Napier the Conservative. In year before by old Jones had strongly ~~for~~ <sup>against</sup> against Confederates.  
("quit" = a liberal) The son Carleton Jones between Adl. & N.J. Jones as Gen. House - at time in  
Calgary - MD at Napier's last stand. In practice a short time at St. Lazars <sup>the</sup> ~~success~~ determined  
by interesting Mrs. Corp. She is <sup>the</sup> wife ~~and~~ before full time threat. Owners who

Jones & son Napier who is leader of conservatism in Adl. a Minister of Adl. One of  
first of Napier acts was to turn out Carlton Jones son of the leading frit. A name now in  
one of Bannister rather to Napier trying to be kept in place all week long. With a  
husband Stephen Napier Carlton Jones w. But he was an off shore trying a civil service & turned  
back you can see several times over the turns to left.  
Son Napier has been in Gov. Office on Bank etc - when there a great robbery - very  
unfortunate this turns to. Murphy the knew everything. He was now Minister of Adl.  
One well set fire - fire also origin. Wanted find a German in this case & spoke English  
& wanted the first - working case. But who were the facts unclear hand - called on  
the commandant in Chief of Canadian Const. - would later receive his finding himself in  
front of the British Government

had a special service wagon - a particular branch service - suspicion of making money - done  
in consultation & War Office. Represented by Crooksh., the Comdr-in-Chief a fact & function of Imperial  
Army.

Hughes began sending telegrams' placards to Kitchener & Co., in France, they refused to answer  
his letter. Hughes said the British Army was right & here had come for them - to separate  
of Canadian troops as separate army. Canada does nothing in France but in  
exploit his opportunity or War Office did not want to offend. For Hughes saw  
China. No proper Adj'. Gen. in Eng. Everything run (regarding troops supplies etc.)  
is Eng. This Gen. Carson is Gen. Hughes representative, everything would have to go thro  
Carson's office; the full divine power and in general had to send to Hughes to get  
permission. Great block resulted espec. in relation to medicine. Men  
in open hospital tents. Carson said control must be done - a policy of making it  
difficult to run things.

Presently Hughes, in 1916, appointed a small informal army Council of heads of dep'ts.  
Carleton first as it had been called Walling. A Col. Reid on to whom was placed  
Government's Gen. It was no office position. This man began to make arrangements  
regarding hospitals consulted in contravention to British regulations. Idea to get

Canadian art of British into Canadian General and Hospital. A general and centre was put up at Fulstone County Collecting Centre = Cornwall Cleaning Assembly Centre.

May'. Paid a factoring queen - had been a Belgian agent - a conservative in Palestine - a traitor of Hughes our hero. Jones instigated an action of opposition to British undertakings. Reid's attitude in great opposition. Dignified time resulted in these months: No recommendation of firms accepted for 9 mos. Hughes kept them all track - i.e. promotion held up. Of one promotion a friend of Hughes and Sherriff gave a few more details of Sam Hughes in Canada. Everything done to neutralize Jones' efforts.

Finally a regulation from Hughes One and Canadians first in Canadian Hospitals. Now the war began. Only Drummond <sup>of Can. Red. Cross.</sup> wrote a powerful letter to times expostulating because first for Canadians to mix & English, (Adams <sup>should</sup> write). Some <sup>should</sup> neutralizing force of view like they was responsible.

Now the fat in fire. Hughes won. May's last to govern.

Herbert Prince had joined up - calling off himself. wanted lots of the joined up old men had been in militia & call recalled them. He got permission from Tom Hughes to

for a flying visit - wrote him a Col. - came over in omaghi. In June ~~1915~~ he came over  
He came after a personal instruction from Son Hughes to see everything. Carlton in bad  
fix - come out hard to France - He sent him 15 Clarendon - there a worse and demanded  
from Jones to send him to France - Some time to get his papers - had to be collected there - He  
was attached at Mo 2 or Court. Then he proceeded to go in omaghi - went to Paris  
5 orders - went to Belgium - got arrested at Abbeville for camera. Could not do  
anything right. The idea of discrediting. Sat down Jones against him. Left France & his  
papers - got back some time. Did not report him self. Went to Spain to Liverpool.

Bach with Hughes in 1916 and Sam Hughes took strong action and went up very into  
Gen S. Muller. But Bruce ad head of Comint of depur. To investigate the action of  
Gen. Carlton Jones. Lots of depur are made of Piers. Hughes did not regard this and  
approached Bruce, Wallace Scott (his nephew.), <sup>Col</sup> Reid <sup>Capt</sup> a civilian, Wilson etc. All  
Cana's men, personal friends of Bruce all the one = Hunter of Winnipeg a scolichian a  
good man who was dead.

New Comint had anti Bolshevik to small injury. All dispruntful people got their  
turn. So Hughes had a mass of material, the works up by Bruce who come to  
his report and recommendations all preferred. Idea to send up Carlton Jones &  
to present form of Piers. Done 3 months in try for injuris use in Eng. They

published their Justice report - patient and property looked after - sleeping all day coffee, a V.A.D.s.  
Joes fire under a were to rights - this impossible. Everyone worked hard - very little found.  
Hughes began to demonstrate the RAMS, new battle winning system. He could thereby offend  
to concussions blast fire from British & here own army.

The Reconstruction absolute impossible - Separate hospital in France, big re. Bruce's  
complete ignorance of Army system was his rendering, at end of year Bruce was put in  
command over Corletan Joes place.

At this Justice W.C. wrote Adair he was what is going on. The G.W.P. France refused to  
let the command of Bruce to many investigations in France. This was done whatever. He  
then only goes to Keogh to protest to Lord Darby & the army council. Because the Command  
of Army was against all Military Procedure. Joes considered the more sheltered and  
did not go to superior. Keogh said he regarded the D.Ms. Canada as clearly under him.  
He preferred to let him fight out alone.

Simultaneously with this, Odeh had been promoted the one CAMC - Consultant - Beechborough  
Hydroelectric & elsewhere. W.C. wrote Bruce. got cheery letter in return. Resigned,  
(Oppos his best)

Measured slender. A. lot Jones (a lawyer at Ottawa) travelled to Ottawa Saturday  
and reported Gorden Jones in the hospital in Elliot Lake about 10 miles N.

Gorden in Can. in Oct. 1916 had Staples he was going to resign. And Staples one  
day according to army orders. Gorden saw Staples other staples no more.  
Gorden unknown works plaster in Gorden he thinks was very - find a  
husband to run factory. Gorden's business was very bad - was never "called  
up". Gorden thinks on star. line. After Can. is well in <sup>Mr. Ted Pearce</sup> Gorden. We  
men were among last A. Calver's men. Return to Gorden Oct. until G  
Jones & Fred Staples influence had very bad - charged him. Some notes said

whole affairs of Can. - was this Nov - Dec. During the winter was very severe and -  
Gorden believe him - McCullough was absolute power - stories of his life. Bruce Sheldan

The General Army Council = Board of Dept. Com. office defalcations - Keough motion to the  
under Adj. Gen.

The Med. Army Council created toward end of year. Jones, Moymuth, etc -  
or equivalent med. corps (W.O. and a lot Cedric Morris). General policies re  
left to them for regulation. Orthopedics not recognized.

Almond from the first W.O. used to go to War. Office - a civilian board who  
was consulted.

Keough gave notice - fixing one right over - civilian or officer should trust him.  
Eq. first gas bombs - does & minimize on them - then ammonia - then ship by the  
freight - chlorine expect some ammonia all wrong. Keough thought Ogle and  
Jones. K. would suffer foul smells - espec. after Dutchers - bad smelling smoke happen.

W.O. last man to give over this episode Main cause of his illness.
