Dear Viets

Thanks for message - am all the better for my 70th ~~61~~-day. Pineal shadow in the monthly xray picture less intense, the very next day.

The De Staticis exper. section of Cusa translation is here - what shall I do with it? Send to Boston or are you likely to be here? ^{plaut} You could work it in a paper very well. There is good stuff. I sent the Plaut Exper. with a brief note to the Annals some time ago but have heard nothing. We had a great presentation of the Vol. Allbutt looked so well We hope to go to Jersey Aug. 1st.

Sincerely yours,

WM. OSLER
