

Cole's surgical relations further shown in his early paper on Duodenal ulcers Mar. 1887

Again in Notes and Comments, 2nd installment - April 1887

Amongst the first notes about Cholecystotomy called it to the attention of American
surgeons after von Langenbeck and Jastr's papers. He recommends a cure for
gallstone to operate upon & stone in common duct & death, (his first idea
apparently of intermittent biliary fever

has this
been used?

Notes & Comments. Review of Dr. Bowser's Memoirs of the Life of Guyer in England Oct. 1887 / 2. 189
