July 4th,

Dear Jonah,

.....

We are both very worn out and hope to go away soon to Jersey.. Channel Islands, where we have taken a house for six weeks. Sir William is sending ~~an~~ <sup>you</sup> an address he gave the other day before the Classical Association. We all expect Dr. Morse on Monday for a visit- he has been demobilized & back from India or somewhere hot- Veits was here the other day- fresh from Berlin- & then went back to Coblenz- He is more Oxonian than ever. We had Gen. Pershing & half the American Army here last week getting degrees. Sir William sends his love as I do to you both.

Always affectionally,

(signed) Grace R. Osler.
