113 Boylston St

Boston Aug 17 1882

Dear Dr. Coker

I always read  
with pleasure what  
you write & I thank  
you for yours on Impugnans.  
I think it will do  
<sup>to them</sup> good as it has helped me

1187178.11  
I have sent it to-  
day to Dr. Hedges  
with whom I have  
been consulting for a  
few weeks past - and  
for whose <sup>patient's</sup> therapeutics  
will be needed next week  
certainly or almost certainly.

And now I have a  
favor to ask of you.  
Will you ask the maker

of Mr Roddicks instrument  
to send to me, if possible,  
by return mail or by  
express one of them -  
and will you trust me  
enough to be willing to  
be responsible <sup>to him</sup> that the  
expense shall be paid  
as soon as the instrument  
arrives. I prepared a

similar one years since

but from your description  
I think Dr. R's is more  
thorough & efficient. But  
I hope to have a modifica-  
tion of such an instrument that  
will be beneficial. I want  
it soon, if possible, for the  
above patient.

I was very sorry that my  
health prevented so long a jour-  
ney as Mr. — to meet the  
Association for Advancement of Science  
Yours very truly Henry D. Perdrick
