

To Dr. Flick from Dr. Herbert King.

Loomis Sanitorium, N. Y.,
March 19, 1904.

My dear Dr. Flick:

I shall be delighted to accept your flattering invitation to lunch on Monday, March 28th, at half past twelve, and to further avail myself of the opportunity to hear Maragliano lecture.

I am very happy to hear that Dr. Osler is taking a personal interest in the subject of an International Conference on Tuberculosis. I have not as yet received an invitation from him although it is more than possible that I shall do so before the date of the meeting.

Permit me to thank you for the compliment which your invitation conveys and to beg you to believe me,

Sincerely yours,

Herbert M. King.
