**Dr. Osler Victimized.**

President Remsen at the alumni dinner of Johns Hopkins University last night declared that Dr. William Osler suffered so much from sensitiveness over the "Osler theory" reputation that he has travelled always since then under an assumed name. Dr. Remsen further said, despite denials made by Dr. Osler in December last, that Dr. Osler will give up his professorship in Oxford University and will return to Johns Hopkins University in September next. The dinner, which was laid for fifty, was presided over by John H. Finley, president of the College of the City of New York. Other speakers were Dr. John S. Billings, E. R. L. Gould, H. S. Bird, who told of the athletic department, and Prof. Henry D. Thompson of Princeton, who talked humorously on taxation.
