

1028/76/8

CUSC/17/76.8

Sep. 1880

Beginning to take negative or influential role in "list" meetings.

Palmer Howard was President

September; Gen. orred Ans. Attoria. Found paper on Pathology Equini also. Cf. minutes.

"A most interesting and instructive feature of the meeting was a exhibition by Dr. Osler of a series of specimens, microscopic and macroscopic, illustrative of the morbid anatomy of the brain and spinal cord." There were 25 specimens and "a printed catalogue with a brief description of each specimen shown, was distributed, and enabled all to understand and appreciate the exhibit."

Howard gave a notable address advocating a National ~~Public~~ <sup>Board of</sup> Health for the Dominion, as well as one for each Province.

Other normal time Harper he limited to 1/2 hours.

" and on Pub. Comm. again in Zimmerman ann

" also put on Comm. on Ethics
