

Office of Director of Medical Service, 86 Strand, London, W.C. J. George Adami to W.O. 30th August 1916.

CV5417/2.7

(typewritten)

My dear Sir William, I return herewith Bruce's letter. I do not know whether I am sorry or not that you have approached him in this matter, because I already have information that he has shown your letter to the Minister, and that Minister is raging mad, and I may be called for at any moment by him. It would bring affairs to a crisis, and very possibly lead to my resignation. If it does this, it will give me an opportunity to oppose publicly what in my heart I believe to be a wretched piece of work, utterly dis-creditable to the Canadian Expeditionary Force. Yours ever, J. G. Adami.

P.S. I have ventured to make a copy of this letter. Do you approve, or shall I forward it for you to be destroyed?
