Dundas = The Valley City.

As one approaches from the east towards a view of the town in the valley the lake beyond to the east of the big closed Niagara Escarpment dipping away to the north, while westward is a panorama of great beauty and geological interest in the famous Kames, Morainic hills and glacial drumlins which fill the valley from the west end of ancient Lake St. Lawrence's borders to Copeland.

The approach from the east towards a panorama of rare beauty, the town in the valley, the lake and bay to the east while westward

As one approaches Dundas from the east there unfolds a panorama of rare beauty and unusual geological interest, <sup>the western end of ancient Lake St. Lawrence to the east</sup> ~~the town lies in the valley, the lake and bay to the east~~ the big closed Niagara Escarpment to the north while westward lie the famous Kames, Morainic hills and glacial drumlins.
