No 3.

216 Charles St.

Bellefonte Pa.

Dear Mr. Leesling.

Sept 5-1820
May

I received yours of April 30th yesterday and this a. m. the packet of letters. I am afraid they have not been of much service to you - if at you may see some of them get a glimpse of some of his fine traits of character. I have given up all hope of finding those letters. Their loss is a lasting grief to me.

None of the Cheekleys are alive - The Rev. W F Cheekley

and in 167 I think went
to McGill. During his
course there we corresponded
regularly. At first he seemed
to be restless, undecided -
but he speedily settled down.
His letters of those years
showed that he loved his
work and he used to speak
of the professors in kindly
words, particularly of D Howard
for whom he had the greatest
admiration. How I miss
those letters!

Jimmie Morgan belonged
to Barrie where his family
held very prominent position
Law, Church, Medicine etc

I am not sure about the
old Barrie 'Grammar School'
It seems to me I have
heard that it was dismantled
and a Collegiate Institute
erected on its site - Of course
I am not certain as to
this but will find out and
let you know.

I went to Barrie in the
early Fall of '63 remained
there to the end of '64 - and
in the Spring of '65 went to
a private school in Georgetown
& meanwhile had gone
to Weston - afterwards to
Toronto. I do not think

3

my memory is playing
some tricks concerning
Santes, but we never can
tell -

Now about your projected
visit to Toronto. It happens
that I shall be in Toronto
on June 22nd to act as
Examiner at the Departmental
and University Examinations.
I shall be engaged on
these for twelve (2) days
and then I shall be
free. I should be delighted
to re-visit with you those
early scenes, though I

2

was Principal of the Barrie
Grammar School' for many
years - I was sent there
in Aug /63 - I came soon
after, and, as far as my memory
serves me, staid there till
the Fall of /64 - So then the
year he refers to and about
which you ask, must have
been (the winter of) /63-64 - after leaving
Barrie he went the School
at Weston of which the Rev. W. A.
Johnson was the founder
- remaining till the Fall of
/66, when he began his
Medical course at the
Toronto Medical School
with which the eminent
Dr. Bovell was connected,

4

when we were in Barrie
he was a 4th year student
in the University of Toronto
we used to meet twice at
vacation times and in this
end became great friends.
I never corresponded with
him - hence his (P's) question

I wish so much that I
could be of service to
you in your work of
love - but I seem quite
powerless - I live over
those years and in fancy
go back to Kempangelt Bay
and the scenes of my best
and happiest days. Some-
times I have thought of

5

revisiting those places
but in 37 years time
must have made great
changes so much so
that probably I should
be all at sea. I shall
try to find if any of the
Johnsons are still living.
Some of them might possibly
know something.

I shall let you know
the result. I hope you
are meeting with better
success in other quarters
than you have with me.
Wishing you good luck,
yours sincerely
E. F. Wilburn
