

CUS417/12.9

BULLETIN OF THE Fellowship of Medicine.

No. 13.

June 28th, 1919.

THE present Post-Graduate Course is continuing until the end of September, and new members are being enrolled from day to day. This week, however, terminates the period of study of a considerable body of our students. The American Medical Post-Graduates leave London for home within the next few days, and the occasion calls for special commemoration. The following messages to our departing Students have been received for publication in the "Bulletin."

From SIR WILLIAM OSLER, BT., *Regius Professor of Medicine, University of Oxford; Chairman of the Council, Fellowship of Medicine.*

"Greetings and best wishes to American members of our Fellowship. *Bon voyage.*"

From SURGEON REAR ADMIRAL SIR HUMPHRY ROLLESTON, K.C.B., *President of the Royal Society of Medicine, and Chairman of the Emergency Post-Graduate Committee of the Fellowship of Medicine.*

"In congratulating you on your approaching return to your own country I would like to express the pleasure your presence here has given us, and to hope it is *au revoir* only, and that when you visit us again we may get to know each other still better."

From DR. GEORGE E. MACLEAN, *Secretary to the American University Union in Europe.*

"To the American soldier students in the Fellowship of Medicine. As it was my privilege to have a hand in sending you to the Fellowship of Medicine, may I join in a heartfelt farewell and Godspeed as you return home. Shall not all Americans express their gratitude to the Fellowship of Medicine for the splendid opportunities they have opened to us by becoming missionaries for the Fellowship and the English-speaking Union?"

From MAJOR-GENERAL SIR ROBERT JONES, K.B.E., C.B., *Member of the Council of the Fellowship of Medicine; Member of Advisory Council, War Office, and Inspector, Military Orthopædics, A.M.S.*

"May I offer a word of greeting and of Godspeed to our American colleagues to whom we owe a deep debt of gratitude. They have been real comrades and brothers, and their cheerful and loyal help has left an indelible impress on our hearts. God bless them!"

From COLONEL F. F. LONGLEY, M.C., U.S.A., *Officer Commanding the American Students' Detachments in British Universities.*

"Sincere thanks are due to the Fellowship of Medicine from all the United States Army Medical Students and from myself, as their administrative head, for all the advantages and kindnesses that they have received through activities of the Fellowship of Medicine. I believe that the vast majority of the American medical men do not know that London holds such an alluring variety of excellent opportunities for medical work. I know that the several hundred medical students belonging to this detachment did not know this before they came here in March. Those students do know it now. They know also the kindly, sincere good feeling; the ardent desire to share their knowledge and their facilities that have been shown by the medical men of Britain, during their period of study just ending here, and they know too the unlimited benefits that can result from a close co-operation between the medical men of the United States and of the United Kingdom. All this I can assure you and your colleagues is most deeply appreciated. I trust that this is only the beginning, and that with the help of the various activities that have been started, both by your organization and by the American students during the past few months, there will result a continuation of this pleasant and profitable relationship.

"Aside from the personal and the professional advantages, I have also a strong feeling that any of us who in ways like this do even the least little thing to cement the bonds between our two countries is doing a world service."

From MR. VICTOR BONNEY, M.S., *Lecturer on Gynaecology, Middlesex Hospital.*

"My message to the U.S.A. men is: Good Students and Good Fellows. I am sorry they are going."

The special lectures arranged under the Emergency Post-Graduate Scheme by the Fellowship of Medicine are marked *

MONDAY, JUNE 30th.

Mayer & Phelps

**SURGICAL INSTRUMENT
:: MANUFACTURERS. ::**

Established nearly 60 years.

**CHIRON HOUSE,
59-61, New Cavendish Street,
London, W. 1.**

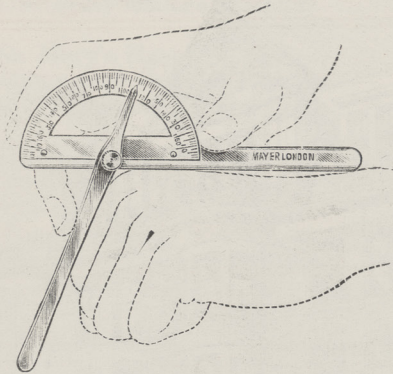

MAYER & MELTZER (late of Great Portland Street) have removed to the above premises, where their business will be carried on in future under the name of **MAYER & PHELPS**, the two partners who have been the sole proprietors and managers for many years.

Medical Officers are invited to visit the new Show Room, where instruments for every branch of surgery are on view.

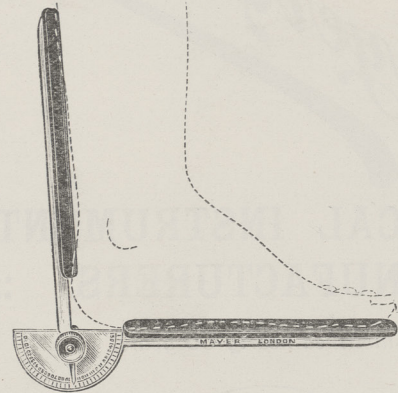

MAYER & PHELPS, Chiron House, New Cavendish Street, W. 1.

MENSURATION INSTRUMENTS.

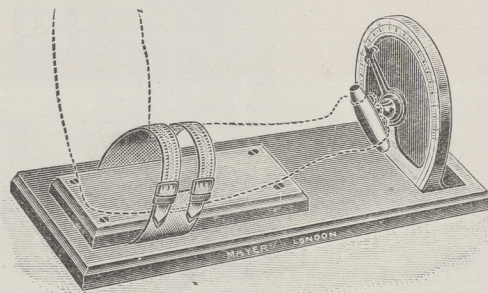

Designed by Dr. FORTESCUE FOX for the Red Cross Clinic for Physical Treatment of Disabled Soldiers.

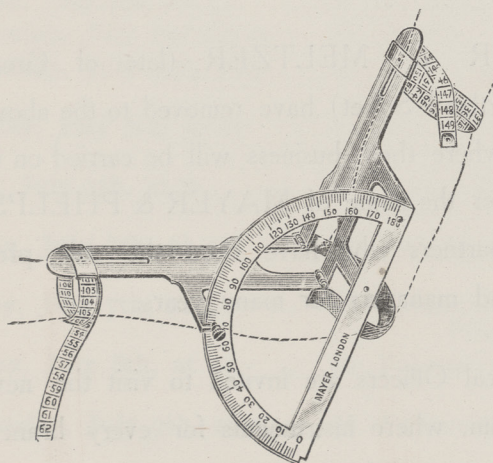

Fleximeter for Wrist and Fingers.

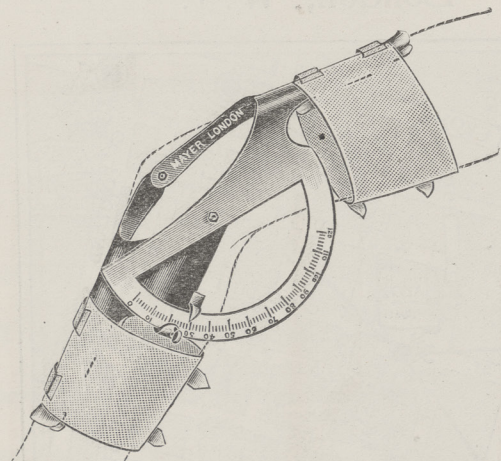

Fleximeter for Ankle.

Torsionmeter for the Forearm.

Fleximeter for Elbow.

Fleximeter for Knee.

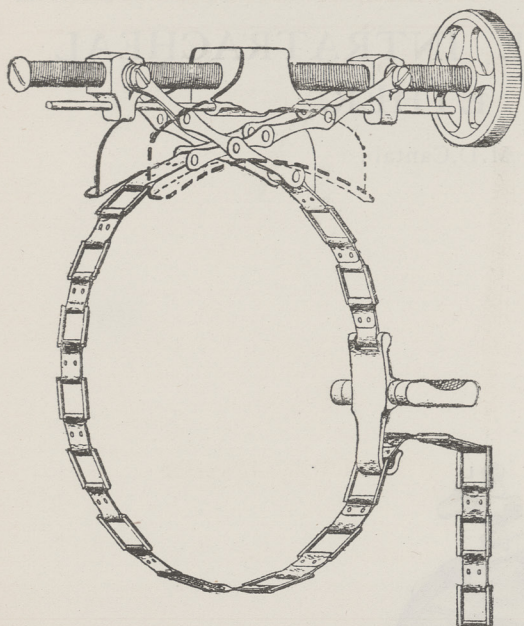

Scalpels and Bistouries.

Scissors.

Artery and Compression Forceps.

Needles.

MAYER & PHELPS, Chiron House, New Cavendish Street, W. 1.

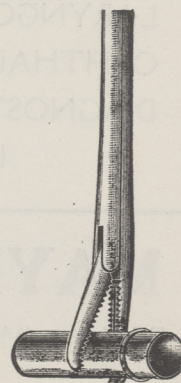

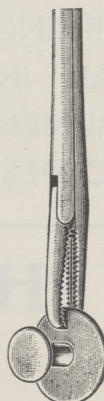

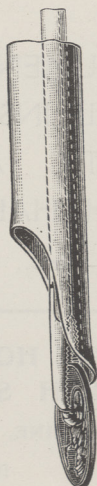

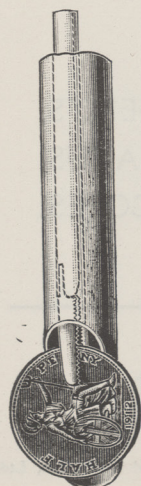

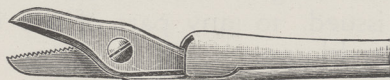

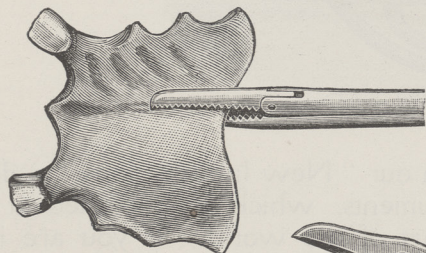

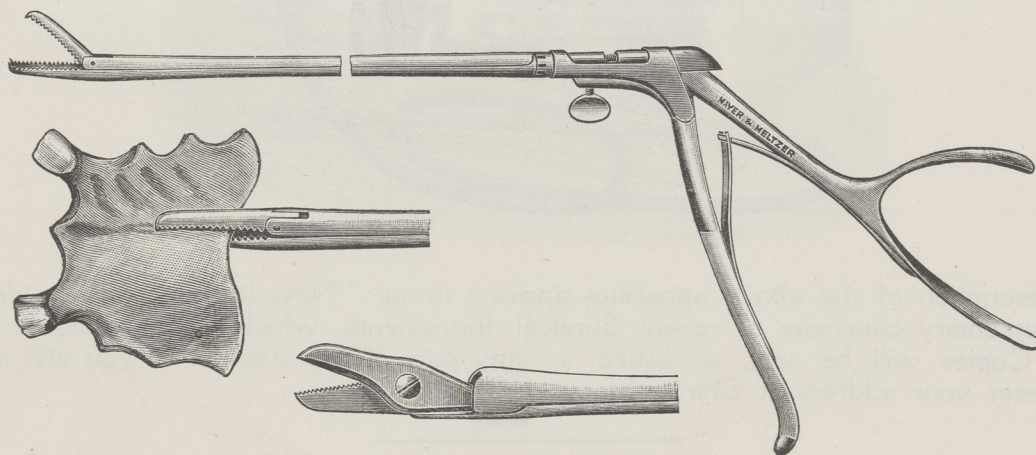

A NEW
METAL TOURNIQUET

Designed for SIR G. LENTHAL CHEATLE.

ADVANTAGES:—

- Ease of Application.
- Simplicity of method of adjusting force of compression.
- Accuracy of adjustments—preventing excessive pressure and permitting early relief.
- Imperishable in hot climates.
- Sterilizable.
- Portable.

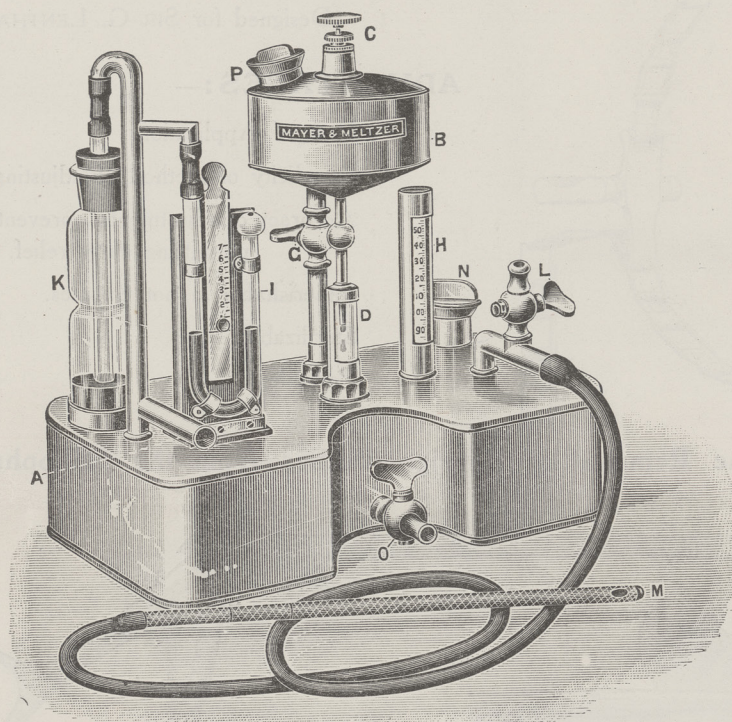

Instruments for the Removal of Foreign Bodies from the OEsophagus and Bronchi.

MAYER & PHELPS, Chiron House, New Cavendish Street, W. 1.

A NEW APPARATUS FOR THE INTRATRACHEAL
INSUFFLATION OF ETHER.

Designed by FRANCIS E. SHIPWAY, M.D.Cantab.

FULL description of the above apparatus appears in our "New Introductions," a descriptive supplementary catalogue of recent Surgical Instruments, which is published at frequent intervals. Copies will be sent, as issued, to any part of the world. If you are interested please register your address at Chiron House.

INSTRUMENTS FOR GENERAL SURGERY,
UROLOGICAL and GYNÆCOLOGICAL INSTRUMENTS,
LARYNGOLOGICAL, RHINOLOGICAL and OTOLOGICAL INSTRUMENTS,
OPHTHALMOLOGICAL INSTRUMENTS, ANAESTHETIC APPARATUS,
DIAGNOSTIC INSTRUMENTS, STETHOSCOPES, OPHTHALMOSCOPES,
LARYNGOSCOPES, SPHYGMOMANOMETERS, &c., &c.

MAYER & PHELPS, CHIRON HOUSE,
NEW CAVENDISH STREET, W. 1.

Telephone: MAYFAIR 6320.

Telegrams: "TREPINE, WESDO, LONDON."
