12

To Dr. Flick from Dr. Benjamin Lee.

Executive Office, State Board of Health,
1420 Chestnut St., Philadelphia.

Feb. 10, 1902.

My dear Dr. Flick:

I recall the fact that last year you were not inclined to look with favor on the "American Congress of Tuberculosis." Allow me to ask whether you have seen reason in any way to change your opinion. The President this year is my friend Dr. Holton, also President of the American Public Health Association and a large number of responsible men appear to be taking part in the movement. I note a meeting of the directors of our society will take place next Wednesday. Should I be prevented from attending, please present my regards to the members. If you should regard the matter favorably, would it be well at that meeting to appoint delegates to the Congress?

Yours very truly,

Benj. Lee,
Secretary.
