothing that I know of —

Col Dubuc, did not go down
to Hdqrs, inspect the place, or get
in touch with the men. He did attend

Barker House

C. H. Monahan, Proprietor

Fredericton, N.B.

the meetings however & would be
alright for further service.

Lt Col Magee A good man,
the best of the lot - If I had
stayed I would have selected
him out of the lot we had for President.

Lt Col Todd Not the man to
act as a Director of this organization.

W. A. Eden Although a civilian, -
a tower of strength - did yeoman
service - gave real help - time &
money - Re elected by all means.

W. E. Wood Should never have been on.

My dear Major:-

I have your letter of the 17th, and note that you have nothing in sight after the closing up of the S.C.R. I also note that you would like to get on the Air Board, and I am writing a short note to General Gwatkin at Ottawa, putting in a word in your behalf. He will, I know, do the best he can, but the Privy Council sit very tightly on all expenditures in connection with Military, Naval and Air matters.

Dear General Gwatkin:-

Attached is a letter I have received from Major Willoughby, whom I knew overseas as an officer in the 52nd battalion. You will note that he will be 50 years old next month.

He was a very decent chap in France, but not yet quite the man to put in command of a battalion. He is very loyal and conscientious and ought to be able to give a good many years of useful service.

Dear Mr. Reford:-

I received a call this morning from one J. H. Williams, now living at 41 Masson Street, who is looking for work. He says that for a long time he was employed with the Robert Reford Company, but that he became addicted to taking drugs and was forced to leave your employ. He states that he has taken a course of treatment in the hospital in Ottawa and that he believes he is cured. He says he wants to make good again.

I thought I would bring his name to your attention in case his past record and his present circumstances would influence you to offer him some position.

Dear Sir Arthur,

I have yours of January 16th, in regard to J. H. Williams. I do not think he could have told you the whole story.

Williams occupied a very responsible position on our Wharf staff and I could not consider taking him back in any capacity whatever, as the effect of doing so would be very demoralizing on the rest of the staff.

Regretting I cannot meet your wishes -

Dear Sir.

I don't suppose that I should expect that you should hardly remember me, and I trust that you will not feel that I am imposing on your very good nature. If you will remember I called on you a couple of months ago regarding drug question and also in regard to obtaining employment of some kind. You told me at time that you would see what you could do in the way of assisting me in obtaining some sort of employment, but I quite realize that you must have many similar requests and that your time is much too valuable to devote much of it to such matters. I have tried hard to obtain something to do but have not succeeded as yet and I am at present absolutely in need of something to do and I can assure you that if you can assist me in this request that I will do all in my power to prove myself worthy and show my appreciation.

I have just put in an application with C. P. Ry for position as Pullman
conductor, I have given in said application all the necessary references in
regards to my past employ ment and also in regards to character and reliability.
But although everything is in order in this respect. I have reliable information
that apart from this there are so many applications, that it is almost out of
the question to obtain this position at present without some influence. I am sure
that if you would be so kind as to give me a word to Mr. F. M. Green. Supt
Sleeping, Dining & Parlor Car Dept. that I could easily obtain this
position, and I can assure you that if you can do this for me you will
render me a great service. I am a widower with one boy of mine and
I have not earned a thing since last August having had almost six months
illness. I have absolutely no means of my own excepting what I can earn
myself. I most sincerely hope that you will grant me this favor. and also
I hope that I have not imposed too much, and I wish to thank you for the kind
attention you have shown me in the past.

Sincerely,
J. C. Williams

Dear Mr. Williams:-

I am in receipt of your letter of
March 26th and am truly sorry to learn that you have
not yet got to work.

I hope that you are successful in the
application you have submitted to the Railway Company
for a position, but I am sorry that I cannot write to
Mr. Breen as you suggest. I feel that I do not know
you well enough to recommend you. I may say that I
spoke to the Reford Company about you and received in
reply anything but encouragement, nevertheless, I hope
you are soon placed.

Yours faithfully,

Hon. F. B. McCurdy,
Minister of Public Works,
Ottawa.

Dear Mr. McCurdy:-

On behalf of Colonel John Wise
of Truro I wish to write to you.

You may remember that Wise joined
the 25th Battalion as a Private, winning his way
to the command of the Battalion and being honoured
by receiving a Military Cross and a D.S.O. He
was an exceptionally fine soldier and, of course,
was very badly wounded. I know that he is partic-
ularly hard up at the present time.

Some time ago he had hopes of
receiving a position in the Fisheries Department,
but the examination was held while he was under-
going further Hospital treatment and he was, for
that reason, unable to write. I think he is
trying to sell insurance in Truro and the surround-
ing country, but is not very successful. I
understand that he is supporting the Government
candidate in that constituency with all energy.
I believe it would not take much to satisfy him
and I know that he is worthy of anything that you
can possibly do for him. He has got down to the
state where he has to borrow money to live.

It is too bad that such a well-
meaning citizen and splendid soldier should be so
reduced. I hope that you may be able to do some-
thing for him.

Yours faithfully,

OFFICE OF THE MINISTER OF PUBLIC WORKS

Ottawa 1st November, 1921.

Private & Confidential.

Sir Arthur Currie,
Principal, McGill University,
Montreal, P.Q.

Dear Sir Arthur:

I have before me your letter
of 29th ulto.

No one can appreciate the military service of Colonel Wise more highly than myself; I am fully familiar with the various stages of his admirable career; it is a matter of great pride to all Nova Scotians, and I regret greatly to hear of his present need.

It was for this reason that when an attractive vacancy occurred over a year ago, I interviewed the Civil Service Commission to ensure that Colonel Wise would have the opportunity of writing for this position and their examinations were postponed. Unfortunately, however, it was finally found by the Commission that he could not write.

I may say that I shall be on the lookout for any other suitable opportunity that may develop, and shall spare no effort to advance the interests of a man who deserves so highly of his

country as does Colonel Wise.

With kind regards, and thanking
you for writing me, I am,

Yours sincerely,

My dear C.K.:-

I have had a reply from McCurdy
stating that he will spare no effort to advance
the interests of Colonel Wise.

I hope some favourable action
follows.

My dear Major:-

I am in receipt of your letter
of July 24th, and have this day forwarded it
to Ottawa to Major-General J.H. Macbrien,
with a request that he give it immediate and
all possible attention.

I am quite sure he will do
all that possibly can be done to meet your
wishes. I am sorry that you have found it
difficult to get satisfactorily re-established,
and I hope that prospects will grow brighter
in the future.

With all good wishes, I am,

Ever yours faithfully,
