

To Dr. Flick from W.O.

1 West Franklin St., Baltimore,  
Nov. 10, 1903.

Dear Flick:

December the third will suit me perfectly well. I have just heard from Magnin in Paris that they have postponed the International Congress to 1905, and he asked me to cable whether any arrangements had been made for a Congress here in that year. I thought I could safely telegraph him no, as of course we could not expect to hold one in the same year. In any case the central committee has, I suppose, the power to fix the date of this meeting.

Sincerely yours,

Wm Osler
