Repair
of
Tomb
of
Avi-
cenna.

You may remember that just before the war there was a proposal to repair the Tomb of Avicenna at Hamadan. Permission has been obtained from the Shah, and we were able to form a Committee and frame a circular asking for subscriptions. What I would like to know is if you have recent information about the conditions in Persia, and whether you think it would be a suitable time to go on with the suggestion? You may remember I spoke of it at the meeting of the Society at which Margoliouth read his paper. X
