

CUS417/39.59

Dear MacAllister,

Thanks for the cheque!

About the Avicenna matter - we passed a motion at our Section to approve of the scheme. Should it, think you, receive the official sanction of the President? We are going to ask the co-operation of the Royal Colleges, and I think it would be nice to have the work done under the auspices of the Historical Section and of the French Society for the History of Medicine. I am waiting the official sanction from Persia before issuing the circular. I have written to Bryce.

May 29 1914.

MDr MacAllister.
