Mr. Tyson

My dear Sir,

I am personally acquainted with Dr. Oller, and

I am fully cognizant of his position as a physiologist and a clinical ~~teacher~~ ^{observer}.

As ~~I~~ regard his ability to teach practically

A Chinese medicine in your
possession from Dr. ...

your son, ...

A. J. ...

in the lecture room ^{and} ~~at~~
at the bed side, I have
no definite information.
Judging, however, by his
manner of speaking at
a meeting of the New
York Pathological Society,
I think there could be
any doubt as to his
being a successful and
teacher. I know of
no one who could
have better promise
of being the man
