Aug. 5th. 1884.

Dear Tyson,

I find Osler was elected a F.R.C.P. Lond., May 17. 1883.

"This is the highest honour the profession can bestow. I always means the appreciation by the very best judges of good scientific work well done. The Canadians who have succeeded in winning this coveted degree are very few, and in each case the entire profession may consider itself honoured by the selection of one of its members for such a marked distinction".

Canadian Med. and Surg. Journal. June, 1883 p. 767.

This may be of use, so I send it to you.

Yours truly,

J. M. H. (2)

Miss Hayes
