

To Dr. Jacobs from Dr. Flick.

Philadelphia,
April 9, 1904.

My dear Dr. Jacobs:

I enclose you a copy of a constitution and by-laws which I have drawn up at the suggestion of Dr. Welch. It may serve at least as a skeleton. I would be glad if you would show it to Dr. Osler. As you will see I have made the governing power of the Society a very close corporation. In my judgment that is necessary if good work is to be accomplished, but if others do not coincide with me in these views I am ready to adopt anything that may be satisfactory to all.

Yours truly,

Lawrence F. Flick.
