

To W. O. from Dr. Flick.

Philadelphia,
April 19, 1904.

My dear Dr. Osler:

I am much obliged to you for sending me a copy of Sternberg's Constitution and By-laws. I have read it over two or three times and think very well of it if the power of electing officers and so on is to be placed in the hands of the Society. In my judgment the plan of organization which I have suggested would give better results because it would absolutely exclude politics.

Yours truly,

Lawrence F. Flick.
