Dear doctor Griffith,

I enclose the paper I read in Toronto on the 24th of May. As I spoke only five minutes I have not read all this paper.

I was greatly disappointed not to see you.

I hope you are very well now.

The anesthetists of Toronto were really impressed by your paper. Mr Bowne read it perfectly well, but it was not you.

I hope you will be in Quebec the 20th of June.

Sincerely yours.
