12 Marlboro' Street.
Bath.

Fred Johnson to Sir William Osler.
6th June 1913.

Dear Sir,

Many thanks for your letter with cheque. I enclose a formal receipt for the same.

I was not aware that you required any other MSS. collated than the two at Norwich: in your former letters you only referred to them. It is rather doubtful if I could get to Oxford just yet, as on my return to Norwich on the 9th I shall have some arrears to work off - but perhaps I could manage it later on, but could you not have had it done there, equally well and so save the expense of my journey?

I am not quite clear from your letter whether there are several more MSS. to collate - I infer there are some at the Bodleian and Pembroke also at the British Museum, as well as your own and Dr. de Haviland Hall's. You mentioned nothing about these in your former letters, therefore I did not include them in my estimate; perhaps you would prefer for me to send you another estimate for this - if you will be so good as to send me the details that are required.

I only refer to this in order to avoid misunderstanding.

Yours very truly,
Fred Johnson.
