

Montreal
January 4th 1959

Dear Helen and Ned:-

This is a double
canceled thank you note.
Number one - thank you for
the diary. I appreciate having
it from you and of course
will always expect it. Number
two - The excitable cortex is a
gem. It will always sparkle
because it is true. I am
delighted to have it.

Many thanks. Best
wishes to you both.

Probably my last Bill.
Personal letter from him!
W.P.
