

To Dr. Flick from Dr. Knopf.

New York,
Feb. 15, 1900.

My dear Doctor:

From the preliminary programme which the Congress of Tuberculosis under the auspices of the Medico-Legal Society has sent out, I see that you will soon honor our city with a visit. Though my name appears on the programme I withdrew several weeks ago. But I would not wish to miss the pleasure of meeting you and should be highly honored if you would favor me with a visit and could tell me what time I might expect you so as to be sure not to be away.

While you are in the city I should very much like to have you visit the Tenement-house Exhibition. I enclose a programme, which I presume, as a phthisio-therapist, will interest you very much. I have been requested to deliver an address on the evening of Feb. 20th on the subject of "The Tenements and Tuberculosis", for which evening I extend to you herewith a most cordial invitation.

Trusting that I may have the pleasure of seeing you, I remain

Yours very cordially,

S. A. Knopf.

Lawrence F. Flick, M.D.
