

CUS417/14.109.4

To Dr. Flick from Dr. Jacobs.

Baltimore,
April 6, 1904.

Dear Dr. Flick:

I have heard from all the members of the Committee selected in Philadelphia, and all say that the afternoon of Friday, April 22nd, would be convenient for them for a meeting in New York. Just where the meeting will be held I cannot say at this moment. but very probably at the Academy of Medicine. In regard to this I will let you know later, in any event, the hour will be four o'clock.

Hoping that nothing will prevent you from being present, with something definite to present in the shape of suggestions for constitution and by-laws and upon the extent and personnel of the membership of the Society, believe me,

Very sincerely yours,

Henry Barton Jacobs.
