

Dear Mr. Coy:

Mr. Marshall could not be admitted without Biology and German. Biology is a major subject on which they cannot be conditioned, and moreover the short six weeks summer term at Wood's Hall would not be the equivalent in any way.

With reference to Mr. Rice, he, too, could not enter without Biology, and he evidently has had no work in French or German.

Both cases might come up before the Faculty at its next meeting.

In the case of Mr. Fayweather, he could very probably make up his Biology in the 4 months at Chicago.

I enclose an application from Miss Morse. Please write to Dr. Van Meter and say that her qualifications are quite sufficient.

Very truly yours,

Wm. Osler
