(To Dr. H.V.Ogden)

Dec 23rd 1883

Dear Ogden:

We are equally bad correspondents, so I cannot abuse you for not having written, but do drop a line occasionally, and say how you are progressing. Everything here is quiet. The only news of great interest is Buller's engagement to a Miss Langton: - a great unknown. I have only just heard of it and know nothing of the young woman. I hope it is all right. I should not like to see the landlord mated with a shrew. The school progresses - over 200 students this year. The endowment fund gives promise of great improvement in all the branches.

All the children send love.

Yours sincerely,

Wm. Osler.
