FACULTY OF MEDICINE.

SUMMER SESSION.

1883.

The Eighth Summer Session of the Faculty of Medicine will begin on the 12th of April, and continue 12 weeks.

The Classes are chiefly practical and demonstrative, and are designed to supplement and extend the teaching of the regular Winter Session.

The records of qualifications of candidates for the degree show that a large majority of the senior students take either one or two Summer Sessions, and this is regarded by the Faculty as the best indication that the extension of its work in this direction meets a real want, and is duly appreciated.

For the past four Sessions there has been an attendance of between 40 and 50 students, including usually several from other schools, who are received on the same terms and have all the advantages of regular students.

The special advantages of attendance upon a Summer Session are :—

(1) The benefit derived from the practical and demonstrative classes.

(2) Dresserships and Clinical Clerkships are more easily obtained at the Hospitals, and the student has more time at his disposal to follow up the cases.

(3) Cases of Midwifery are obtained in greater numbers at the Lying-in-Hospital.

(4) Systematic study can be carried out more effectively than at home.

The advantages offered by the city of Montreal for the practical study of Medicine and Surgery are unequalled in the Dominion. In the wards of the General Hospital there is always—and more particularly in the summer months, when navigation is opened—a large collection of interesting medical and surgical cases. In the out-door department there is a daily attendance of between 60 and 70 patients, which affords excellent instruction in Minor Surgery, routine medical practice, and Diseases of Children. The Eye and Ear Department will afford to the student an opportunity of studying practically, under skilled direction, these important branches. At the University Dispensary there will be Demonstrations on Gynæcology, on Diseases of Children, and on Diseases of the Skin.

Dresserships and Clinical Clerkships may be obtained on application to the Attending and Out-door Physicians.

The Faculty has much pleasure in announcing the following prospectus :

Clinical Instruction at Bedside. { **The Physicians and Surgeons in attendance.**

Daily. } **Medical Clinic**—Chiefly on Diseases of Heart and Lungs. Weekly. } **Geo. Ross, A.M., M.D.**

Weekly. } **Surgical Clinic**—Chiefly on Orthopaedic cases. Weekly. } **T. G. Roddick, M.D.**

Wednesday and Saturday. } **Clinic, General, at Montreal Dispensary.** } **Drs. MacDonnell and Sutherland.**

Weekly. } **Gonito-Urinary Surgery**—A course of six Clinics on Diseases of the Bladder, Urethra, &c. } **G. E. Fenwick, M.D.**

Weekly. } **Diseases of Women.**—Methods of examination and points for diagnosis; use of instruments; disorders of menstruation; leucorrhœa, its causal relations and treatment; pelvic cellulitis and peritonitis; lacerations of the cervix uteri and perineum; tumours of the uterus; displacements of the uterus; diseases of the ovaries. } **W. Gardner, M.D.**

Weekly. } **The Urine**—In Health and Disease; urinary deposits; chemical and microscopical characters; abnormal constituents; modes of analysis. } **R. L. MacDonnell, B.A., M.D., M.R.C.S. Eng.**

Weekly. } **Practical Gynæcology**—For senior students. At University Dispensary. } **D. C. McCallum, M.D., M.R.C.S. Eng.**
Thrice weekly. } **W. Gardner, M.D.**

Practical Obstetrics—Instruction in the diagnosis of presentations and clinical management of cases, at Lying-in-Hospital. } **A. A. Browne, B.A.,**
M.D.
