

To Dr. Flick from Dr. Jacobs.

Narragansett Ave., Newport, R. I.,
June 27, 1904.

My dear Dr. Flick:

Many thanks for your letter giving me the correct name of
Dr. Anders.

We are having a meeting of the Executive Committee in Boston at the
University Club at 11.30 Thursday morning next, and in the absence of Dr.
Ravenel it will be very agreeable to the Committee if you could meet with them.
There are a number of things which need discussion and we ought to lay out
the work for the summer, so that the Society does not suffer from inanition.

Hoping you may come to Boston, but knowing full well it would be
difficult to arrange it, believe me

Very sincerely yours,

Henry Barton Jacobs.
