Sept 5-6, 1883

13, Newham Pds.

Oxford

CVS417/79.15

Dear "Hardy",

Such a delight to see the two Revere Sisters and Brother together. Lady Carter & I motored down on Good Friday via Amesbury & Salisbury to spend the night at Hamble & then met the Lusitania at 1/2 pm yesterday & we all motored back. Glad to get news of you & to hear you had a good holiday.

Canada Medical & Surg. Jour, ^{5-6(?)} Sept 1883, vol XII

Dupuis' article

pp. 124-5. under "editorial" is given an account of the Canada Med. Assoc. meeting at Kingston. ^{and} "In the medical section Dr. Dupuis' communication on Medical Ethics caused no little commotion. It struck at the root of all principles of professional conduct, and under a proper supervision of papers its presentation would not have been allowed." We sincerely hope that the Doctor's practice is better than his profession." - - -

It was at this meeting that Sir William was secretary (vide same Journal p. 105) and I think it was Billy Francis who told me how worked up W. O. got at

this particular paper & and waved a copy of the Code of Ethics
in the man's face whilst he was giving his address. Shall
write to Bill about it. Can pp. 112-113 you will see a
brief summary of Dr. Dupuis paper.

~~Same Journal, Oct. 1887, vol. XVI p. 191~~

Perhaps you have already seen W. O'A "Notes and
Comments" in vols. XV & XVI of the Canad. Med. & Surg. Jour.
I cannot find them noted in Maudie Abbott's biography
of the Canadian period. I shall give you the references
on a separate piece of paper - also another obit.
notice, likewise not noted by Maudie. Be it understood
that I have not had time to burrow through all
the volumes. It is so interesting - those old volumes
and I was hunting for old references to exhibitions of
cases by my father. Do please look these up as you
will find some interesting things he wrote in his early days in
Phila. to the Jour. in Montreal - on exams - on R.L.S. - on Wilson
Fox (with remarks on him as he knew him in Lond. at Univ. Coll. Hosp.
on doctors calling cards - on gas treatment of Pithuris (per rectum) -
on various signs, (referring to cases) which I recognise that he made
use of in writing the textbook. Such a nice sketch of Austin Flint
to in vol. XIV. Would like so much to be with you & see
& hear how you are getting on. Kindest regards to Mrs. Cushing
Affect. yours
R.M.
