To Dr. Knopf from Dr. Flick

Philadelphia,
March 25, 1904.

My dear Dr. Knopf:

Your letter of 22nd inst. to hand. It is too late to change the program for the meeting as it would not be possible to communicate with men at a distance. Moreover, the evening of the 28th will be taken up by a dinner given by the staff of the Henry Phipps Institute. The majority of the men invited have accepted and I think we will have a very good meeting. I trust we may have the pleasure of seeing you present.

Yours truly,

Lawrence F. Flick.
