(Postman June 18 1884)

Dear O.

I have so often thought of writing to you but one thing or another prevented me. Have been in Germany since April 6th. Was 10 weeks in Berlin with Howard, who is there still. Like this place very much. Am in Cohnheim's Lab, going for the bacteria and working with Weigert at brain slicing. Shall be able to give you some nice preparations. Hope you are getting on. Let me know if I can do anything for you. Shall go to London (25 Russell Sq. W.) about July 8th and leave for home Aug. 7th. Let me have Cantle's address, have mislaid it. Tell him when you write next that "his bt. sm. hts. me still". Kind regards to Dorland.

Yours sincerely,

Wm. Osler.

No to be
in 10/11.

On this or the following day he must have received a disturbing crucial letter forwarded by Sheppard from Montrose and he writes both Sheppard and Ross as follows:
