Research Committee April

about 1913

In connection with the insurance act, Lloyd Jones (the 'Madison') put  
into the law that a factory should be insured for every insured person.  
Madison made him self useless to S.G. in getting the act through & something  
was difficult to get medical profession. Amount to £ 67,000 a year.  
A Medical Research Com. & Lord Moulton as Chairman

Madison  
Main part under Jones  
Council of Science  
has passed £ 200,000 a year

Secure that Vernon Jaker-Hugh Stamford as place to work, act running  
for years as enough saved to equip it. (Grant for the fund not yet been  
but in other universities and under control of Government)

Council now Scientific men largely, until he allowed £ 100,000 for agreement  
was getting under way when was broken out of place because of the  
under Lewis' Clark Hospital for air force under H. H. H. H.  
Held that there was to be an office to give help refused.

Mesoporphyrin, heat stable - want of vitamins - conjugate mineral, sulphur.

James H. H.
